

Fortune 272

Chapter 272: Found an Ancient Teleportation Array and Left the Ten Thousand Beasts Mountain Range

"You demon cultivators are truly impolite."

Jiang Fan looked at the group of demon cultivators with indifference.

He waved his large hand, activating the Body-Stabilizing Talisman.

Boom~~

In an instant, chains of wind coiled around the group of demon cultivators.

And having mastered the bloodline divine technique—Palm Wind, the power of this Life Talisman had increased several times over.

Not only could it generate more wind chains, but they were also more resilient.

Even a demon beast of the same level would find it hard to break free from the Body-Stabilizing Talisman's bind.

Instantly, the group of demon cultivators realized that their bodies were completely immobilized.

They activated the Blood Demon Technique, attempting to unleash their full vitality.

But against the terrifying Body-Stabilizing Talisman, it was all in vain.

At that moment, they immediately realized they had hit a wall of steel.

This unexpected visitor before them was undoubtedly a Foundation Establishment Cultivator.

"We're done for, this guy is a Foundation Establishment Cultivator."

"Why would a Foundation Establishment appear in this place? Is he here to kill us?"

"Even though I don't know who you are, if you dare to kill us, there won't be a good ending for you."

"That's right, we have a Golden Core Demon Cultivator backing us. If you kill us, our leader will surely avenge us, hunting you down with no escape."

The numerous demon cultivators were shocked and furious.

They never expected to be so unlucky, encountering such a terrifying Foundation Establishment Cultivator.

It was merely a moment, and they were at the mercy of the other party.

And they were completely powerless to resist.

Now they felt like bugs caught in a spider's web.

The more they struggled, the more inescapable the trap became.

"Noisy."

Jiang Fan sensed the bloody aura from the group of demon cultivators, clearly indicating that many beings had perished at their hands. Letting them live would only lead to the deaths of more innocent beings.

Such demon cultivators are not worth sparing, even if they were to die ten times over.

Celestial Thunder Talisman!

Instantly, he activated the Life Talisman within him—the Celestial Thunder Talisman.

He waved his large hand, summoning celestial thunder.

Bolt after bolt of purple celestial thunder descended from the sky, unleashing a destructive aura, targeting the group of demon cultivators.

"We're done for, it's even a Thunder Cultivator?!"

Sensing the aura of celestial thunder, the group of demon cultivators was utterly desperate.

For demon cultivators, the power of celestial thunder was one of their greatest nemeses.

No demon cultivator was unafraid of the power of celestial thunder.

Thankfully, very few cultivators mastered the power of celestial thunder; otherwise, where would they find refuge?

But now they were utterly unlucky, encountering a cultivator who wielded celestial thunder.

Rumble~~~

Each bolt of purple celestial thunder struck down, fiercely hitting them.

Instantly, the group of demon cultivators let out miserable screams as the Supreme Yang and Firm power erupted within them.

Their Blood Evil Qi, demonic aura, and other negative energies met the celestial thunder, melting like snow and ice, unable to resist even a second.

In just a brief moment, their entire bodies were shattered by the celestial thunder, torn apart.

Their bodies, inherently special, were generally not easy to kill with ordinary power.

But against the power of celestial thunder, it was purely the nemesis of this group of demon cultivators.

Just one bolt of celestial thunder was enough to turn them into ashes.

In an instant, the life force of the demon cultivators vanished, turning into a pool of bloodwater.

"No wonder it's the power of celestial thunder."

"Truly the nemesis of this group of demon cultivators."

"Running into you was indeed bad luck for them."

Seeing this scene, the Ten Thousand Transformations Pill Furnace jokingly remarked.

Honestly, if other Foundation Establishment cultivators had encountered this group of demon cultivators, a fierce battle might have allowed some to escape. After all, they had many tricks.

But it was different with Jiang Fan; one strike of celestial thunder, and they were dead.

They couldn't even employ their life-saving techniques.

It's truly one thing coming to subdue another.

Boom~~

Before Jiang Fan could carefully check the storage bags on the demon cultivators, a message instantly entered the depths of his consciousness, "Encountered demon cultivators on the road, fought to the death, and luckily killed them, thus surviving. You have gained 15,000 Luck Points and a Seventh-Grade Opportunity."

"Hmm?!"

Feeling this message, Jiang Fan stroked his chin; he didn't expect that after taking down the demon cultivators, he would gain so many Luck Points.

Perhaps it was because these demon cultivators had committed many evil deeds, and eliminating them could have earned him corresponding merit.

That's why he received so many Luck Points.

In a way, it also meant saving many lives.

Besides the Luck Points, there was also a Seventh-Grade Opportunity.

Whoosh!

Thinking of this, Jiang Fan gently clicked on the opportunity light point and instantly understood where the Seventh-Grade Opportunity was—right here on Bi Jia Mountain.

"No wonder the Fortune-Telling Talisman suggested coming to Bi Jia Mountain was auspicious."

"Coming here, I not only exterminated a group of demon cultivators but also obtained a Seventh-Grade Opportunity."

"This truly counts as a bountiful harvest."

"However, it seems there are big figures behind this group of demon cultivators. After seizing this Seventh-Grade Opportunity, I need to leave quickly, lest disaster befalls me."

Jiang Fan's eyes revealed a sharp light.

He had clearly heard what the demon cultivators had said; evidently, they were just small fries.

The real big shot was that mysterious Golden Core Demon Cultivator.
