

## **Fortune 339**

Chapter 339: Victory at Red Whale Island, Obtaining the Profound Light Concealment Array\_2

Of course, even so, these few treasures are quite valuable.

If sold, they would be worth at least hundreds of thousands of spirit stones.

Therefore, he wasn't dissatisfied.

Next, Jiang Fan tried out the power of the Profound Light Concealment Array.

Setting up this array plate is actually quite simple, just place it in a certain location and activate it directly.

The method of use is similar to that of a magical treasure.

When activated, an invisible Profound Light Barrier envelops a mile radius.

This power easily conceals the area within.

Outsiders basically cannot see.

Unless they come close, they won't notice anything unusual here.

It is indeed profound and inexhaustible.

If it's just maintaining the array's operation, the consumption of spirit stones is not much.

But once attacked by enemies, spirit stones will be consumed rapidly to maintain the array's operation.

Overall, Jiang Fan was still very satisfied.

With this Tier Two Array, his safety level will increase by several grades when he travels outside in the future.

.....

Another day passed.

The Red Whale Island Token on Jiang Fan's body lit up again.

A message quickly came over.

"The war is over?"

"And it's a great victory for Red Whale Island?!"

"Even three Golden Core Zhenren, including Sea Serpent Daoist, were killed?"

Upon seeing this message, Jiang Fan's eyes flickered.

Although he had somewhat anticipated this event, he was still shocked to see it actually happen.

Frankly speaking, this time the attacking Golden Core Zhenren on Red Whale Island were not just Sea Serpent Daoist alone.

Besides Sea Serpent Daoist, there were two other Golden Core Zhenren.

It can be said that a total of three Golden Core Zhenren took action, aiming to completely annihilate Red Whale Island and kill Red Whale Daoist.

But despite this, Red Whale Daoist did not die.

Not only did he not die, but he also killed all three Golden Core Zhenren.

This is really inconceivable.

If this were to spread, it would surely shock the entire Yiling Island Group.

"Husband, what happened?"

Su Weiwei asked curiously when she saw Jiang Fan's expression.

"The war is over, Red Whale Island achieved a great victory."

"Now Red Whale Island is calling us honored guest elders over to discuss merits and rewards."

Upon hearing this, Jiang Fan said straightforwardly.

"Won?"

"How exactly did they win?"

Su Weiwei blinked her beautiful eyes, feeling very surprised.

Because according to current intelligence, even if Red Whale Island could win, it would probably be a costly victory.

But now it looks like Red Whale Island has achieved a great victory.

This is truly beyond everyone's expectations.

"Not sure, but if you want to know exactly how they won, go and see for yourself."

"I believe the answer will come soon."

Jiang Fan was also very curious about the foundation of Red Whale Island.

It seems that Red Whale Daoist's strength is simply unfathomable.

Otherwise, it would be impossible to achieve such an astonishing military achievement.

Of course, for someone like him who cultivates diligently, this is indeed good news.

After this victory, it is estimated that no one would dare to provoke Red Whale Island in the short term.

After tidying up his belongings, Jiang Fan headed to Red Whale Island.

In just a day's time, he arrived at Red Whale Island.

"It seems the previous battle was extremely fierce."

As soon as he set foot on Red Whale Island, Jiang Fan saw the devastation of this prosperous island.

The ground was full of pits and craters, as if it had been destroyed by countless missiles.

Mountains in the distance had collapsed.

Even the bustling towns had many buildings destroyed, seemingly turning into ruins.

No one knows exactly how many were killed or injured in this battle.

Evidently, the aftermath of the Golden Core Zhenren's battle alone caused earth-shattering effects.

But now, everything has passed.

Numerous mortals and cultivators are rebuilding houses amidst the ruins.

I believe everything here will return to its original state soon.

The scars left will also quickly be erased.

"Fellow Daoist Jiang, you finally came."

"I heard that this time you killed three Foundation Establishment cultivators who attacked Fire Copper Island."

"It's truly a brilliant achievement."

The person greeting Jiang Fan was the second disciple of Red Whale Island, Fan Hairong. As for the senior brother Cao Rui, he was busy handling other matters since the war had just ended and there were many things to sort out, leaving him too busy to welcome Jiang Fan.

"Fellow Daoist Fan, you're too kind."

"It was just a sneak attack, catching them off guard."

"If it were a frontal battle, I wouldn't have been a match for those three Foundation Establishment Tribulation Cultivators."

Jiang Fan humbly said.

After all, no one saw his battle with those three Foundation Establishment Tribulation Cultivators, so he could naturally fabricate his story.

This way, at least other cultivators wouldn't overestimate his strength too much.

"A sneak attack is also a skill."

"Even other Foundation Establishment cultivators who want to launch a sneak attack can't achieve this."

"Fellow Daoist Jiang is truly modest."

Fan Hairong laughed heartily, regardless of whether this young fellow launched a sneak attack or fought head-on, having such an achievement alone was enough to prove his formidable battle power.

This is good news for the developing Red Whale Island.

After all, with such a strong ally, everything will be easier to handle in the future.

"By the way, where are the other honored guest elders? Why haven't I seen them around?"

Jiang Fan asked curiously.

He hadn't found any other guest elders nearby.

"Sigh, don't even mention them."

"These guys, when they heard that Red Whale Island was being attacked by Sea Snake Island, fled in fear."

"They didn't even want to defend the island, trying to leave this sea region."

"But they didn't end well either."

"When they left, they actually ran into Sea Snake Island's encirclement."

"As a result, these people were captured and executed on the spot."

Fan Hairong said gleefully.

Evidently, for now, Red Whale Island only had Jiang Fan, the sole honored guest elder left.

The other five guest elders basically perished in this battle.

"Dead?"

Upon hearing this, Jiang Fan blinked, undoubtedly validating a message from the Fortune-Telling Talisman.

If he had chosen to leave Fire Copper Island back then, he would have likely followed the same path as those guest elders.

He would surely have run into Sea Snake Island's powerful forces.

Clearly, the other side had set up a net in this sea region.

The aim was to intercept all of Red Whale Island's cultivators with no room for failure.

No matter where these guest elders ran, they inevitably would have come across it, making it a life-or-death situation.

So staying on the island he guarded was actually the safest choice.

Unfortunately, these guest elders didn't understand this, choosing instead a path leading to their doom.

Sometimes, making the wrong choice can trap one in a death tribulation, where one's life and cultivation extinguish.

This is the cruel nature of the Cultivation Realm, where danger lurks at every step and progress is precarious.

"However, I heard this time Sea Serpent Daoist brought two Golden Core Zhenren over."

"I wonder how our Red Whale Island managed to defeat them?"

Jiang Fan asked curiously.

He did not hide his curiosity, since not only him, any cultivator hearing this news would feel immensely curious and want to know what happened.

Because up until now, Red Whale Island had only Red Whale Daoist, a single Golden Core.

"Haha, there's no need to keep this a secret."

"I guess this news will soon spread across the Yiling Island Group."

"At first, we thought we were doomed."

"After all, with three Golden Core Zhenren attacking, even if the master was powerful, he likely couldn't withstand it."

"But surprisingly, the master had a trump card, his daughter Yu Ruolin. She turned out to be a Golden Core Zhenren as well, and her strength was no less than the master's, perhaps even stronger."

"So the two Golden Core Zhenren joined forces and ended up killing Sea Serpent Daoist and the other Golden Core Zhenren."

"Even when Sea Serpent Daoist and the others tried to flee, they didn't have time to escape and ended up dead."

Fan Hairong said proudly, feeling delighted.

After all, such an outcome was like a reversal of fortunes.

Initially thinking Red Whale Island was about to be destroyed, who would have thought it ended up achieving a great victory?

It is truly unimaginable.

"The Island Master's daughter?"

"And a Golden Core Zhenren, even stronger than the Island Master?"

"Why hadn't I heard about her before?"

Hearing this, Jiang Fan's eyes flickered; frankly speaking, this news was indeed too shocking, truly unimaginable.

After all, Red Whale Daoist had always been portrayed as single, with no one having heard of him having a daughter.

Who would have thought suddenly a daughter appeared, and she's a Golden Core Zhenren.
