Chapter 252: The Opportunity Has Come, Harvesting the Foundation Establishment Spirit Medicine
Golden Jade Ganoderma_2

Originally, he thought twenty thousand Luck Points were a lot, but it turned out to be quite easy to spend; in the blink of an eye, not much was left.

However, all this was evidently worthwhile.

After refining the Primordial Talisman Pen, he had acquired the entire inheritance of the Primordial Talisman Sect.

Additionally, engraving the Celestial Thunder Talisman had greatly enhanced his battle prowess.

No matter which it was, both were quite worthwhile.

At the same time, the skill level of his Cyan Lotus Earth Fire Talisman, Yin Yang Mandarin Duck Talisman, and other talismans had improved, finally reaching a proficient level.

"What a pity, the Soaring Snake Technique still hasn't broken through."

"If it could break through, perhaps my lifespan would surge further."

Jiang Fan was highly expectant.

After all, merely the Soaring Snake Technique from the Qi Cultivation Chapter had already caused his lifespan to surge, reaching five hundred years.

If it advanced to the Foundation Establishment Chapter, he couldn't even imagine to what level his lifespan could increase.

Unfortunately, he only obtained the Qi Cultivation Chapter and Foundation Establishment Chapter.

Where to find the rest of the Chapters of the Soaring Snake Technique remains unknown.

But he wasn't very anxious either.

After all, the Soaring Snake Technique from the Foundation Establishment Chapter is enough to keep him cultivating for a long time.

Given his abundant destiny, it's likely that he will eventually collect the remaining Chapters of the Soaring Snake Technique.

It's merely a matter of time.

"Husband."

"The time until the Lingxi Secret Realm closes is near."

"Are we really not going to vie for opportunities?"

Su Weiwei lay in Jiang Fan's arms and asked.

She felt it was truly a pity to not fight for the spirit medicines after entering the Lingxi Secret Realm.

Moreover, her husband was already a Foundation Establishment cultivator, with further enhanced strength.

He might easily sweep away those loose cultivators and sect cultivators.

The only threat might be the Tier Two Demon Beasts in the Lingxi Secret Realm.

"No rush."

"Opportunities aren't something you can obtain just by trying hard."

"It still depends on timing."

"Once the time is right, the opportunities will naturally come."

Jiang Fan smiled slightly.

After his Fortune-Telling Talisman advanced to a proficient level, his foresight into fortune and misfortune became sharper.

Especially after awakening his innate divine technique—Emperor's Gaze.

At this moment, he saw a huge surge of golden destiny on Su Weiwei's body.

Evidently, Su Weiwei was now surrounded by heavy destiny, like the child of destiny.

A person with such destiny is absolutely not going to return empty-handed.

Of course, he also used this divine technique to look at his own destiny, yet saw nothing.

It was as if a black hole, void and empty.

He felt this might relate to his Life Chart.

Even this divine technique couldn't glean his destiny.

"Hmm?!"

At this moment, Jiang Fan was stirred; he perceived his Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi vibrating, seemingly strands of black tribulation qi emerged over the valley, as if a catastrophe was approaching.

"Husband, what's wrong?"

Su Weiwei saw Jiang Fan's expression and curiously asked.

"It seems some uninvited guest is coming."

"Get prepared first."

Jiang Fan didn't say much.

The two quickly rose, dressed, and walked out from the cave to outside the Nameless Valley.

Bang~~

Just then, five figures suddenly appeared in the distance, dressed in blue Daoist robes.

They were all Ninth-Layer Qi Cultivation cultivators.

Only now, these five cultivators, panic-stricken, were fleeing quickly because they were being chased by a Tier Two Early Stage Demon Beast.

This Tier Two Demon Beast was the Black-Scaled Beast, with a massive body resembling a small mountain, clad in black scales, emitting terrifying demon qi that soared to the sky, chilling anyone to the core.

As it moved, it seemed earth and mountains shook, the ground trembled.

All five came from the Five Elements Pill Sect as Inner Sect disciples.

One among them was the True Disciple Zheng Hao.

They were inside the Lingxi Secret Realm, seeking Foundation Establishment opportunities.

After all, being Ninth-Layer Qi Cultivation, even as disciples of the Five Elements Pill Sect, obtaining a Foundation Establishment Pill isn't easy.

If they could obtain some Foundation Establishment Spirit Medicine, they'd gain great Contribution Points.

By then, exchanging for a Foundation Establishment Pill would be much easier.

Indubitably, the strength of Zheng Hao and others was eminent among numerous cultivators.

Upon entering the Lingxi Secret Realm, they were practically invincible, having plundered numerous loose cultivators.

Simultaneously, they collected plenty of spirit medicines in the Secret Realm World.

However, upon arriving at a medicine valley, they found a Foundation Establishment Spirit Medicine, Golden Jade Ganoderma, leading to their ecstatic and immediate action to seize it.

Who could have thought, this medicine valley was guarded by a Tier Two Early Stage Black-Scaled Beast.

As a result, they were immediately hunted by the Tier Two Demon Beast.

To survive, Zheng Hao and others had no choice but to flee everywhere, hoping to escape alive.

In desperation, they ended up in the Nameless Valley where Jiang Fan and Su Weiwei were.

"Senior Zheng, there seem to be two loose cultivators ahead."

Someone immediately noticed Jiang Fan and Su Weiwei.

"Haha, it's truly heaven's help!"

"Finally found two scapegoats."

"With these two helping us block the Tier Two Black-Scaled Beast, surely we can escape alive."

Zheng Hao said joyously.

Though they were absolutely no match for the Tier Two Black-Scaled Beast, they didn't need to fight it. As long as they escaped its attack range, they could survive.

If these two loose cultivators could hinder the Black-Scaled Beast's actions slightly, they would surely escape swiftly.

Thus, seeing a hope for survival.

As for the fate of these two loose cultivators, it was beyond their consideration.

Anyway, they were just humble loose cultivators, dying for them was simply an honor for them.

Thinking this, Zheng Hao and others' eyes showed a fierce glow, almost without hesitation, quickly flew towards Jiang Fan and Su Weiwei.

"Husband, these bastards want to bring misfortune to us, luring the Tier Two Demon Beast here."

Su Weiwei's face changed greatly seeing this scene.

She could instantly discern the malicious intent of these five cultivators.

A surge of anger rose within her.

No doubt, these five were absolutely not good people.

"Two Daoist friends, we are Inner Sect disciples of the Five Elements Pill Sect."

"If you save our lives, we will reward you generously in the future."

"Oh, here's a Foundation Establishment Spirit Medicine, Golden Jade Ganoderma, consider it a gift."

Zheng Hao shouted, addressing Jiang Fan and Su Weiwei.

Then, he tossed the Foundation Establishment Spirit Medicine to Jiang Fan and Su Weiwei.

Evidently, the Tier Two Demon Beast Black-Scaled Beast was relentlessly pursuing them due to this spirit medicine.

If they tossed this spirit medicine to the two loose cultivators, the Black-Scaled Beast would definitely focus on them, ignoring the five.

While losing the Golden Jade Ganoderma was regrettable, compared to their lives, it was nothing.

No matter how great the opportunity, if you can't survive, it's of no use.

"You're really courting death."

Jiang Fan didn't even glance at the thrown Golden Jade Ganoderma and fixedly stared at Zheng Hao and others, exuding deep murderous intent.

For such malicious individuals, he had no intention of showing mercy.

Bang~~

Instantly, Jiang Fan activated his Life Talisman—Golden Light Talisman.

After advancing to Foundation Establishment Realm, the power of the Golden Light Talisman became even more terrifying.

The Golden Light Talisman shook immediately.

He lightly pointed, and streaks of golden light suddenly erupted like golden sword qi blasting forth.

The speed was unbelievably fast, like lightning.

What?!

Zheng Hao and others were instantly stunned, not yet reacting.

Golden lights struck swiftly, incredibly fast, and suddenly hit their heads.

In an instant, their heads were smashed like watermelons.

Even Ninth-Layer Qi Cultivation cultivators, facing a Foundation Establishment cultivator, were like ants, utterly insignificant.

Immediately, five headless bodies appeared on the ground, blood spilling everywhere, staining the area red.
