### Chapter 347: Ancient Treasure Exquisite Tower, Spatial Treasure

At the same time, in the deepest part of the Yiling Secret Realm, there are two mysterious entities monitoring every move within this Secret Realm World, and any cultivator who enters the realm falls under their surveillance.

Jiang Fan is naturally no exception and has been under their close observation for a long time.

"Oh, it seems a fascinating young cultivator has come with the opening of this Secret Realm."

"He actually received the inheritance from the Primordial Talisman Sect and has even cultivated the Mixed Element Talisman Scripture."

A young voice suddenly rang out, appearing quite intrigued by Jiang Fan.

"Primordial Talisman Sect? Hasn't it been extinct for a long time? I didn't expect that till this day, its legacy still hasn't disappeared."

"Moreover, this successor seems quite extraordinary; his body's foundation is unexpectedly thick, so much so that it seems certain he could become a Nascent Soul cultivator in the future."

An elder voice was also astonished.

It sensed Jiang Fan's physical condition, finding the vitality and spiritual power in him to be extraordinarily dense, thoroughly surpassing those of Foundation Establishment cultivators of the same level.

This is simply beyond reason.

Because resources in this era are scarce, far inferior to the Ancient Era.

Thus, the foundation inevitably has some defects and doesn't reach the Perfection Level.

But this disciple of the Primordial Talisman Sect, however, surpasses the level of cultivators of the same era.

No, even during the Ancient Era, there are few Foundation Establishment cultivators comparable to this youngster.

"Indeed, as far as I know, disciples of the Primordial Talisman Sect who cultivate the Primordial Talisman during the Qi Cultivation Stage can engrave two or three Life Talismans, which is quite extraordinary and certainly considered talented."

"But this youngster, just at the Fifth-Layer Foundation Establishment, yet he engraved fourteen Life Talismans; this means he's achieved the ultimate of the Mixed Element Talisman Scripture cultivation. Such an individual, even in the Ancient Era, would be considered a Daoist."

"Is the Primordial Talisman Sect's destiny converging on this youngster after its demise?"

The young voice also appeared uncertain.

Because, since the opening of the Yiling Secret Realm, this youngster is indeed an unprecedented existence.

"Wait, where is this youngster going?"

"Is that the Ancient Treasure Exquisite Tower? A Spatial Treasure, how could this youngster have found it?"

"This is a reward that can only be obtained after slaying a large number of demons."

"But how did this youngster find it in advance?"

The elder voice was a bit bewildered.

Honestly, to motivate the cultivators entering the Yiling Secret Realm to kill demons, they placed many treasures throughout the realm, only hinting at their locations after the cultivators had slain enough demons so they could go treasure hunting.

Thus, the cultivators would naturally go on a demon-killing frenzy to earn rewards.

But now, this youngster skipped over all obstacles and directly found the greatest reward on this island.

This made it somewhat frenzied.

As if someone had jumped over all the game levels to get the reward.

It made it incredibly angry.

"Hehe, don't worry."

"This Ancient Treasure is the Exquisite Tower, a Spatial Treasure."

"To my knowledge, the Artifact Spirit of this ancient treasure is extremely proud."

"Even if that youngster obtained this ancient treasure, without the recognition of the Artifact Spirit, it would be nothing but a lifeless object."

The young voice spoke calmly.

It thought that even with the youngster getting the Ancient Treasure Exquisite Tower, it wouldn't affect its plans.

If it couldn't be refined, then it'd be no different from a roadside stone, meaningless.

"But the youngster has already refined it, in the blink of an eye."

The elder voice weakly stated.

"What?!"

The young voice was dazed, shocked, rendered speechless.

Isn't the Ancient Treasure Exquisite Tower very proud and conceited? How could it be conquered and refined in the blink of an eye?

Where is your pride now, your free-spirited nature? Why did it vanish suddenly?!

...

A bit earlier in time.

Deep in the cave.

Whoosh!

Seeing this Fifth-Grade Opportunity, Jiang Fan didn't hesitate and immediately picked up this ancient treasure tower, admiring it in his palm.

He could feel the tower contained an incredible force and spirituality.

It's just that the other party was now dormant, not yet awakened.

"Wow, master, your luck is against the heavens."

"To actually find another ancient treasure."

"Why are so many ancient treasures fated with you?"

"Could it be that you have a treasure-attracting physique?"

The Ten Thousand Transformations Pill Furnace was stunned, staring at the ancient tower before it, as an ancient magical treasure, it could naturally sense the other's extraordinary nature.

But it never expected its master to find yet another ancient treasure.

When did ancient treasures become so common?

An ordinary cultivator finding one ancient treasure would already be exhausting a lifetime of luck.

But its master managed to obtain them one after another, it's simply heaven-defying.

"Hehe, what's the use of obtaining an ancient treasure."

"If the Artifact Spirit does not approve, it's nothing but scrap metal."

"Don't think every ancient treasure can be forcibly refined like us."

The Demon-Vibrating Bell chuckled, doubting Jiang Fan could refine this treasure.

Because it could sense the tower possessed full spirituality, if the other party didn't approve of it, forceful refinement would result in mutual destruction; this is the so-called unwelcome forced effort.

Boom~~

However, Jiang Fan ignored the words of his two ancient treasures, he activated his thoughts, immediately consuming his Luck Points.
