Chapter 329: Overcoming the Calamity, Gaining a Sixth-Grade Opportunity

"So that's it, this is the twist on the journey?"

"It seems it cannot be avoided."

Seeing these two Foundation Establishment cultivators, Jiang Fan felt quite emotional.

He originally thought that his acquisition of the opportunity this time was very smooth, and there shouldn't be any twists.

Unexpectedly, the twist came from these two Foundation Establishment cultivators.

Obviously, under normal circumstances, the opportunity of this Foundation Establishment Cave Mansion should have been obtained by these two individuals.

However, now he had taken the lead and intercepted it halfway through.

It's equivalent to him snatching away their opportunity.

But this world is just so unfair, first come, first served.

Since these two were a step late, this opportunity naturally does not belong to them anymore.

Moreover, this was the egg of the Ancient Strange Insect known as the Purple Lightning Mayfly.

The preciousness of this opportunity is simply unbelievable.

He naturally could not give up this opportunity.

"Two fellow Daoists."

"This opportunity is now mine."

"If the two of you are sensible, if you leave now, you might still live."

"Otherwise, don't blame me for being rude."

Jiang Fan calmly looked at the two.

He could sense the cultivation of the two, one was at the Fourth-Layer Foundation Establishment, and the other at the Fifth-Layer Foundation Establishment.

Their cultivations were indeed quite good.

But compared to himself, they were completely insignificant.

"Arrogant guy, go to hell."

Hearing this, the two Foundation Establishment cultivators were furious, and extremely so, because they felt this young man was blatantly looking down upon them.

If the person in front was a Golden Core Zhenren, then naturally they would retreat.

But this young man's cultivation was only comparable to theirs.

Yet he dared to speak so boastfully.

If they retreated like this, they would probably become the laughingstock of the Yiling Island Group.

More importantly, they absolutely could not give up the opportunity of this Foundation Establishment Cave Mansion.

Rumble~~

Instantly, these two Foundation Establishment cultivators acted viciously, immediately bringing out their mid-grade spiritual artifacts.

One was a saber, the other a sword.

The two unleashed terrifying sword and saber qi.

They completely locked onto Jiang Fan's aura.

Emitting a terrifying killing intent.

This destructive power hurled towards Jiang Fan, mercilessly.

Obviously, this time, not only did they want to get the treasure inside the Foundation Establishment Cave Mansion.

They also wanted to kill this Foundation Establishment cultivator to seize the treasures on him.

This could be described as killing two birds with one stone.

Profound Turtle Talisman!

In an instant, Jiang Fan remained motionless, floating in mid-air.

He activated the Life Talisman deep in his elixir field and sea of qi—the Profound Turtle Talisman.

The enormous primordial spiritual power infused into it immediately activated this talisman.

The next second, his entire body was enveloped in an invisible spiritual power barrier.

Like a giant turtle shell, it manifested patterns of turtle shell texture.

And there were numerous Profound Turtle Runes.

This was like a Profound Turtle's shell enveloping his surroundings, covering him from all angles.

Dong dong dong!!!

Immediately, the force of the two Foundation Establishment cultivators bombarded the Profound Turtle Talisman, unleashing terrifying destructive power.

Such a full-force hit could easily destroy a mountain and shatter the earth.

But when it landed on the Profound Turtle Talisman, it merely stirred up ripples of spiritual power.

It couldn't break through the turtle shell.

"How is this possible? What kind of magic is this?"

"Even our power can't break through?"

The two Foundation Establishment cultivators were stunned, unable to believe their eyes, finding it incredible.

This was the first time they had seen such a protective method.

The opponent didn't rely on any defensive spiritual artifact.

It was merely the force of his magic, forming the spiritual power barrier, effortlessly fending off their attacks, which was simply excessive.

For a moment, they sensed something ominous, feeling this unfamiliar Foundation Establishment cultivator was somewhat extraordinary.

Perhaps this time they had misjudged their enemy.

"No wonder it's the Profound Turtle Talisman."

"Indeed, an attack from a cultivator of the same level in Foundation Establishment cannot break this turtle shell."

Jiang Fan was very satisfied with the defensive ability of the Profound Turtle Talisman; staying within the spiritual turtle shell, he was as steady as a mountain, like sitting comfortably within a fortress.

No matter how fiercely the enemy attacked, he remained unharmed.

Even just the entry-level Profound Turtle Talisman was more formidable than a perfection-level protective talisman.

"Die."

With a thought, Jiang Fan activated the Life Talisman deep in the elixir field and sea of qi—the Celestial Thunder Talisman.

He summoned the thunderbolt power traveling in the depths of the void.

With a gentle gesture.

As many as twenty-seven celestial thunders descended swiftly, unbelievably quick.

"It's over."

The faces of the two Foundation Establishment cultivators changed dramatically, their hair standing on end, sensing a fatal crisis.

They hadn't expected this young man to be a Thunder Cultivator, wielding the power of celestial thunder.

At this moment, their auras were already locked by the celestial thunder, utterly inescapable, unavoidable.

Boom~~

The next second, celestial thunder descended like raindrops, striking the two of them.

"Ah ah ah!!!!"

Instantly, the two Foundation Establishment cultivators couldn't help but let out a wretched cry, as the purple celestial thunder pierced their bodies like spears.

Even the defensive magic robes they wore were of no avail.

Blood flowed uncontrollably.
