

Fortune 284

Chapter 284: The Fall of Daoist Yunlai, Calamity of the Ten Thousand Beasts Mountain Range_2

He often brings back quite a few Foundation Establishment cultivators to his cave mansion to play.

Of course, the fee is quite expensive.

Finally, there's Lian Minglan, a female cultivator at the fourth-layer of Foundation Establishment. She isn't very pretty, quite ordinary, like a typical middle-aged woman, but she is a Tier Two Array Master, known even to the cultivators of the Profound Celestial Sword Sect, and often invited to set up arrays.

She always earns handsomely each time.

It can be said that the six Foundation Establishment cultivators residing on Seven Stars Peak all have their own skills.

Otherwise, they wouldn't have been able to rent a Tier Two Spirit Vein.

Therefore, in comparison, Jiang Fan's cultivation is considered the lowest, only at the second-layer Foundation Establishment realm.

But these Foundation Establishment cultivators have often been cultivating for over a hundred, even two hundred years, so having such cultivation is only natural.

If Jiang Fan had been cultivating for the same amount of time, who knows what level he would have reached by now.

But even so, the Cultivation Realm is so perilous that if one is not careful, there might not be a chance to grow at all.

So Jiang Fan still treats people kindly and acts low-key.

However, he is also a Foundation Establishment cultivator, so these cultivators are very amicable and show no malice.

After all, in the Cultivation Realm, having one more friend is better than having one more enemy.

This is actually greatly beneficial to both parties.

.....

In the blink of an eye, a month had passed.

Jiang Fan and Su Weiwei had also completely settled down here on Seven Stars Peak.

Their cultivation had also entered the right track.

With the help of the Tier Two Spirit Vein, their cultivation had made rapid progress.

But at this time, news from the Ten Thousand Beasts Mountain Range reached Seven Stars Peak.

"This time, a major event has happened in the Ten Thousand Beasts Mountain Range."

"It's said that the Golden Core Immortal City, Yunlai City, has been destroyed."

"The famous Golden Core Zhenren, Daoist Yunlai, has also completely perished."

The first to receive the news was naturally the old Foundation Establishment cultivator Wei Song. As a Tier Two High-grade Alchemist, he had a wide circle of friends, so he was the first to know about news from all over.

"How is that possible? Daoist Yunlai is a legend among us loose cultivators."

"To promote to Golden Core as a loose cultivator is a miracle."

"He even established Yunlai City in the Ten Thousand Beasts Mountain Range, standing for two to three hundred years."

"I heard that his cultivation had reached the ninth-layer Golden Core level, even with a chance to promote to Nascent Soul."

"If he succeeded, he would become a Nascent Soul loose cultivator, destined to be a legend on the Southern Continent."

Chang Lisheng was simply incredulous upon hearing this news.

Because in the hearts of many loose cultivators, Daoist Yunlai was their idol.

They all set Daoist Yunlai as their goal, hoping that one day they too could become Golden Core.

Who could have expected that they would hear the news of Daoist Yunlai's fall now?

This shocked him greatly, leaving him clueless as to what had happened.

"Normally, Daoist Yunlai indeed wouldn't fall so easily."

"But recently, a Nascent Soul cave mansion appeared in the Ten Thousand Beasts Mountain Range, sparking a scramble among many Golden Core influences."

"Naturally, Daoist Yunlai was unwilling to fall behind and joined in."

"During the process, this group of Golden Core Zhenren encountered an accident and were trapped by a Tier Four Array inside the cave mansion."

"Fortunately, they managed to escape narrowly."

"Under normal circumstances, Daoist Yunlai wouldn't have had an accident just because of this."

"The problem arose when Daoist Yunlai made a significant find within the Nascent Soul cave mansion."

The Foundation Establishment cultivator Wei Song mysteriously said, suddenly leaving a cliffhanger.

"A significant find? What kind of find?"

Chang Lisheng and the others quickly asked.

"Daoist Yunlai obtained a Nascent Soul Pill from inside the cave mansion."

"This is a Tier Four Elixir that can aid Golden Core Zhenren to promote to Nascent Soul."

"Its preciousness is such that even Golden Core Zhenren and Nascent Soul from Nascent Soul Sects go crazy for it."

"If the Nascent Soul Pill were consumed, the chances of promoting to Nascent Soul would increase by at least thirty percent."

Wei Song said with much emotion.

He felt that the loose cultivator Golden Core Daoist Yunlai was indeed a legend, and his destiny was flourishing.

Originally, his lifespan was about to run out, making Nascent Soul unattainable in this life.

Who would have thought that, before his death, he would obtain a Nascent Soul Pill?

This was truly a gift from the heavens.

The heavens didn't want to see Daoist Yunlai perish just yet.

"Obtaining the Nascent Soul Pill, for Daoist Yunlai, might not necessarily be a good thing."

Ma Zhong Mountain's eyes flickered.

He, as a Foundation Establishment Loose Cultivator, was acutely aware of what fate awaited a loose cultivator who obtained a treasure they shouldn't have.

If there wasn't enough strength, obtaining such a treasure would undoubtedly invite disaster.

Although Daoist Yunlai was indeed a legend among loose cultivators, and even a Golden Core Zhenren.

The problem was that there were quite a few Golden Core Zhenren who could compare to Daoist Yunlai.

He was not invincible in the Ten Thousand Beasts Mountain Range.

"Your guess is correct, it indeed isn't a good thing."

"Daoist Yunlai's gains this time were too great, attracting jealousy from other Golden Core Zhenren."

"At the time, five or six Golden Core Zhenren banded together and came to Yunlai City, hoping to force Daoist Yunlai to hand over the Nascent Soul Pill."

"After all, this was their hope of promoting to Nascent Soul."

"No Golden Core Zhenren was willing to give it up."

"So how could Daoist Yunlai agree to this demand?"

"Without further ado, a great battle broke out between both sides."

"Although Daoist Yunlai relied on the Tier Three Array of Yunlai City and had formidable strength, he was still no match for this group of Golden Core Zhenren."

"After the battle, Yunlai City was destroyed, and many cultivators perished."

"It's said that during the battle, Golden Core Demon Cultivators even appeared."

"In short, this battle was extremely brutal, covering hundreds of kilometers and resulting in rivers of blood."

"In the end, Daoist Yunlai perished, and among the other Golden Core Zhenren, two died and four were severely injured."

"As for the Nascent Soul Pill, it's whereabouts are now a mystery."

Wei Song shared the tale of the events in the Ten Thousand Beasts Mountain Range.

After all, they were merely bystanders who only knew the general intel.

They didn't know the concrete details.

"Daoist Yunlai has perished, Yunlai City has been destroyed, a great many cultivators have died?!"

Hearing this news, Jiang Fan was deeply shocked.

No wonder the Fortune-Telling Talisman had strongly warned him before, saying there was a great omen of misfortune approaching.

To be honest, if he hadn't made a timely retreat, he might have gotten entangled in the Golden Core Zhenren's battle.

Even if he was a Foundation Establishment cultivator, he would still be just an ant in front of a Golden Core Zhenren's power.

Although he had no enmity with those Golden Core Zhenren at all.

The mere aftershock of the battle could crush him to death.

It was like the battle between Ultraman and a monster; who knows how many ordinary bystanders died in such conflicts?

And even leaving Yunlai City might not be very safe.

Because this chaos has affected the entire Ten Thousand Beasts Mountain Range.

Undoubtedly, the Ten Thousand Beasts Mountain Range is now a cauldron of chaos, a place rife with trouble.

If he and Su Weiwei stayed in the Ten Thousand Beasts Mountain Range, they wouldn't get any benefits, and might even encounter many calamities of death.

In short, fortunately, he escaped quickly and stayed away from the place of trouble, avoiding a deadly catastrophe.

"The Nascent Soul Pill is missing?"

"Doesn't that mean the Ten Thousand Beasts Mountain Range is even more chaotic?"

The Foundation Establishment cultivator Fan Wenli noted this point.

After all, a Nascent Soul Pill is an extraordinary Tier Four Elixir, extremely precious.

Even the Nascent Soul Sect would be envious, as it represents a new Nascent Soul.

The Profound Celestial Sword Sect has many Golden Core true disciples, yet to obtain a Nascent Soul Pill is exceedingly difficult.

If there's a chance to obtain one, no Golden Core cultivator would let go of it.

"That's right, it indeed has become even more chaotic."

"Many Golden Core influences in the Ten Thousand Beasts Mountain Range have gone mad trying to find the Nascent Soul Pill."

"There are battles every day."

"It's said that even some Golden Core Zhenren and even Nascent Souls from the Profound Celestial Sword Sect have personally gone to the Ten Thousand Beasts Mountain Range."

"The purpose is to retrieve the Nascent Soul Pill."

"All in all, the Ten Thousand Beasts Mountain Range has become a place of strife during this time."

The Foundation Establishment cultivator Wei Song sighed.

Fortunately, he was staying obediently on Seven Stars Peak.

If he were in the Ten Thousand Beasts Mountain Range, he wouldn't know what calamities he'd face.

Even with his current cultivation level, he couldn't guarantee his own life.
