Chapter 243: Unbelievable Luck, Endless Opportunities

"A tribulation?"

Jiang Fan saw the five loose cultivators filled with evil qi and malice, and he immediately realized that his tribulation had arrived.

Opportunity and tribulation are always intertwined.

In recent days, he indeed had constant opportunities.

But the tribulation qi on him was also continuously accumulating.

So it was just after entering the Lingxi Secret Realm that he encountered a few ill-intentioned tribulation cultivators.

This must be the attraction of the tribulation qi.

However, this kind of tribulation was not a death tribulation.

Considering his current prowess, if these five loose cultivators wanted to harm him, they were purely courting death.

Indeed, the best way to deal with tribulations is still to quickly enhance one's strength.

As long as one's strength is strong enough, any tribulation can be easily resolved.

"What do you want?"

"I advise you to leave before you bring trouble upon yourselves."

Thinking of this, Jiang Fan addressed this group of cultivators, offering advice in good faith.

"Leave? Hand over your storage bags, and we will leave."

"You must know, this is the Lingxi Secret Realm."

"Crying for help won't bring anyone."

"You don't think anyone can help you, do you?"

Chen Liangyu and the others stared at Jiang Fan and Su Weiwei recklessly.

They completely treated these two as fat sheep, ready for the slaughter.

For them, they've done similar things countless times.

Otherwise, as loose cultivators, their cultivation speed wouldn't be this fast.

"Since you're seeking death, I'll grant it to you."

Jiang Fan looked indifferently at the group of cultivators, exuding an endless killing intent.

At that moment, he instantly activated the Life Talisman deep in his Elixir Field and Sea of Qi—the Soul-Shaking Talisman.

The skill level of this Life Talisman had already reached the proficient level.

Whether in power or speed of execution, it was much stronger than before.

Boom~~~

In an instant, an invisible soul wave swept out, creating ripples in the air.

In the blink of an eye, it struck Chen Liangyu and the others.

"What's happening?"

Originally, Chen Liangyu and the others, as the Five Evils of Yunlai City, were exceptional among tribulation cultivators and had been very vigilant toward Jiang Fan and Su Weiwei's every move.

Unfortunately, the power of the Soul-Shaking Talisman was intangible and formless, with no visible actions when deployed.

No matter how hard they tried to imagine, they couldn't know when Jiang Fan would strike.

More importantly, the power of the soul attack could penetrate ordinary defensive magical artifacts.

After all, magical artifacts that could defend against soul attacks were extremely rare.

Even if such an artifact existed, ordinary loose cultivators would definitely not have access to it.

Caught off guard, they had no way to prepare any defenses.

Bang!

The next second, Chen Liangyu and others felt a jolt in their heads, as if someone had struck them with a hammer.

For the first time, they experienced dizziness and momentarily blank consciousness.

A strong stabbing pain spread throughout their bodies, the first such attack they had ever encountered.

Blood poured from their eyes, mouths, and other parts.

Faced with the Soul-Shaking Talisman's power, they were utterly powerless.

"Die!"

At this moment, before Jiang Fan could strike again, Su Weiwei took action.

With a mere thought, she quickly deployed the Six-winged Poison Bees.

The Six-winged Poison Bees, long prepared, fluttered their wings and turned into silver streams of light, swarming toward the five loose cultivators as their tail stings pierced through.

In an instant, the poison needles easily penetrated the defenses of Chen Liangyu and the others, piercing their physiques.

But it wasn't just the penetrations; the most potent force of the Six-winged Poison Bees was their poison.

This was the primary reason they were termed ancient calamities.

Once poisoned by them, it was nearly impossible to cure.

"Aaaaah!!!"

At this moment, Chen Liangyu and the others couldn't help but scream horribly as the terrifying poison erupted within them, rapidly destroying their physical vitality and spreading massively through their bodies.

In just the span of a breath, they succumbed to the deadly poison.

"Not bad."

"It seems you know how to use the Six-winged Poison Bees."

"I didn't expect your progress to be this rapid."

Witnessing this scene, Jiang Fan's eyes lit up.

He felt Su Weiwei was also becoming capable of handling things independently, quite assertively effective in her actions.

Of course, more importantly, Su Weiwei's strength could not be underestimated.

Her defensive power was indeed somewhat lacking.

But in terms of attack power, Su Weiwei's Six-winged Poison Bees were absolutely fearsome.

"I don't know why I'm progressing so fast."

"It seems like I just naturally learned it."

"Almost as if I became the Queen Bee of the Six-winged Poison Bees."

Su Weiwei blinked her beautiful eyes.

She felt her compatibility with the Six-winged Poison Bees was quite high.

The Taiyin Qi within her body constantly promoted their growth.

This naturally led the two sides to achieve a Unity of Man and Pet realm.

To say the least, this was a state innumerable beast cultivators dreamed of achieving.

Yet Su Weiwei, unknowingly, achieved it.

"However, it seems we entered the Lingxi Secret Realm quite late."

"Before we entered the Lingxi Secret Realm, a large number of loose cultivators had already come in."

Jiang Fan also realized that the opening of the Lingxi Secret Realm attracted a large number of loose cultivators.
