[Realm: Second-Layer Foundation Establishment (99%)]

[Profession: Tier Two Low-grade Talisman Master (80%)]

Clearly, compared to half a year ago, all of his abilities have improved significantly.

Especially the skill level of his Life Talisman; the Soul-Shaking Talisman and Cyan Lotus Earth Fire Talisman have evolved to Mastery Level.

The Celestial Thunder Talisman and Enchantment Talisman have also advanced to Skilled Level.

Only the Yin Yang Mandarin Duck Talisman and Fortune-Telling Talisman have not improved significantly.

After all, elevating these two talismans is very difficult, and there's no shortcut; diligent practice is the only way.

But even so, this is enough to significantly enhance his combat abilities.

Compared to before, it's simply incomparable.

Of course, the rapid progress is naturally because Jiang Fan consumed a large amount of Luck Points.

So he only has forty-five thousand Luck Points left.

Swoosh!

After another half hour, Jiang Fan came out from the quiet room.

"Husband, something big has happened again in the Ten Thousand Beasts Mountain Range."

Su Weiwei, seeing Jiang Fan come out, couldn't wait to share the news she had received.

These days, she had also built good relationships with the cultivators on the surrounding peaks.

After all, the cultivators living on Seven Stars Peak are not just Foundation Establishment cultivators.

Apart from Foundation Establishment cultivators, there are also their relatives, friends, and even disciples.

Basically, it's a big family living on Seven Stars Peak.

So she also mingled with the surrounding Qi Cultivation Stage cultivators, gaining some intelligence from them.

"Something big has happened again? What exactly is it?"

Jiang Fan asked curiously.

He originally thought that when the cultivators of Profound Celestial Sword Sect entered the Ten Thousand Beasts Mountain Range, they would certainly sweep across various Golden Core influences with a thunderous momentum, completely quelling the turmoil in the Ten Thousand Beasts Mountain Range.

Who would have thought that after half a year, another upheaval would seem to have emerged in the Ten Thousand Beasts Mountain Range.

"It's about that Nascent Soul Cave Mansion."

"The Nascent Soul influence trying to seize Daoist Wan Hua's inheritance is not only the Profound Celestial Sword Sect."

"It's said that another Nascent Soul influence, the Shennong Sect, has also taken action."

"Cultivators from the two major Nascent Soul influences are in battle in the Ten Thousand Beasts Mountain Range."

"Even Nascent Soul cultivators have joined the fight, causing heaven and earth to shake, and the sun and moon to lose their light."

Su Weiwei said with great emotion.

Although she knew that the Ten Thousand Beasts Mountain Range would definitely be very dangerous, she didn't expect it to be this dangerous.

By now, even Nascent Soul cultivators have gone into action, which is simply unimaginable.

"Why would they provoke the Shennong Sect?"

Jiang Fan was very puzzled.

He also knew that the so-called Shennong Sect was a Nascent Soul Sect not far from the Profound Celestial Sword Sect.

The strength of the other side is no less than that of the Profound Celestial Sword Sect.

In fact, there are often frictions and even major fights between the two sects.

It can be said that their relationship was not good to begin with.

"It's said that Daoist Wan Hua once stole a Secret Treasure and even an Alchemist inheritance from the Shennong Sect."

"Causing the Shennong Sect to suffer significant losses."

"So the Shennong Sect feels that the treasures left by Daoist Wan Hua rightfully belong to them."

Su Weiwei said solemnly.

"Nonsense, what nonsense Shennong Sect."

"They are all despicable and shameless hypocrites, splashing dirty water on the old master!"

"The old master once asked for alchemy guidance at the Shennong Sect, but was looked down upon by them."

"Later, when the old master successfully became a Tier Four Alchemist and refined a large number of elixirs, he was then slandered by the Shennong Sect."

"Claiming that the old master stole their sect's alchemy techniques."

"Even those Nascent Soul cultivators from the Shennong Sect descended the mountain to hunt him down, trying to obtain the old master's secrets."

Upon hearing this, the Ten Thousand Transformations Pill Furnace cursed.

Clearly, it once had significant conflicts, even deep grudges, with the Shennong Sect along with Daoist Wan Hua.

Therefore, it absolutely could not tolerate the Shennong Sect's slander.

"Even if there was enmity, it was a thousand years ago, right?"

"Haven't the Nascent Souls of Daoist Wan Hua's generation all fallen?"

Jiang Fan transmitted his spiritual sense.

"Indeed, they have fallen, but their disciples and descendants are still alive."

"And these people, one and all, are birds of a feather, without many good ones among them."

"If you encounter people from the Shennong Sect in the future, it's best to be careful."

The Ten Thousand Transformations Pill Furnace sneered, showing no good feelings towards the Shennong Sect's cultivators.

Thinking of this, Jiang Fan looked at Su Weiwei: "So, the Profound Celestial Sword Sect and the Shennong Sect started fighting? Surely, the two major Nascent Soul sects wouldn't easily engage in a battle like this."

"That is indeed the case."

"After all, everyone is from a Nascent Soul Sect, so it wouldn't be so easy to start a fight."

"The issue is that there are too many treasures in the core area of that Nascent Soul Cave Mansion."

"It's said that a Nascent Soul cultivator from the Profound Celestial Sword Sect, who is proficient in Pupil Techniques, can see through the mysteries of the Restriction Array."

"The cultivator discovered that the mansion left behind a large number of Tier Four Elixirs."

"Moreover, they are elixirs of perfect quality."

"If obtained, who knows how many Nascent Soul cultivators would be added to the sect."

"It's an enormous opportunity even for Nascent Soul cultivators."

"This has made the cultivators of the Profound Celestial Sword Sect deeply envious."

"Even at the cost of the entire sect's power, they won't allow the Nascent Soul Cave Mansion to be taken by the Shennong Sect."

Su Weiwei narrated the story eloquently.

It's no doubt that what could trigger a war between two major Nascent Soul sects was due to such interests.

Moreover, interests that no cultivator could resist.

For Nascent Soul cultivators, nothing was more precious than Tier Four Elixirs.

If they could obtain a large number of Tier Four Elixirs, even achieving Divinity Transformation in the future was very hopeful.

So no Nascent Soul would be willing to give up.

"Very normal."

"The old master was a late-stage Tier Four Alchemist."

"Combined with me, the Ten Thousand Transformations Pill Furnace, the pill formation rate was a hundred percent."

"Although the old master has indeed fallen, the precious elixirs he left are still plentiful."

"It's a pity that your strength is too weak; otherwise, you could take all the elixirs that were left inside."

The Ten Thousand Transformations Pill Furnace said as if it were rightfully so.

It also knew very well how many elixirs were left in the mansion.

This was enough to make any Nascent Soul major sect greedy and crazy.

However, it was merely a Magical Treasure, and to it, elixirs were of no use.

"Not a pity at all."

"The opportunity is indeed great."

"But without strength, it is impossible to keep it."

"How big a head, how big a hat to wear."

"Recklessly obtaining treasures beyond one's own strength is simply courting death."

Jiang Fan's expression was very calm, with no regret.

Though the mansion left by Daoist Wan Hua indeed stored numerous treasures.

But since his own strength was insufficient, the treasures inside did not belong to him.

Right now, he just needed to practice quietly, slowly enhancing his cultivation, and that would be enough.

In the Cultivation Realm, everything is false, only one's cultivation is real.

If he were a Divinity Transformation cultivator, what treasure in the Cultivation Realm couldn't he obtain?

"Indeed."

The Ten Thousand Transformations Pill Furnace also agreed with this point.

In the Cultivation Realm, not many cultivators could resist such temptation.

"Husband."

"It's said that the Profound Celestial Sword Sect has already sent numerous ships to the Ten Thousand Beasts Mountain Range."

"I'm afraid this area will soon fall into chaos."

Su Weiwei was deeply worried.

She didn't expect that after just half a year of peace, things would become turbulent again so quickly.

The Cultivation Realm is so vast, yet there aren't many places that are stable.

Boom~~

Jiang Fan initially wanted to say something, but at this moment, deep in his Elixir Field and Sea of Qi, the Fortune-Telling Talisman began to shake.

It seemed to have sensed some message about the future.

A piece of information instantly entered the depths of his Sea of Consciousness.

"War will rise, demons will dance, on Seven Stars Peak, seeming safe but truly dangerous."

"Leave Seven Stars Peak, go to Horned Bull Mountain to avoid trouble, small fortune."

"Stay at Seven Stars Peak to cultivate, small misfortune."
