Chapter 289: Advancement to Third-Layer Foundation Establishment, Seven Stars Peak in Trouble

Whoosh!

After tidying everything up, Jiang Fan's figure flashed, and he promptly returned to the cave.

"Husband, is everything alright?"

Su Weiwei visibly relaxed upon seeing Jiang Fan return safely.

Earlier, she sensed the Demonic Qi outside seemingly surging to the heavens, making her very anxious.

Now seeing Jiang Fan return safely, she felt much more at ease.

"It's fine, just encountered two or three Foundation Establishment Demon Cultivators."

"I slayed them with a mere wave."

Jiang Fan smiled slightly, indicating that it wasn't a big deal, just routine work, nothing worth mentioning.

"Husband is indeed powerful."

"But where did these three Foundation Establishment Demon Cultivators come from?"

"Could it be that Xuanjian City's expedition into the Ten Thousand Beasts Mountain Range is truly stirring things up?"

Su Weiwei immediately recalled the previous warning from Tier Two Alchemist Wei Song.

Earlier, she hadn't felt much, but now encountering Foundation Establishment Demon Cultivators so casually, one could imagine how chaotic the security around Xuanjian City was.

"Don't know where they came from."

"But this is just an accident."

"We probably won't run into more Demon Cultivators."

Jiang Fan said.

He was also quite curious, unaware of whom these three Foundation Establishment Demon Cultivators had fought with previously.

Before encountering him, evidently they were already gravely injured.

Their full strength was unable to exert even a third.

Thus, facing him, they had no power to resist and were instantly killed.

These three Foundation Establishment Demon Cultivators were indeed very unlucky, encountering him at their weakest.

In a way, it was a sign of their declining destiny.

When one is unlucky, even drinking water will get stuck in the teeth.

"That's good."

Su Weiwei nodded.

But for safety, they decided to change residences.

They moved to another mountain peak's hidden cave.

Of course, the reason Jiang Fan doesn't return to Seven Stars Peak is his concern that the disaster there isn't over yet.

If they return now, they might run into the disaster head-on.

So he planned to stay here for a few days until the disaster passed completely before returning.

...

Another day passed.

In a cave on an unnamed mountain peak.

Jiang Fan was cultivating in seclusion.

Since he acquired the Purple Gold Ganoderma, he temporarily didn't plan on returning to Seven Stars Peak.

He wanted to cultivate here in seclusion, advancing to Third-Layer Foundation Establishment.

Su Weiwei stayed outside to guard him.

However, with Jiang Fan's destiny at its peak, there would be no accidents or disasters.

So he was not worried about Su Weiwei's safety.

Rumble~~~

At this moment, Jiang Fan used the power of the Ten Thousand Transformations Pill Furnace to completely refine the Purple Gold Ganoderma, eliminating all impurities, leaving only drop after drop of purple-gold elixir.

Each drop of purple-gold elixir contained immense energy.

He swallowed it without hesitation.

"Is this the Purple Gold Ganoderma? It's truly extraordinary."

Jiang Fan's eyes instantly brightened.

He sensed the purple-gold elixir drops entering his stomach and being transformed instantly.

Then these purple-gold elixirs turned into vast energy, madly rushing into the depths of his Elixir Field and Sea of Qi, absorbed by the Primordial Talisman.

Soon, the Primordial Talisman spun continuously, birthing drop after drop of Primordial Spiritual Power.

Increasing the number of Primordial Spiritual Power within his body immensely.

In the depths of the Elixir Field and Sea of Qi appeared drop after drop of Primordial Spiritual Power.

Like droplets of water, each containing vast energy.

"It's time."

Jiang Fan activated the Mixed Element Talisman Scripture; at this moment, he seemingly entered the Realm of Unity of Heaven and Man.

With his body as the center, forming a massive vortex, the surrounding Heaven and Earth Spiritual Qi surged in.

Though the Spiritual Qi here couldn't compare to the Tier Two Spirit Vein of Seven Stars Peak, it was barely sufficient.

After all, the majority of energy was provided by the Purple Gold Ganoderma.

The vast Spiritual Qi entered his body, into the meridians, forming one circulation after another.

His body was enveloped in countless white clouds and mist.

As if he was soaring through the sky amidst the clouds.

Like a Soaring Snake riding the clouds.

It's known that Jiang Fan's cultivation had already reached Foundation Establishment Second-Layer Perfection, just a step away from the Third Layer. Now suddenly gaining so much Primordial Spiritual Power.

The Primordial Spiritual Power rushed into the depth of meridians, beginning to break through new meridians.

Like a furious flood trying to burst through the dam.

Thunk!

Just a slight impact, the new meridians immediately opened.

A massive amount of Primordial Spiritual Power poured into the new meridians.

Which caused each newly opened meridian to widen quickly, enough to accommodate more Spiritual Power.

Third-Layer Foundation Establishment!

Undoubtedly, at this moment, Jiang Fan had advanced to the Third-Layer Foundation Establishment realm, but to him, it was merely a matter of course.

However, the energy contained in the Purple Gold Ganoderma was so immense.

It not only helped Jiang Fan advance to the Third-Layer Foundation Establishment but also significantly enhanced his cultivation, with a massive influx of Primordial Spiritual Power into his various meridians.

Resulting in a surge in the Spiritual Power.

Compared to before, it increased by at least one-third.

Even the flow of this Primordial Spiritual Power was continually strengthening his physique.

Thus elevating his Body Cultivation realm as well.
