

## Fortune 261

### Chapter 261: Obtaining a Sixth-Grade Opportunity, Safely Crossing the Tribulation

At this moment, Su Weiwei was also startled awake from her cultivation and came out.

"Husband."

"It seems something major is happening in Yunlai City."

Su Weiwei's face was very serious as she spoke to Jiang Fan.

She could sense the turmoil seemed to originate from the inner city of Yunlai City.

Because there were waves of huge battle fluctuations coming from within the inner city.

It seemed a Foundation Establishment Cultivator had made a move, and the battle was extremely fierce.

Each clash resulted in intense vibrations, causing the ground to tremble constantly.

In fact, it wasn't just her.

All the cultivators in Yunlai City would have felt the same way.

Without a doubt, if it wasn't a Foundation Establishment Cultivator making moves, it wouldn't cause such powerful impact and destruction.

"Don't worry, this matter doesn't have much to do with us."

"Just stay at home peacefully."

Jiang Fan said to Su Weiwei.

He sensed that the Fortune-Telling Talisman deep within his Elixir Field and Sea of Qi hadn't started to vibrate.

Without a doubt, this disturbance posed no threat to him.

As long as he wasn't involved, he could naturally cross the tribulation safely.

"Okay."

Su Weiwei nodded.

She felt extraordinarily safe being beside her husband, as if all the storms meant nothing.

The two of them honestly stayed at home.

They had no plans to go out, not even the thought of going out to watch the excitement.

Just acting like outsiders, as if all of it had little to do with them.

...

In the blink of an eye, a night passed.

The turbulence from last night had completely subsided, as if nothing had ever happened.

However, Jiang Fan noticed that the three Wu Family Cultivators who had been watching him seemed to have run off, not knowing where they went.

He immediately went out to gather information, wanting to know what had happened last night.

"Did everyone hear? Last night the Wu Family, Lv Family, Xu Family, He Family and other Foundation Establishment Clans colluded with Daoist Fei Lian, intending to start a rebellion, to destroy the Tier Three Array of Yunlai City."

"But they were prematurely detected by Deputy City Lord Miao Heyan and others, who thwarted their plot, and even counterattacked the cultivators from these four families, completely quelling the rebellion."

"You wouldn't believe how fierce the fighting inside the inner city was last night, and how many cultivators died."

Immediately, a cultivator vividly described the events that transpired inside the inner city last night.

Indeed, too many people witnessed this matter to cover it up.

"No way, have the Wu Family and other four great Foundation Establishment Clans lost their minds? To dare betray Yunlai City, what were they thinking?" Many cultivators were dumbfounded.

After all, these Foundation Establishment Clans had long been deeply entrenched in Yunlai City, loyal to the city.

Who could have known that at the critical moment they would betray, colluding with Daoist Fei Lian, truly unfathomable.

"There's no choice, people strive for higher places, water flows to lower places."

"Daoist Yunlai is deeply trapped in the Nascent Soul Cave Mansion, it's likely he's not going to come back alive, so the Wu Family and others intended to follow Daoist Fei Lian to reap the greatest benefits."

"Yeah, without the Golden Core Zhenren's protection, Yunlai City is unlikely to be preserved, the Wu Family's thoughts are quite normal, if it were me, I might make the same choice."

"It's said Daoist Fei Lian was quite generous, offering a total of four Foundation Establishment Pills to Wu Family and other Foundation Establishment Clans, taking their benefits, naturally they would serve loyally."

"Turns out they were bought off with Foundation Establishment Pills, no wonder these Foundation Establishment Clans could betray so readily, sometimes the only reason for not betraying is that the price is not high enough."

"It's a pity though, they underestimated Miao Heyan and others, their schemes had long been seen through by the City Lord, so last night the City Lord moved and wiped them out completely."

"But even so, it's not easy for the City Lord and others, they suffered from the desperate counterattack by Wu Family and others, several Foundation Establishment were seriously injured, and even Foundation Establishment deaths, even the City Lord was heavily injured."

"No way, if that's the case, what future does Yunlai City have, can we continue to stay here?"

"Honestly, now we really have nowhere else to go, if we don't stay here, where else can we go."

"Indeed it is, actually this has little to do with us loose cultivators, it's just those high-tier cultivators fighting for power and profit, whoever wins does it really affect us? We're just here hard struggling for survival."

"Exactly, exactly, there's no need to sympathize with those cultivator families, we loose cultivators are just struggling to survive here."

Numerous cultivators discussed the insider story regarding the betrayal of the Foundation Establishment Clans like Wu Family.

After a night passed, the various details from last night spread amongst the ears of many loose cultivators.

They were completely unprepared for Yunlai City to experience rebellion so quickly.

This truly isn't good news for Yunlai City already in a turmoil.

"Is Wu Family really finished just like that?"

Jiang Fan blinked, no wonder those Wu Family cultivators ran away, seems like last night they were wiped out by the joint effort of Miao Heyan and other Foundation Establishment cultivators, the four great Foundation Establishment Clans are removed from Yunlai City.

The massive Wu Family, henceforth turned to dust.

After all, having offended the City Lord, it's impossible to continue surviving.

Initially he wanted to personally take action to eradicate the Wu Family.

But before he could make a move, the Wu Family had already fallen, exterminated by other forces.

However, he felt the annihilation of the Wu Family had something to do with him.

Because previously he had devoured a large amount of Destiny from the Wu Family, causing them to be entangled with disaster.
