

## Fortune 282

### Chapter 282: Obtaining a Fifth-Grade Opportunity, the Ancient Demon-Vibrating Bell\_2

After all, these are the storage bags of three Foundation Establishment cultivators, surely there are many treasures inside.

Maybe it can make up for the loss he suffered during his stay in Xuanjian City this time.

Might even take the opportunity to make a huge profit.

"Why are there three Foundation Establishment Tribulation Cultivators tracking us?"

Su Weiwei was stunned upon seeing this scene.

Because everything happened too quickly, and these three Foundation Establishment Tribulation Cultivators died too fast, she didn't even have time to feel fear before it was all over.

She originally thought that the territory of the Profound Celestial Sword Sect would be a bit safer, but unexpectedly it was more dangerous than the Ten Thousand Beasts Mountain Range.

After all, in the Ten Thousand Beasts Mountain Range, Foundation Establishment cultivators are mostly leaders of strong factions, rarely would any of them become a Tribulation Cultivator.

Unlike these Foundation Establishment cultivators of the Profound Celestial Sword Sect, who actually lower themselves to become Tribulation Cultivators, it's truly baffling.

"Probably revealed the wealth while in Xuanjian City."

"As a result, these few Foundation Establishment cultivators got their eyes on it."

"While in the Ten Thousand Beasts Mountain Range, Foundation Establishment cultivators are very powerful and prominent."

"But in the territory of the Profound Celestial Sword Sect, Foundation Establishment cultivators are nothing much."

"If they aren't Talisman Masters or Alchemists and don't have any specific skills,"

"but still want to obtain large amounts of wealth, then they can only become Tribulation Cultivators."

"So for Qi Cultivation Stage cultivators, this area is probably even more dangerous."

Jiang Fan said solemnly.

Instead, he thought Qi Cultivation Stage cultivators staying in the Ten Thousand Beasts Mountain Range was more suitable, at least they wouldn't attract the covetous attention of Foundation Establishment cultivators.

Boom~~

At this moment, a message instantly entered the depths of Jiang Fan's consciousness sea: "Encountered three Foundation Establishment Tribulation Cultivators on the road, in the fierce fight, you managed to reverse and kill them, you have survived a life-and-death tribulation, and gained fifteen thousand Luck Points and a Fifth-Grade Opportunity."

What?!

Upon sensing this message, Jiang Fan blinked.

Although he knew that this time he was surely in for immense fortune, he didn't expect that by defeating these three Foundation Establishment Tribulation Cultivators, he would gain so much benefit, not only earning fifteen thousand Luck Points but also securing a Fifth-Grade Opportunity.

What kind of fortune do these three Foundation Establishment Loose Cultivators have to explode with a Fifth-Grade Opportunity?

Could they actually be people predestined with good fortune?!

But that's not out of the question.

After all, the Soaring Snake Technique's Qi Cultivation and Foundation Establishment Chapters he obtained previously were from a Qi Cultivation Stage Loose Cultivator.

Most Loose Cultivators are dirt-poor, with not much in the way of resources.

But it's possible that one or two of them might get an opportunity, soaring to great heights.

Perhaps these three Foundation Establishment Loose Cultivators were just that.

Dong!

Thinking of this, Jiang Fan moved his mind and gently touched the point of light representing the Fifth-Grade Opportunity.

Another wave of information surged in.

"Could it be that this Fifth-Grade Opportunity is inside the storage bag?"

"There's no need to look elsewhere?!"

Jiang Fan was overjoyed.

Without hesitation, he immediately opened the three storage bags, and the treasures inside were revealed at first sight.

The first thing that caught his eye was Spirit Stones, with a large amount stored inside.

Counting carefully, the number of Spirit Stones reached as many as 150,000.

But this is rather ordinary wealth for Foundation Establishment cultivators.

Probably most of the Spirit Stones were already spent by them.

After all, Foundation Establishment cultivators earn a lot, but they also spend a lot, unimaginable to Qi Cultivation Stage cultivators.

Next were various types of magical artifacts, materials, Spirit Rice, etc.

All combined, they were worth tens of thousands of Spirit Stones.

This means he has gained a total wealth of 200,000 Spirit Stones this time.

In a sense, this can be considered striking it rich.

Regrettably, he didn't find any Tier Two Elixirs.

But that's also quite normal.

If there really were any Tier Two Elixirs, they probably would have consumed them long ago, rather than leave them until now.

"Indeed, a Wealth-Bringing Boy."

"This time, the expenses in Xuanjian City have been instantly reimbursed."

Jiang Fan was very satisfied.

Originally, the number of Spirit Stones he had had dropped to 250,000.

Now, after obtaining these Foundation Establishment cultivators' wealth, it instantly restored back to 400,000 Spirit Stones.

This meant the expenses he incurred in Xuanjian City were entirely covered by these Foundation Establishment cultivators.

"Right, where is the Fifth-Grade Opportunity?"

What Jiang Fan was most interested in was the Fifth-Grade Opportunity, and he soon discovered a palm-sized bell inside one of the storage bags. It appeared exquisite and small, covered with intricate and mysterious runes on its surface, profound and enigmatic.

Without a doubt, this dark golden bell was this time's Fifth-Grade Opportunity.

"Seems to be an ancient treasure."

"Its value is not inferior to the Ten Thousand Transformations Pill Furnace."

Upon seeing this dark golden little bell, Jiang Fan instantly realized just how enormous the benefit he had gained this time, he never expected to obtain a mysterious ancient treasure.

Honestly, who could have guessed that these Foundation Establishment cultivators had an ancient treasure?

And the other party never used it, rather left it in the storage bag like an ordinary treasure.

But upon thinking carefully, perhaps it wasn't that they didn't want to use it.

But even if they wanted to, there was no way to use it.

Refining an ancient treasure is not a simple matter.

Without gaining its approval, even if you force it, it's to no avail.

In fact, without consuming Luck Points, he wouldn't have been able to forcibly refine the Ten Thousand Transformations Pill Furnace either.

So the Foundation Establishment cultivators likely faced the same scenario; even after obtaining this ancient treasure, they could only leave it in the storage bag, unable to find a way to use it for a long time.

"Refine this ancient treasure first."

Thinking this, Jiang Fan didn't hesitate, immediately consuming his own Luck Points.

In just a moment, as many as 20,000 Luck Points vanished into thin air.

Fortunately, his Luck Points had reached an impressive 70,000.

A mere 20,000 Luck Points was nothing, he could afford the expense.

Moreover, consuming these Luck Points to refine an ancient treasure was worth it in every way.

Rumble~~~~

Instantly, a mysterious energy from his body surged out and entered the dark golden little bell, finally reaching the core of this ancient treasure.

At that moment, Jiang Fan sensed a wisp of his soul power effortlessly merging into the core of this ancient treasure, as if the two fused easily.

And the ancient treasure didn't resist at all, everything was a natural progression.

"So that's how it is."

"This ancient treasure is called the Demon-Vibrating Bell."

A flash of brilliance appeared in Jiang Fan's eyes.

He instantly obtained a wealth of information from the ancient treasure.

After fully refining it, he understood the various abilities of the treasure.

Undoubtedly, it was a lethal type of ancient treasure.

Once activated, it could immediately unleash terrifying power of sound waves and soul power.

As the bell's sound reverberates, it sweeps across all directions, shattering all demons.

In the past, it was a renowned ancient treasure, having slaughtered countless demons and enemies.

Regrettably, it was damaged in a great battle.

Currently, it remains in a state of slumber, capable of only unleashing a portion of its abilities.

"What's going on? Why was I suddenly refined?"

At this moment, the Artifact Spirit of the Demon-Vibrating Bell suddenly awoke, finding that its essence had merged into the body of a stranger, into the depths of Jiang Fan's heart.

It had always been in a state of slumber, although many cultivators had obtained it during this long period, none could gain its recognition.

Without enough strength, invincible perseverance, and extraordinary talent, one was unworthy of using it.

But now, clearly, it hadn't yet recognized the other party, hadn't yet tested them, before being forcibly refined, it felt as though it was a forced act.

In an instant, it was both shocked and angry, not knowing what had happened.

"Silence, little Demon-Vibrating Bell dares to be arrogant."

"If the master wants to refine you, he will refine you, need he negotiate with you?"

"Truthfully, being refined by the master is your fortune, how dare you be dissatisfied, utterly outrageous."

At this moment, the Ten Thousand Transformations Pill Furnace also noticed the sudden appearance of the ancient treasure Demon-Vibrating Bell, and upon seeing that it was easily refined by Jiang Fan, immediately gloated.

It instantly transformed into Jiang Fan's loyal henchman, criticizing the Demon-Vibrating Bell, being utterly sycophantic.
