Chapter 291: Once Again Seeking Fortune and Avoiding Evil, Finding Opportunity in Calamity

"If that's the case, won't these demon cultivators attack again for a second time?"

Jiang Fan asked.

In fact, this is something other cultivators are also worried about.

If they attack a second or third time, it might be difficult for them to hold out.

After all, everyone knows these demon cultivators are mad, fearless of death.

"Not sure, but I feel it's unlikely they'll come a second time."

"After all, this matter has already been known to the Profound Celestial Sword Sect."

"It won't be long before the Profound Celestial Sword Sect sends someone to investigate."

"Even if those demon cultivators are crazy, they probably wouldn't dare to stay here."

"In the short term, we should still be quite safe here."

Wei Song said in a deep voice.

"After this incident, many loose cultivators will probably move to live in Xuanjian City."

"After all, compared to the wilderness, Xuanjian City is indeed safer."

Jiang Fan could imagine how many loose cultivators want to settle in Xuanjian City, since safety is priceless.

"It's not that simple."

"The number of loose cultivators flooding into Xuanjian City is just too many."

"Causing the rent inside to keep rising."

"Ordinary loose cultivators can hardly afford living in Xuanjian City."

"Even Foundation Establishment cultivators will feel the pinch."

"After paying the rent, there's hardly any spirit stones left for cultivation; what's the point?"

Wei Song chuckled.

He will not live in Xuanjian City; it's more free and unfettered living in the wilderness.

At least his earned spirit stones wouldn't all go to rent.

If he really lived in Xuanjian City, it would be purely working for the Profound Celestial Sword Sect.

After chatting casually with Wei Song, Jiang Fan and Su Weiwei returned to their cave residence.

"My husband, it's a good thing we left Seven Stars Peak."

"Otherwise, we might've encountered that group of demon cultivators."

Su Weiwei said with much feeling.

She felt she and her husband were extremely lucky, leaving Seven Stars Peak just in time to avoid a major disaster.

"Indeed."

Jiang Fan smiled slightly without saying much.

.....

In the blink of an eye, another half a year passed.

Since the demon cultivator attack, Seven Stars Peak became very safe.

As cultivators from the Profound Celestial Sword Sect personally took action to hunt down the demon cultivators.

Thus many demon cultivators fled quickly in fright, now they've disappeared and no longer dare appear here.

No idea where they've hidden.

This also allowed Jiang Fan and Su Weiwei to cultivate peacefully.

No need to worry about external threats.

At this moment, in a quiet chamber.

Jiang Fan sat cross-legged on the ground, operating the Mixed Element Talisman Scripture.

The body seemed to turn into a vortex, like a soaring snake, inhaling and exhaling mist.

The vast Heaven and Earth Spiritual Qi surged around, almost materializing as spiritual mist.

Making the chamber look like a fairyland.

Jiang Fan was also inhaling and exhaling, devouring a large amount of spiritual qi, then transforming it into Primordial Spiritual Power within.

Boom~~

With a circulation complete, Jiang Fan slowly opened his eyes, feeling an extra drop of Primordial Spiritual Power deep in his Elixir Field and Sea of Qi, very satisfied.

He willed himself to open his virtual panel.

[Name: Jiang Fan]

[Realm: Third-Layer Foundation Establishment (70%)]

[Profession: Tier Two Low-grade Rune Master (90%)]

Obviously, compared to six months ago, his cultivation has advanced rapidly.

He's completed 70% progress in the Third-Layer Foundation Establishment.

Considered to be progressing at a miraculous speed.

Of course, the reason for such rapid progress is naturally credited to the previously acquired Purple Gold Ganoderma and some Centennial Spirit Medicine.

"It's a pity these resources are almost depleted."

"I might need to buy some Tier Two Elixir, or Spirit Medicine."

Jiang Fan's eyes flickered.

Clearly, over the past half year, he lived off his previous gains.

But all this was worth it.

Without resource assistance, he wouldn't have been able to cultivate so quickly.

For normal Foundation Establishment cultivators, without resource assistance, breaking through a realm might take ten to twenty years, which is very normal.

This is because the efficiency of refining Liquid Spiritual Power by Foundation Establishment cultivators is extremely low.

Moreover, the lower the spiritual root talent, the lower the efficiency of refining Liquid Spiritual Power.

For those facing bottlenecks, never breaking through in this lifetime is very possible.

Thus the importance of spiritual root talent becomes more pronounced in later stages.

In the Qi Cultivation Stage, the differences aren't particularly evident.

Luckily, he nurtured an Earth Spirit Root talent.

Thus from the beginning, he was above many cultivators.

This also made his cultivation path smoother countless times.

Nonetheless, he still needs resource assistance to enhance his cultivation efficiency.

"The skill level of the Perception Talisman has finally improved to a skilled level."

Jiang Fan was very pleased with the improvement in Perception Talisman's skill level.

After all, during this half year, he constantly used this Talisman, causing its skill level to rise quickly.
