Chapter 325: Promotion to Tier Two Middle-Grade Talisman Master, War Approaches

It was midnight, on Fire Copper Island.

In a secluded chamber.

Jiang Fan sat cross-legged on the ground, carefully taking stock of the harvest after eliminating the two Foundation Establishment cultivators.

Undeniably, those two Foundation Establishment cultivators from Sun Hao were indeed wealthy.

He obtained a total of three hundred thousand spirit stones from them.

This increased his count to a whopping one million two hundred thousand spirit stones.

If still within the Profound Celestial Sword Sect's territory, ordinary Foundation Establishment cultivators could never possess so many spirit stones.

However, this was quite normal.

After all, the resources of the Yiling Island Group's seas are extremely abundant, not inferior to those of the Profound Celestial Sword Sect's domain.

Moreover, Foundation Establishment cultivators are considered experts in these seas.

So the difficulty in acquiring spirit stones naturally decreases greatly.

The Foundation Establishment cultivators here are at least twice as wealthy as those of the Profound Celestial Sword Sect.

The only downside is the lack of complete inheritances in these seas.

Therefore, professions like talisman masters, alchemists, array masters are scarce.

This also results in higher prices for talismans, elixirs, arrays, etc.

Originally, the Profound Celestial Sword Sect was very tempted by the wealth of these seas, but they simply don't have enough personnel.

Just maintaining a territory of a million kilometers stretches their manpower thin.

It's practically impossible to send more people here.

The ordinary trade alone is enough for the Profound Celestial Sword Sect to make a fortune.

Thus, the Yiling Island Group naturally formed an independent power separate from other places.

"What a pity, not much Tier Two elixir."

Jiang Fan was slightly regretful, as he initially wanted to get Tier Two elixirs from these two Foundation Establishment cultivators, but found that neither of them had a single bottle of Tier Two elixirs.

Probably, even if they had Tier Two elixirs, they would have consumed them long ago.

Definitely wouldn't keep them overnight.

Yet acquiring three hundred thousand spirit stones alone is more than sufficient.

With so many spirit stones, who knows how many elixirs he could buy?

Fortunately, he got a bottle of Fire Yang Pill from Red Whale Island, which should satisfy his cultivation needs for a while.

Thinking of this, Jiang Fan didn't hesitate, tossing one Fire Yang Pill into the Ten Thousand Transformations Pill Furnace.

Instantly, the ordinary-quality Fire Yang Pill had its impurities thoroughly refined away, finally becoming a perfect-quality Tier Two elixir with no impurities.

Such an elixir could easily see its price increase by thirty to forty percent.

Thud~~

At that moment, Jiang Fan swallowed the perfect-quality Fire Yang Pill in one go.

Then he activated the Mixed Element Talisman Scripture.

The primordial talisman in the depths of his elixir field and Sea of Qi kept rotating.

The Fire Yang Pill was instantly refined, transformed into immense medicinal power.

A turbulent heat wave surged through every meridian in his body.

It felt like a volcano, causing his body's temperature to rise rapidly, and his body seemed like a furnace.

To be honest, such medicinal power was too turbulent.

No wonder so many Foundation Establishment cultivators dared not consume the Fire Yang Pill.

With such turbulent medicinal power, if a Foundation Establishment cultivator had average physical condition, their meridians would have been damaged long ago.

Fortunately, his physique was unusual, and his meridians were incredibly tough.

No matter how turbulent the medicinal power was, it was still nothing for Jiang Fan.

Boom~~

Jiang Fan entered a meditative state, with the primordial spiritual power in the depths of his elixir field and Sea of Qi rapidly increasing.

Just a single Fire Yang Pill could save him several months of arduous cultivation.

In an instant, he entered a deeper level of cultivation.

...

Half a year passed in a flash.

Jiang Fan and Su Weiwei stayed in the Yiling Island Group for a full six months.

These six months passed quite peacefully.

With protection from the Red Whale Island forces, not many cultivators dared to create trouble here.

The last time two Foundation Establishment cultivators attacked was actually quite rare.

Thus, Jiang Fan and Su Weiwei were at ease cultivating here.

Even more comfortable compared to when they were in the Profound Celestial Sword Sect's domain.

At least here, there aren't many demon cultivators rampaging.

Boom~~

At this moment, inside the secluded chamber, Jiang Fan felt a stirring in his heart and immediately opened the virtual panel on his body.

Thanks to the effects of the Fire Yang Pill, combined with the Tier Two Spirit Vein effect, his cultivation has progressed rapidly, reaching eighty percent in just half a year.

It is estimated that before long, he will reach the Perfection stage of the Fourth-Layer Foundation Establishment.

For him, the greatest progress was the improvement in the skill level of his various Life Talismans.

Firstly, the Perception Talisman had reached the Skilled mastery level.
