Chapter 316: Seeking Fortune and Avoiding Evil, Another Omen of Great Fortune

Rumble~~

At this moment, Jiang Fan sensed his Life Talisman Protective Talisman was undergoing a transformation.

Patterns from the Profound Turtle Rune had appeared on it.

After being added, the protective talisman became more complex.

It seemed to effortlessly draw upon the power of heaven and earth.

No one knew how much time had passed.

When the final pattern merged, the brand-new protective talisman was instantly formed.

It immediately radiated a brilliant blue light.

Profound Turtle Talisman!

In that instant, Jiang Fan quickly realized his Life Talisman Protective Talisman had undergone an incredible transformation, evolving from a regular protective talisman into a Profound Turtle Talisman.

Boom~~

The next second, Jiang Fan felt a stirring and activated the Profound Turtle Talisman.

Instantly, an invisible spiritual barrier enveloped his entire body.

The natural power of heaven and earth seemed to be drawn at that moment.

Upon closer inspection, this spiritual barrier was covered with dense tortoise shell patterns.

Each shell contained a Profound Turtle Rune.

It was as if his entire body was encased in tortoise shells.

Undoubtedly, in terms of defense, it's several times stronger than before.

"So strong, is this the Profound Turtle Talisman?"

"Spending ten thousand Luck Points was worth it."

A glint appeared in Jiang Fan's eyes, filled with excitement.

Though he hadn't tested the defensive power of the Profound Turtle Talisman, its appearance alone showed it was far superior to his previous protective talisman.

The previous talisman merely activated his inner Spiritual Power.

It seemed to have decent defense, but that's all it was.

But the Profound Turtle Talisman is entirely different.

When activated, it merges with the power of heaven and earth.

It doesn't only consume his inner Spiritual Power, but also devours the surrounding power of heaven and earth.

More importantly, this Profound Turtle Barrier has a force-dissipating effect.

When an enemy attacks it, the attack power is dispersed by the Profound Turtle Rune and easily transferred to the ground.

Utilizing the environment to help disperse enemy attack power.

"No wonder the defense of that Profound Turtle is so formidable."

"Not only is the tortoise shell itself strong."

"What's most important, the Profound Turtle Barrier can redirect enemy attack power."

"Transferring it to the ground, even the sea."

"Thus, as long as the enemy's attack doesn't exceed the limit, it naturally cannot break through."

"But exceeding the limit is really difficult."

"The threshold of the Profound Turtle Talisman is extremely high."

"Even the Primordial Talisman Sect doesn't have such talismans."

Jiang Fan marveled.

Honestly, this Seventh-Grade Opportunity was incredibly beneficial.

For him, the help was immense.

If he hadn't come to Spirit Turtle Island, this Profound Turtle Fragment might have been bought by someone else.

He would've missed this opportunity.

Coming to Spirit Turtle Island was indeed the right choice.

Not only did he avoid a life-threatening disaster, but also gained unimaginable benefits.

These Innate Talismans aren't something the Primordial Talisman Sect could obtain.

They appear on powerful demon beasts, or certain Treasures of Heaven and Earth.

Without sufficient opportunities, they are impossible to see or obtain.

And it requires special materials to retain the Innate Talisman.

Evidently, the power of this Profound Turtle Talisman is enough for him to use for a long time.

...

Days passed.

Jiang Fan and Su Weiwei resided in the inn.

The two were somewhat familiar with life here.

However, they discovered that cultivating in the inn was inconvenient.

The surrounding Spiritual Qi was too sparse without the Tier Two Spirit Vein.

This greatly reduced their cultivation efficiency.

Especially for Jiang Fan, a Foundation Establishment Cultivator, the lack of Tier Two Spirit Vein assistance was frustrating.

No wonder most Foundation Establishment Cultivators in the Yiling Island Group became Honored Guest Elders of these Golden Core Influences.

Because without such status, getting access to Tier Two Spirit Veins was nearly impossible.

Most islands in this sea area are controlled by Golden Core Influences.

Even Foundation Establishment Clans are vassals to Golden Core Influences.

Backed by Golden Core Influences.

Without background, Foundation Establishment Influence barely exists in this sea area.

"Husband, how about we join Spirit Turtle Island?"

"It's said Spirit Turtle Daoist is at the peak of his cultivation, with his influence thriving."

"Currently, he has over twenty or thirty Foundation Establishment Cultivators under his command."

"Governing hundreds of islands, he's flourishing."

"It's better to shelter under a big tree."

"As Honored Guest Elders on Spirit Turtle Island, we could stay awhile."

Su Weiwei said seriously.

She felt Spirit Turtle Island was a good choice.

Considering this thriving Golden Core Influence, it's strong.

Under its protection, it should be stable.

Boom~~

Jiang Fan was about to say something when suddenly, the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi started vibrating, instantly sending a message to his consciousness.
