

## Fortune 265

Chapter 265: Tier Two Body Cultivator, 800-Year Lifespan, Comparable to Peng Zu

In the blink of an eye, a week had passed.

After advancing to a Tier Two Early-stage Body Cultivator, Jiang Fan sensed that his strength and physical attributes had surged several times over, his entire body brimming with immense power.

He felt as if he were a humanoid fierce beast.

Every movement was infused with terrifying destructive power.

Even if he didn't utilize the primordial spiritual power within him, he could still battle against cultivators of the same Foundation Establishment level.

Not to mention, he had also mastered a bloodline divine technique — Palm Wind.

This bloodline divine technique elevated his control over Wind Power by several levels.

When he performed the Light Body Talisman, his speed could suddenly multiply many times, and his evasion speed was also extremely fast.

He was practically like a Child of Wind.

When casting the Body-Stabilizing Talisman, he could instantly conjure three hundred ropes of wind, instantly binding his opponent, making them unable to move or cast any magic.

Undoubtedly, having become a Tier Two Body Cultivator, his combat power had significantly increased.

During this time, he was also adapting to his skyrocketing power.

Otherwise, a slight exertion would damage the furniture at home.

But now he had finally fully adapted.

"As expected, the Soaring Snake Technique truly is wondrous beyond measure."

Jiang Fan felt deeply moved within his heart.

With a thought, he activated the Soaring Snake Technique.

The Qi and Blood Power within him started to circulate, seemingly transforming into a Soaring Snake that wandered throughout his body.

Runes deep within his flesh lit up, resonating with the spiritual qi between heaven and earth.

Endless wind qi surged in.

Simultaneously, he also felt a tremendous amount of life force within, clearly indicating that his lifespan had increased significantly.

Foundation Establishment cultivators of the same level, or even Golden Core Zhenren, probably couldn't compare to him.

He could now be called a long-lived one.

Boom~~

At that moment, he had a thought and immediately opened the virtual panel on his body.

[Name: Jiang Fan]

[Life Chart: Great Blessings Equal to Heaven, Attribute: After surviving great disasters, there will be future blessings]

[Lifespan: 800]

[Spirit Root: Earth Spirit Root]

[Luck Points: 20,000]

[Wealth: 400,000 spirit stones]

[Cultivation Technique: Soaring Snake Technique, Foundation Establishment Chapter (Tier Two Early-stage)]

[Cultivation Technique: Mixed Element Talisman Scripture, Second Layer]

[Innate Divine Techniques: Emperor's Gaze, Palm Wind]

[Life Talisman: Cyan Lotus Earth Fire Talisman (Skilled), Yin Yang Mandarin Duck Talisman (Skilled), Fortune-Telling Talisman (Skilled), Soul-Shaking Talisman (Skilled), Celestial Thunder Talisman (Beginner)] (Not displayed after reaching perfection)

[Realm: First-Layer Foundation Establishment (50%)]

[Profession: Tier Two Low-Grade Talisman Master (20%)]

Evidently, every aspect of his stats had improved significantly.

"Lifespan increased by three hundred years."

"In terms of longevity, I'm likely outliving even the Golden Core Zhenren."

"I'm even not far from Nascent Soul Cultivators."

Jiang Fan felt extremely satisfied.

After all, Nascent Soul Cultivators are said to only have a lifespan of twelve hundred years.

Judging by the rate of increase in his lifespan, if he advanced to the late stage of Tier Two, his lifespan might completely surpass that of a Nascent Soul, an unimaginable longevity.

The more he cultivates to later stages, the more astonishing the increase in lifespan becomes.

To be honest, an 800-year lifespan is more than sufficient for now.

With such a long life, who knows how many worldly dynasties he will witness rise and fall.

Even Peng Zu in his past life only lived to 800 years.

In a sense, he could be compared to Peng Zu in terms of longevity.

"Next is the cultivation of the Soaring Snake Foundation Establishment Chapter."

"This stage of cultivation is about Skin Tempering."

"But it is not ordinary skin tempering; it's about integrating the Soaring Serpent Runes into one's skin."

"A total of 999 Soaring Serpent Runes need to be integrated."

"If successfully integrating 333 Soaring Serpent Runes, that reaches Tier Two Early-Stage Perfection."

"By extension, integrating 999 Soaring Serpent Runes reaches Tier Two Perfection."

"If successful, it will surely give rise to a new bloodline divine technique."

"By then, not only will lifespan increase dramatically, but combat power will also rise significantly."

Jiang Fan could sense the difficulty of cultivating the Soaring Snake Foundation Establishment Chapter. Compared to the Qi Cultivation Chapter, the Soaring Serpent Runes in the Foundation Establishment Chapter were harder to comprehend and more esoteric.

Even if ordinary cultivators obtained these Soaring Serpent Runes, they wouldn't understand them, let alone comprehend them.

Fortunately, he could leverage the power of Luck Points to help him quickly grasp the Soaring Serpent Runes of the Foundation Establishment Chapter.

Otherwise, he wouldn't be able to master the Soaring Snake Technique.

Thus, he understood why so few people in the Ancient Era succeeded in cultivating the Soaring Snake Technique.

Without sufficient talent and aptitude, even entry was impossible.

Merely the Introduction Chapter blocked countless mortals.

After all, this cultivation technique was only suitable for mortals to cultivate; any cultivator with a spirit root couldn't cultivate it.

The problem was how many mortals possess such talent?

"I didn't expect my wealth to skyrocket to 400,000 spirit stones."

"Even the wealth of a Foundation Establishment Clan is probably only about this much."

"Such an abundance of spirit stones is enough for me to splurge for a long period."

"Unfortunately, Foundation Establishment level resources are not so easily found."

"Especially at this current period in Yunlai City."

"Even if I have spirit stones, buying Tier Two elixirs and other cultivation resources is not guaranteed."

"Luckily, I obtained a large amount of spiritual liquid and over a dozen centennial spirit medicines in the Lingxi Secret Realm."

"If fully absorbed, at least my cultivation would rise to the Third Layer of Foundation Establishment."

Jiang Fan rubbed his chin.

He wasn't in a hurry to cultivate the Soaring Snake Foundation Establishment Chapter but rather took the time to carefully inventory his current wealth. He discovered he was indeed incredibly rich.
