At this moment, Jiang Fan felt a stir in his heart and immediately opened his virtual panel.

Without a doubt, his cultivation progress during this period can be considered rapid.

Thanks to obtaining the Red Blood Spirit Fruit, the primordial spiritual power within him increased rapidly.

Now, the progress has reached 70%.

It seems that in a while, he will be able to advance to the level of Foundation Establishment Fifth-Layer Perfection.

This demonstrates the importance of fortune.

Often, some elixirs or the assistance of spirit medicine can save years of arduous cultivation.

Of course, besides his cultivation progress, the Celestial Thunder Talisman has also advanced to the realm of Great Success.

Meanwhile, the skill level of the Talisman Master is steadily improving.

However, this also consumed a significant amount of his Luck Points; currently, only 90,000 Luck Points remain.

Whish!

Jiang Fan stabilized his breath and returned to the residence.

"Husband, have you finished your cultivation?"

At this time, Su Weiwei had just returned from outside.

She went shopping in Fire Copper Town earlier, bringing back many good items.

Her face was brimming with excitement.

After all, Fire Copper Island is bustling and lively, attracting a large number of cultivators.

This also brought commercial prosperity.

More importantly, she is already a Ninth-Layer Qi Cultivation Stage Cultivator, possessing the ability to protect herself.

Unless faced with Foundation Establishment cultivators, she might be in danger.

But the entire Fire Copper Island is within Jiang Fan's perception range.

No Foundation Establishment cultivator entering this island could escape his notice.

Thus, Su Weiwei staying on this island is very safe.

"Yes, just finished."

"What did you buy this time at Fire Copper Town?"

Jiang Fan went forward, wrapped his arm around Su Weiwei's slender waist, feeling her fiery figure. Now, Su Weiwei was even more charming, making it hard for him to control himself, his heart ablaze.

"I bought so many things."

"Some upper-grade silk clothes, Tier Two Spirit Rice."

"And some beautiful accessories."

"Since the war ended, many merchants have come to Fire Copper Island."

"They also brought a lot of goods."

Su Weiwei spoke with excitement, like counting treasures.

She started chatting away about the trivial matters of these days.

Jiang Fan also occasionally commented, feeling warm inside.

If it weren't for so many calamities, peacefully cultivating like this isn't bad either.

.....

A few more days passed.

Initially, Jiang Fan and Su Weiwei lived a stable life, entangled in affection, as close as glue.

But suddenly, he received shocking news.

The Yiling Secret Realm had emerged.

This news shook the entire Yiling Island Group, causing countless cultivators to be shocked.

Especially those Golden Core Influences and Golden Core Zhenren, each one was extremely excited.

Because to them, this is absolutely a super opportunity.

Even many Qi Cultivation Stage cultivators on Fire Copper Island were aware of this matter.

"No way, the Yiling Secret Realm has emerged?"

"After waiting for a hundred years, has it finally emerged again?"

A Qi Cultivation Stage cultivator said excitedly.

"What is the Yiling Secret Realm? Why is everyone so excited about its emergence?"

Someone couldn't help but ask, not knowing much about the Yiling Secret Realm, utterly puzzled.

"The Yiling Secret Realm is renowned in this sea region as a secret realm world."

"It's said to be an ancient secret realm world controlled by the Yiling Ancestor."

"Its area is immensely vast, and even now, its true size is unknown."

"But what's certain is that the Yiling Secret Realm contains countless treasures."

"In the past, the Yiling Ancestor could become a Nascent Soul by leveraging the resources of this secret realm."

"Every time the Yiling Secret Realm emerges, it becomes an unprecedented spectacle in this sea region."

"Even a little fortune can lead to skyrocketing success, utterly changing one's destiny."

Numerous cultivators discussed excitedly.

After all, the Yiling Secret Realm emerges only once every hundred years.

For ordinary mortals, or even Qi Cultivation Stage cultivators, it's an opportunity that may come only once in a lifetime.

If missed this time, there'd be no next time.

Perhaps only Foundation Establishment cultivators, or even Golden Core Zhenren, can encounter it twice, or even three or four times.

Yet, even so, it's still an invaluable opportunity for these cultivators.

Thus, no one would want to miss this huge opportunity.

"Such an unfathomable secret realm world, are we Qi Cultivation Stage cultivators allowed to enter?"

"Yeah, a secret realm world like this must have long been controlled by the Golden Core influences, how could we possibly enter?"

"Indeed, we can only envy it from afar."

Some loose cultivators sneered.

They felt that if the Yiling Secret Realm was truly so remarkable, it was likely already controlled by the major Golden Core influences.
