

## **Fortune 324**

Chapter 324: Obtained the Soaring Serpent Golden Core Chapter, Truly Great Fortune\_2

"But there is only one."

"As for whether it's good or bad, it's your choice."

Cao Rui said solemnly.

"Okay."

Jiang Fan nodded.

Soon, under Cao Rui's guidance, the two arrived at the deepest part of Red Whale Island.

This place was shrouded in a Tier Three Array.

Inside stood a majestic palace.

Around it were many cultivators guarding, making it very secure.

Evidently, this was the treasure vault of Red Whale Island.

"Go in by yourself."

"The selection time is only half an hour."

"So once time is up, you must come out, whether you've chosen or not."

Cao Rui said as he directly opened the door to the vault.

Upon hearing this, Jiang Fan nodded, indicating he understood, and then walked directly into the vault.

The vault inside was vast, and the treasures were simply dazzling.

So much that it was overwhelming.

All sorts of magical artifacts and spiritual artifacts were available.

There were also many rare materials from the sea.

Alongside, there were quite a few refined elixirs.

It must be said, Red Whale Island truly deserves to be a Golden Core Influence; its foundation is extraordinarily deep.

This made him want to take all the treasures from this place.

Of course, he knew that was practically impossible.

So Jiang Fan calmed down; as long as he obtained his Sixth-Grade Opportunity, it would be enough.

Swish!

Following the hints from the Sixth-Grade Opportunity, Jiang Fan arrived at a corner of the vault.

He looked up and immediately saw an ancient jade scroll placed on a shelf.

This jade scroll was very old, seemingly having endured the test of time.

Yet, it was unclear what material or structure this jade scroll was made of.

"What's going on?"

Seeing this ancient jade scroll, Jiang Fan felt a slight stirring in his bloodline.

As if connecting with the aura of the scroll.

A mysterious force emanated from this jade scroll.

In a moment of impulse, he reached out to touch the ancient jade scroll.

Boom~~

In an instant, the jade scroll emitted golden rays of light, and a vast stream of information flooded his consciousness like a tide.

Countless ancient texts and diagrams appeared in his mind.

Soaring Snake Technique Golden Core Chapter!

Sensing this information, Jiang Fan's pupils contracted, showing an incredulous expression.

He had never expected to find the Soaring Snake Technique Golden Core Chapter in the vault of Red Whale Island.

It's worth noting that he had no clues about the remaining Chapters of the Soaring Snake Technique.

Yet now, the Soaring Snake Technique Golden Core Chapter had appeared before him without warning.

It felt like the pull of destiny.

Leading him every step to find the complete Chapters of the Soaring Snake Technique.

"No wonder joining Red Whale Island is considered auspicious."

"It's probably because the vault of Red Whale Island hides the Golden Core Chapter of the Soaring Snake Technique."

"If I hadn't joined Red Whale Island, I wouldn't have been able to obtain the follow-up Chapters of this cultivation technique."

"Indeed, this choice was the right one."

"Otherwise, I would never find the remaining Chapters of the Soaring Snake Technique in this lifetime."

Jiang Fan clenched his fists, feeling extremely excited.

Although he had only found the Golden Core Chapter of the Soaring Snake Technique, it was entirely sufficient.

Just the Foundation Establishment Chapter and Golden Core Chapter were enough for him to cultivate for a long time.

In the short term, he didn't need the Nascent Soul Chapter or the Divinity Transformation Chapter.

Moreover, considering his current destiny, obtaining the remaining Chapters was likely just a matter of time.

"But this jade scroll was placed in the vault."

"And not in the Cultivation Technique Library."

"So even the cultivators of Red Whale Island don't know it actually contains a cultivation technique."

"Right, its inheritance is very special; if one isn't a cultivator of the Soaring Snake Technique, it's impossible to activate the inheritance of this jade scroll or obtain its contents."

"So for the cultivators of Red Whale Island, this jade scroll is simply an odd material."

"They probably don't know the importance of this jade scroll."

Jiang Fan believed his guess was close to the truth. If the cultivators of Red Whale Island truly knew what was inside, they wouldn't place the jade scroll here, but store it in the library.

This allowed him to take advantage and gain this Sixth-Grade Opportunity, which was indeed a big deal.

"Wait, if that's the case, I don't actually need to take the jade scroll away."

"After all, I've already obtained the contents of its inheritance."

"So leaving it here is completely fine."

"I can fully acquire other treasures from the vault."

Now, Jiang Fan's eyes suddenly brightened, feeling he was hitting two birds with one stone.

Not only had he obtained the contents of the Soaring Snake Technique Golden Core Chapter, but he could also receive other treasures granted by Red Whale Island.

It's safe to say this harvest was extraordinarily large.

Thinking of this, Jiang Fan didn't hesitate. He put down the ancient jade scroll and started searching through the vault for suitable treasures, examining each shelf.

"Master, you don't lack magical treasures right now."

"What you need are elixirs to enhance your cultivation."

"This Tier Two Elixir, Fire Yang Pill, is quite good."

"Its main ingredient is the Fire Sunflower, with intense medicinal properties that can rapidly increase a Foundation Establishment cultivator's spiritual power."

"If a Foundation Establishment cultivator is weak, they may find it difficult to refine this elixir."

"But for Master, you can completely withstand such fierce medicinal power."

"And if thoroughly refined by my Ten Thousand Transformations Pill Furnace, there won't be any impurities left."

"This elixir can definitely enhance your spiritual power swiftly."

The Ten Thousand Transformations Pill Furnace provided its advice, as it is considered an Alchemy Grandmaster. Although it doesn't independently refine elixirs, it has seen numerous elixirs.

Thus, it immediately found a highly suitable Tier Two Elixir for Jiang Fan.

Indeed, this was the case.

Jiang Fan already possessed the Ten Thousand Transformations Pill Furnace, Primordial Talisman Pen, Demon-Vibrating Bell, and other ancient treasures.

Even acquiring another spiritual artifact would be redundant, lacking significance.

Rather than obtaining a spiritual artifact, it would be more beneficial to gain an elixir.

"Alright, let's take this Fire Yang Pill."

Jiang Fan nodded; he took the Tier Two Elixir without hesitation.

Then he quickly exited the vault.

"Oh, you took the Fire Yang Pill?"

"It seems Fellow Daoist Jiang has a good physique, able to withstand the fierce medicinal power of this elixir."

"If you can endure it, then it can indeed rapidly enhance a Foundation Establishment cultivator's cultivation."

Cao Rui glanced at the treasures Jiang Fan took from the vault and smiled.

He briefly mentioned the advantages and disadvantages of this Tier Two Elixir.

"Rest assured, I have some confidence in my physical constitution."

"I should be able to withstand the medicinal power of the Fire Yang Pill."

Jiang Fan smiled faintly.

"Since Fellow Daoist Jiang is confident, I won't say much."

Cao Rui nodded.

Since this was the other's choice.

Moreover, as a Foundation Establishment cultivator, he surely knows what he needs and doesn't need.

...

Of course, after obtaining the Fire Yang Pill, Jiang Fan didn't immediately leave Red Whale Island.

Instead, he stayed on Red Whale Island and attended an event hosted by Cao Rui.

The aim was to celebrate the recent slaying of the traitor Sun Hao on Red Whale Island.

He also finally met the other Foundation Establishment cultivators on Red Whale Island.

Including Cao Rui, there were a total of seven Foundation Establishment cultivators on Red Whale Island.

They were all direct disciples of Red Whale Daoist.

These people were called Fan Hairong, Peng Dezhe, Lu Haojing, Zhang Yunshang, Miao Feng, Huang Yunqiang.

Among them, Cao Rui's cultivation was the highest at Ninth-Layer Foundation Establishment.

Fan Hairong, Peng Dezhe, and Lu Haojing were all Seventh-Layer Foundation Establishment.

Zhang Yunshang, Miao Feng, and Huang Yunqiang were Fifth-Layer Foundation Establishment, all mid-stage Foundation Establishment cultivators.

No wonder other Golden Core Influences don't consider Red Whale Island a threat.

It's because these direct disciples of Red Whale Island have no hope of becoming Golden Core Zhenren.

Besides these direct disciples, there were also five Honored Guest Elders.

However, these Honored Guest Elders served on other islands and didn't return to Red Whale Island.

Nonetheless, Jiang Fan finally became acquainted with these Foundation Establishment cultivators from Red Whale Island.

This would facilitate his future life in the Yiling Island Group.

After the feast, Jiang Fan finally flew back to Fire Copper Island, as Fire Copper Island was his territory.
