

## Fortune 259

Chapter 259: Foundation Establishment Pill, Opportunity to Destroy the Wu Family

Boom~~

At this moment, Jiang Fan stood in the courtyard, looking into the distance.

He performed the Emperor's Qi Observation Skill, a golden light appeared deep in his pupils, flickering with countless mysterious runes.

Suddenly, he saw two or three black auras appearing nearby.

This represents the aura of malice.

Those cultivators hidden in the dark thought their concealment skills were remarkable.

Little did they know, their identities and whereabouts had long been revealed to him.

And this is the power of the Divine Skill of Heavenly Son's Qi Observation.

It not only allows him to see the destiny on others but also the aura of malice against him from others.

If malice appears, black aura will emerge.

If killing intent appears, a blood-colored aura will emerge.

"Husband."

"There are a total of three unfamiliar cultivators."

"They take shifts to monitor our actions."

"Not sure what they intend."

Su Weiwei actually sensed this as well.

Although living in Yunlai City was indeed quite comfortable, she still dispatched some Six-winged Poison Bees to hide in the dark, responsible for patrols, unexpectedly discovering several sinister cultivators.

This greatly shocked her, she hadn't expected merely entering Yunlai City.

To be noticed by someone with intentions, which left her baffled.

Clearly, she and her husband haven't offended anyone in Yunlai City, why are they being watched by unfamiliar cultivators?

"Since it's like this, let's just catch them and ask."

Jiang Fan was quite straightforward, without much deviation.

This was the confidence brought by advancing to Foundation Establishment.

If he were still in the Qi Cultivation Stage, perhaps he could only endure silently, meek and submissive.

But now things are different.

As a Foundation Establishment cultivator, he doesn't really need to worry about many things.

Moreover, the Fortune-Telling Talisman didn't warn him.

Clearly, these three uninvited guests won't cause him much trouble.

Whoosh!

In a flash, Jiang Fan's figure moved, reaching an extreme speed, immediately arriving in a dark alley.

At this time, three unfamiliar cultivators were hiding here, constantly monitoring Jiang Fan's house.

Originally, they were quite content.

But suddenly, they saw a silhouette appear in the alley.

What?!

Instantly, seeing Jiang Fan appear, the three were taken aback.

With the instinct of a cultivator, their first thought was to escape.

Body-Stabilizing Talisman!

Instantly, Jiang Fan gently pointed, unleashing the power of the Body-Stabilizing Talisman.

Threads of Wind Spiritual Power transformed into ropes, binding the three cultivators.

After advancing to the Foundation Establishment Realm, the power of the Body-Stabilizing Talisman skyrocketed.

Even Foundation Establishment cultivators could be immobilized, let alone these three mere Qi Cultivation Stage cultivators.

Then, the three were completely unable to move, unable to resist.

Their entire bodies seemed to be bound by countless ropes.

"Senior, spare us."

The three unfamiliar cultivators were scared to death, knowing their whereabouts were exposed, and they had hit a hard wall. Fear gripped their hearts.

"Who are you really? Why monitor me here?"

Jiang Fan asked directly, looking at the three Qi Cultivation Stage cultivators.

"Senior, it's merely a misunderstanding, we aren't monitoring you."

"Yes, we just happened to pass by, did senior misunderstand something?"

"Spare us, we're innocent."

The three cultivators quickly pleaded for mercy.

But they still didn't speak the truth, insisting on their innocence.

Clearly, they still clung to hope.

"Indeed, they'll cry when they're faced with reality."

"Well then, let's try the power of my refined Tier Two Talisman."

Jiang Fan couldn't be bothered to argue, he directly pulled out a Tier Two Talisman—Enchantment Talisman.

This was a type of talisman he skillfully mastered after advancing to Tier Two Low-grade Rune Master.

Once used, it mildly manipulates other cultivators' wills.

Making the opponent obey his orders.

Though it may cause temporary dizziness for Foundation Establishment cultivators, for Qi Cultivation Stage cultivators, it's a lethal weapon, fully controlling their soul and will.

Boom~~

Instantaneously, the Enchantment Talisman's power exploded, a red light appeared, penetrating into the depths of the three cultivators' souls, causing their gazes to turn vacant.

Originally, they were glib-tongued, full of lies.

But now, they became puppets.

"Speak."

"Who are you, what's your purpose for monitoring me?"

Jiang Fan asked.

This time, the three cultivators no longer spoke lies.

"Senior, we are Wu Family cultivators."

"We received information from the housing office, a pair of unfamiliar cultivator couple moved into Yunlai City."

"This made us recall the infamous male-female thieves Wu Family had been pursuing."

"Thus, the Wu Family Elder had us monitor the senior, trying to ascertain your identity."

"If senior were the male-female thieves, the Wu Family would have an excuse to act."

The three unfamiliar cultivators disclosed everything they knew, under the Enchantment Talisman's power, they regarded Jiang Fan as their master, withholding nothing.

What?!

Hearing this, Jiang Fan squinted, revealing a sharp glint in his eyes.

He hadn't expected that after so long, the Wu Family still pursued him relentlessly.

He originally intended to pay no more mind to the Wu Family.

But unexpectedly, they refuse to let go, trying to stir up trouble for him.
