Chapter 290: Advancing to Third-Layer Foundation Establishment, Seven Stars Peak Faces Catastrophe\_2

"Finally, I've advanced to the third layer of Foundation Establishment."

Jiang Fan sat cross-legged on the ground, feeling a slight joy.

Although, for him, advancing to the third layer of Foundation Establishment was actually a matter of course.

But the improvement in cultivation was still worth celebrating, as it meant he had advanced further.

He perceived a significant progress in his spiritual sense and spiritual power compared to before.

More importantly, he could engrave the third Life Talisman after reaching the Foundation Establishment Realm.

In fact, he had long planned to make this talisman, which was the Perception Talisman.

For Jiang Fan, his attack methods were already quite sufficient.

He still lacked some auxiliary types of methods.

Such as perception ability.

Despite his soul power being quite strong, he still felt it was insufficient.

Therefore, he needed the power of the Perception Talisman to further amplify his soul perception ability.

This was about maximizing his own advantages.

For Foundation Establishment cultivators, perception ability was really important.

It's like modern warfare in his previous life.

Radar was crucially important.

If the exploration range of the radar was broader, then one could preemptively guard against unforeseen calamities.

At that time, detection meant elimination.

The same principle applies.

If a Foundation Establishment cultivator's perception ability is superior, then they can be better prepared.

As long as the enemy approaches the scope of perception, one can act and take out the enemy instantly.

The Perception Talisman could achieve this.

Thinking of this, Jiang Fan had no hesitation.

He immediately consumed five thousand Luck Points.

Instantly, a mysterious energy entered his body, rapidly enhancing his comprehension.

At this moment, he sat cross-legged on the ground, operating the Mixed Element Talisman Scripture.

The Primordial Talisman deep in his Elixir Field and Sea of Qi was spinning rapidly.

Drops of Primordial Spiritual Power merged onto the surface of the Primordial Talisman, starting to engrave the lines of the Perception Talisman.

For other cultivators, this was nearly impossible to achieve.

But with the help of Luck Points, Jiang Fan felt as if he was divinely assisted.

No one knew how much time had passed, but all the lines of the Perception Talisman instantly appeared on the surface of the Primordial Talisman.

"Done."

Jiang Fan was extremely delighted.

He sensed the appearance of the Perception Talisman on the surface of his Primordial Talisman, with complex rune patterns emerging, profound and mysterious, seemingly containing a mysterious power.

Boom~~

At this moment, he activated the Perception Talisman without hesitation.

Immediately, the talisman vibrated, drawing upon his soul power, and emitted a dim gray light.

The Perception Talisman acted like an amplifier, instantly doubling the power of his soul perception.

An invisible spiritual sense power extended all around, effortlessly covering the entire mountain and surrounding area.

Ants crawling on the ground.

Mosquitoes flying in the air.

Clear dewwater clinging to the grass.

Cicadas chirping on the trees.

All the surrounding environment and creatures clearly appeared in the depths of his consciousness.

Like a flat mirror surface, clearly visible.

If someone appeared here, like a stone disrupting the calm lake surface, they would be instantly detected.

"Is this the power of the Perception Talisman? It's truly strong."

Jiang Fan was amazed beyond measure.

He felt as if he had obtained a third eye, observing the world from a godly perspective.

Bear in mind, his original spiritual sense perception ability was already much stronger than typical Foundation Establishment cultivators.

Now, with the assistance of the Perception Talisman, his perception ability has instantly expanded by more than double.

Moreover, the spiritual sense fluctuations were extremely stealthy.

Other Foundation Establishment cultivators would find it difficult to detect his spiritual perception.

Even though this was just the entry level of the Perception Talisman.

If the skill level further improved, the scope of the Perception Talisman would be even larger.

At that time, even without leaving home, one could easily perceive the situation in vast areas.

Boom~~

At this moment, Jiang Fan's heart stirred, and he immediately opened the virtual panel on his body.

[Realm: Third-Layer Foundation Establishment (20%)]

[Profession: Tier Two Low-grade Talisman Master (80%)]

Evidently, after advancing to the third layer of Foundation Establishment, all his data had greatly improved.

His total Luck Points had reached sixty thousand, considered immensely wealthy.

.....

In the blink of an eye, three days had passed.

Jiang Fan and Su Weiwei had stayed in this place for three whole days.

Of course, besides wanting to avoid the calamity at Seven Stars Peak, the most important thing was he had just advanced to the third layer of Foundation Establishment.

In this way, naturally, he needed some time to consolidate his cultivation.

As for Su Weiwei, it didn't matter where she went, as long as she was with her husband.

Swoosh!

After seclusion ended, Jiang Fan used the power of the Light Body Talisman, taking Su Weiwei, and quickly returned to Seven Stars Peak.

But as soon as they returned to Seven Stars Peak, they immediately saw the tragic state of Seven Stars Peak.

Huge pits appeared on the ground.

Shattered rocks were scattered everywhere, demonic qi pervaded the area, frightening everyone.

The originally solid Tier Two Restriction Array seemed to have been breached, leaving numerous gaps.

Even the palaces on the mountain had suffered considerable damage.

Now, a large number of Qi Cultivation Stage cultivators were busy repairing, patching up the surrounding pits and hollows.

"Fellow Daoist Wei, what exactly happened here?"

"I was only away for a few days, why did something like this occur?"

Jiang Fan immediately saw Foundation Establishment cultivator Wei Song and couldn't help but ask, wanting to know what had happened.

"Alas, luckily you left early and went to Xuanjian City."

"On the very night you left, a group of demon cultivators suddenly appeared at Seven Stars Peak."

"These demon cultivators seemed intent on annihilating all the cultivators atop Seven Stars Peak."

"Luckily we had some skills."

"With the power of the Tier Two Array, we barely managed to fend off those demon cultivators, even severely injuring a few."

"But even so, we suffered significant injuries."

"Especially Daoist Lian Minglan, Daoist Yu Kelian, and others, due to their weaker strength, they were heavily targeted by the demon cultivators, ending up severely injured, almost facing their demise, and are still undergoing healing."

Wei Song said with much emotion.

Although his cultivation was the highest, he also received the greatest pressure and suffered considerable injuries.

Honestly, this was a complete unforeseen disaster, not knowing why Seven Stars Peak encountered the demon cultivator's attack.

It's simply absurd.

The only one unscathed was Jiang Fan.

After all, he ran ahead of time, going to Xuanjian City, thus escaping the calamity.

If he had stayed at Seven Stars Peak, even if he survived, he would surely have been severely injured.

"Impossible, these demon cultivators are so rampant."

"Don't they fear the Profound Celestial Sword Sect?"

Jiang Fan was shocked beyond measure.

Although he had anticipated this event, knowing that staying at Seven Stars Peak would likely lead to disaster.

But seeing the tragic state of those Foundation Establishment cultivators, he still felt a trace of lingering fear.

Luckily, he left early, otherwise, how could he have escaped this calamity?

However, Lian Minglan and Yu Kelian suffered, probably taking his place in facing disaster.

If he had stayed here, it would likely have been him who got injured.

"Hehe, these demon cultivators were eyeing the fact that the Profound Celestial Sword Sect had sent a large number of cultivators to the Ten Thousand Beasts Mountain Range."

"Right now, the sect's territory is vulnerable, unable to catch these demon cultivators, so they dare to come out and rampage."

"It's said that the demon cultivators didn't just attack Seven Stars Peak."

"They've also attacked other Foundation Establishment clans or other Foundation Establishment cultivators' abodes."

"Overall, we're just one of the targets of those demon cultivators, not that we had any special characteristic."

Wei Song said helplessly.

But he also felt a bit fortunate, because if he truly was targeted by demon cultivators, even with a few lives, it wouldn't suffice.
