Chapter 253: Foreseeing the Future, Gaining Opportunities Without Leaving Home

Boom~~

At this moment, the Tier Two Early Stage Black-Scaled Beast arrived in an instant, appearing in the valley.

Its massive body exuded a strong oppressive presence.

Every black scale on its body was immensely powerful, and ordinary attacks had no effect on it whatsoever.

A murderous aura filled the surroundings.

Its claws were extraordinarily sharp, seemingly capable of tearing the earth and shattering mountains with a mere swipe.

No wonder Zheng Hao and the others fled for their lives in terror, not daring to linger.

Facing such a terrifying Tier Two Demon Beast, they were completely outmatched.

Any magical attack landing on its black scales was like a tickle, leaving it utterly unharmed.

"Husband."

Seeing this, Su Weiwei felt a sense of suffocation, reminiscent of their escape a few months ago in the Ten Thousand Beasts Mountain Range, when they encountered a Tier Two Golden-Scaled Beast.

Back then, the beast hadn't even appeared, yet it scared them into fleeing for their lives, nearly dying in the process.

But now, they were directly facing the same Tier Two Demon Beast.

However, the situation had completely changed now.

Because Jiang Fan was no longer a weak Qi Cultivation Stage Cultivator but had ascended to Foundation Establishment.

His strength was no less than that of this Tier Two Black-Scaled Beast.

"Roar!"

At this moment, the Tier Two Black-Scaled Beast fixed its gaze on Jiang Fan.

Although its intelligence was not particularly high, its instinct as a Tier Two Demon Beast sensed the terrifying power of Jiang Fan, far surpassing the human cultivators it encountered earlier.

So, it calmed down and dared not attack rashly.

"Tier Two Demon Beast, huh?"

"It's perfect to test the power of my Celestial Thunder Talisman."

Jiang Fan fixed his gaze on the Tier Two Black-Scaled Beast.

He wasted no time, immediately activating the Life Talisman deep in his Elixir Field and Sea of Qi—the Celestial Thunder Talisman.

This was also the first talisman he inscribed after ascending to Foundation Establishment.

Rumble~~

Instantly, a vast amount of Primordial Spiritual Power poured into it, causing the Celestial Thunder Talisman to tremble.

In the space between heaven and earth, endless power of celestial thunder gathered, enveloping his entire body in lightning, as if summoning the thunder of heaven and earth, unleashing a destructive aura.

"So this is the power of Foundation Establishment cultivators?"

At this moment, Jiang Fan instantly understood the might of Foundation Establishment.

Although he had tried some Foundation Establishment powers before, it was nothing compared to a real life-and-death battle.

If the power of Qi Cultivation Stage cultivators comes from spiritual power within.

The power of Foundation Establishment cultivators is not just from spiritual power within but also from the power of heaven and nature.

Upon reaching Foundation Establishment, the liquid spiritual power and Foundation Establishment spiritual sense can resonate with the power of heaven and earth.

This way, a Foundation Establishment cultivator can manipulate various spiritual Qi and natural forces with just a thought.

Thus, Foundation Establishment cultivators can achieve flight and other abilities.

The power they unleash is dozens of times greater than that of Qi Cultivation Stage cultivators.

The two are not on the same level at all.

After all, one uses internal power, while the other uses the power of heaven and earth—how could they be the same?

As for talisman cultivators,

they leverage the power of talismans to more easily mobilize the forces of heaven and nature.

Therefore, the spells cast by talisman cultivators are more formidable.

Because of this, when activating the Celestial Thunder Talisman, Jiang Fan immediately found the power of celestial thunder permeating heaven and earth, spiraling toward him in frenzy for his use.

He was able to unleash not just the inherent power of celestial thunder from the Celestial Thunder Talisman.

But also the power of celestial thunder between heaven and earth.

The combination of both forces constituted the Celestial Thunder Talisman.

The next second, Jiang Fan made his move, waving his hand to summon the celestial thunder.

A great amount of celestial thunder power gathered.

The phantom of the Celestial Thunder Talisman appeared in the air, mysterious and profound.

Bolts of purple celestial thunder descended from the sky, locking onto the Tier Two Black-Scaled Beast's aura and blasting toward it.

In this moment, Jiang Fan seemed to transform into a Thunder God, wielding the authority of Thunder Punishment.

Making all creation tremble in fear.

Bang!

The Tier Two Black-Scaled Beast never expected this human cultivator to wield the power of celestial thunder, unable to dodge in time, it suffered the full brunt of the attack.

Instantly, the black scales on its body shattered.

Bolts of celestial thunder filled with destructive power and terrifying piercing force.

Like Godslaying Spears, they effortlessly punctured its body.

A large amount of blood spurted out.

The hard black scales appeared extremely fragile.

The Tier Two Black-Scaled Beast let out a wail, helpless.

One of the celestial thunder bolts easily pierced through its skull, killing it instantly.

With a boom, its massive body collapsed to the ground, blood flowing profusely.

The earth suffered the bombardment of celestial thunder, becoming pitted, with soil flying.

As if bombarded by missiles several times.

The Tier Two Demon Beast that had been chasing five Inner Sect Disciples of the Five Elements Pill Sect so desperately was effortlessly slain by him, requiring no effort at all.

"The Celestial Thunder Talisman indeed lives up to its name."

Seeing this scene, Jiang Fan felt very satisfied.

He knew the Celestial Thunder Talisman's power was extraordinary, but he hadn't expected that just one strike could annihilate a Tier Two Early Stage Demon Beast, rendering it defenseless.

However, this also benefited from the power of the Mixed Element Talisman Scripture.
