Chapter 295: Tier Three Heart-breaking Demon, Life and Death Tribulation!

"Fellow Daoist Liu is indeed a Tier Two Array Master, truly extraordinary."

"If it weren't for Fellow Daoist Liu, I'm afraid we would be at a loss."

Biyan City sighed.

Because just now, he looked left and right, but could not discern any flaw in the Tier Three Array.

He only felt that this Tier Three Array was seamless and flawless, completely unbreakable.

In fact, this is the role of an Array Master.

If we encounter some ancient caves, we still need the Array Master to come forward to break the Restriction Array inside the cave.

Otherwise, we can only watch with envy, helplessly.

"Fellow Daoist Liu, in that case, how should we break this Inverted Five Elements Array?"

Ma Zhongshan couldn't wait to ask.

"There are two methods in total."

"One is the technique of array-breaking. If we can spot the flaw in this Inverted Five Elements Array and then concentrate our efforts on attacking the flaw, naturally, we can easily break this Tier Three Array.

Unfortunately, I'm only a Tier Two Array, and seeing the flaw in a Tier Three Array is really too difficult—it is almost impossible to achieve."

"So the only remaining way is brute force array-breaking. To put it simply, it involves using an array to break an array, relying on the power of the array to continuously drain the energy of the Inverted Five Elements Array. Once its energy is exhausted, the array will naturally be broken.

But this method is a clumsy one; no one knows how long it will take. If we're lucky, it may succeed in a few days, but if not, it could take months or even a year. Everything depends on how many Spirit Stones are left in the array; the more Spirit Stones left, the longer it will take."

Foundation Establishment Cultivator Liu Zimo spoke bluntly, offering two array-breaking techniques.

After all, he is only a Tier Two Array Master.

Now coming to break a Tier Three Array is indeed a bit beyond his level.

In fact, if someone were hosting this Tier Three Array, he wouldn't be able to break it no matter what.

Fortunately, this Tier Three Array is ancient and unhosted, so he still has a chance to break it.

"It seems we have no choice but to opt for the second method."

"Though it takes a long time, it is reliable."

"Moreover, for us Foundation Establishment Cultivators, wasting a few months is not a big deal."

Although Ma Zhongshan and the others wanted to choose the first method, they couldn't, so they had to choose the clumsy way.

"I may have already found the flaw in this array."

At this moment, Jiang Fan suddenly said.

"Found it?"

As soon as this was said, Liu Zimo and the others were stunned, looking at Jiang Fan in disbelief.

Especially Liu Zimo, as a Tier Two Array Master, he couldn't possibly find a flaw in a Tier Three Array.

But this kid dares to boast here?!

"Yes, if I'm not mistaken, simply attacking this spot should break this array."

Jiang Fan pointed to a specific location.

At this moment, mysterious runes densely appeared in the depths of his pupils. In his eyes, the cave in front of him was enveloped by array patterns, seemingly forming a Barrier, absorbing Heaven and Earth Spiritual Qi.

But amid the operation of the array, he noticed black light spots one by one.

Clearly, these black light spots were the flaws in this Tier Three Array.

If it was in its prime, perhaps this Tier Three Array wouldn't have so many flaws.

But with the passage of time and long neglect, the flaws naturally increased.

Ordinary cultivators wouldn't notice it at all.

Yet when Jiang Fan activated the Emperor's Gaze divine power, he could perceive the breath of the array.

Easily detecting the flaws in the operation of the array.

Undoubtedly, as his cultivation level continues to rise, this Innate Divine Technique began to show unparalleled might.

"Is it true or false, are you also an Array Master?"

Biyan City and others looked at Jiang Fan with doubt, for they weren't very familiar with this young Foundation Establishment Cultivator and didn't know his true identity.

"We'll know if it's true when we try."

"If successful, we won't have to wait for months."

Ma Zhongshan didn't care about this much; although a few months is nothing for Foundation Establishment, the Mist Mountain Range is too dangerous, and the longer they stay, the more dangerous it gets.

To avoid long delays, he naturally wanted to quickly crack the cave's Restriction Array and seize the treasures inside.

"Right, let's all give it a try."

Although Liu Zimo was also a bit skeptical about Jiang Fan's words, he didn't refute.

If the other really has some skills, wouldn't he be embarrassed?

This world is full of hidden experts among cultivators.

It's uncertain if this kid is one of them.

Rumble~~

In an instant, Ma Zhongshan and the others did not hesitate, each taking out their treasures and mobilizing their Spiritual Power, immediately attacking in the direction Jiang Fan pointed.

One after another, terrifying Spiritual Power suddenly erupted, tearing through the air.

Thud!

Instantly, this force struck at the flaw in the Tier Three Array Barrier.

The originally transparent, glass-like barrier suddenly shattered like glass.

Cracks appeared one after another.

The array patterns covered in the depths of the void instantly collapsed.

The entire Tier Three Array seemed to crumble at this moment.

The entrance of the cave immediately appeared before everyone.
