Chapter 348: Ancient Treasure Exquisite Tower, Spatial Treasure_2

Ten thousand Luck Points, twenty thousand Luck Points, thirty thousand Luck Points.

When it reached forty thousand Luck Points, this ancient treasure finally responded.

A mysterious energy surged from Jiang Fan's body and then entered the deepest part of this Treasure Tower.

Dong!

At this moment, Jiang Fan sensed his soul effortlessly penetrating the Restriction Array of this Treasure Tower, reaching the core deep inside. He saw a golden orb there.

Covered with densely packed Restriction Arrays, it was unfathomable and full of mysteries.

Boom!

In an instant, Jiang Fan found a strand of his Soul Power merging into it, seemingly achieving Unity of Man and Artifact. His soul mark was effortlessly imprinted on it.

Immediately, a faint consciousness awoke from this Treasure Tower.

"Strange, wasn't I in a deep slumber? Why did I suddenly wake up?"

"Damn, how did I suddenly get refined by someone?"

"Which sneaky bastard attacked me while I was asleep? This is outright dishonorable."

The Artifact Spirit of the Exquisite Tower suddenly awakened. Initially, its consciousness was fuzzy, but it quickly realized something was wrong. Its core had been imprinted with a soul mark.

Simply put, someone took advantage of its slumber to forcefully refine it.

It was enraged, furiously so.

Which bastard did something so dishonorable?

A force tried to erupt from the Exquisite Tower.

But Jiang Fan moved his thoughts, easily suppressing the Exquisite Tower.

Because he had already refined this ancient treasure, he could naturally suppress it.

"What?"

The ancient treasure Exquisite Tower was utterly confused, as if a bucket of cold water had been splashed on its head, making it completely sober.

It now clearly realized it was controlled by a stranger, a cultivator.

And there was no room for resistance anymore.

"Boohoo, I've lost myself, been defiled, my purity is gone."

The ancient treasure Exquisite Tower wailed bitterly, feeling extremely aggrieved.

It felt like a magical treasure that had been forcefully refined.

Whether willing or not, it was taken to the bedroom.

It didn't even know who the groom was, and hadn't even seen him.

"What's there to cry about, acting like a woman."

"And you call yourself an ancient treasure."

"Since the deed is done, just accept it."

"With the master's abilities, he won't disgrace you."

At this moment, the Demon-Vibrating Bell chuckled, looking down at the Exquisite Tower with the demeanor of a senior.

It felt rather comfortable inside.

Finally, other ancient treasures besides itself suffered.

It felt like drinking soda on a sweltering summer's day.

"Exactly, exactly."

"Acting like someone bullied you."

"Being controlled by the master, that's your fortune, don't you see? You've hit the jackpot."

The Ten Thousand Transformations Pill Furnace looked disdainfully at the ancient treasure Exquisite Tower.

"What? Apart from me, you actually refined other ancient treasures?"

The Exquisite Tower was stunned.

It never expected, besides itself, the despicable Foundation Establishment cultivator had refined two other ancient treasures.

And they seemed equally powerful.

This Foundation Establishment cultivator, by what virtue or ability, could actually refine three ancient treasures?

Honestly, it felt like a common village boy marrying three beautiful wives.

One would be a lucky strike already, but three all at once, is there justice?!

"Enough, all of you shut up."

Hearing these words, Jiang Fan felt a headache; these three ancient treasures gathered together would likely lead to a lot of future arguments.

He focused his thoughts and activated the Primordial Spiritual Power within, instantly putting them to sleep.

Now, he finally had time to carefully research this ancient treasure.

"Indeed, this is a Spatial Treasure."

"Within it, it contains seven layers of space."

Jiang Fan's eyes immediately lit up, carefully sensing the powers within the Exquisite Tower.

This ancient treasure was indeed extraordinary, possessing mighty Power of Space.

Moreover, its internal space was not like a Storage Bag that couldn't store living things, but more like a Secret Realm World capable of storing numerous living beings.

It could also plant a large number of plants, like Spirit Rice and Spirit Medicine.

Additionally, it could allow a cultivator to enter temporarily to hide.

In some ways, it's practically a portable cavern abode.

No doubt, this was an immense gain for him.

The value of this ancient treasure was simply immeasurable.

After all, in the entire Cultivation Realm, there aren't many such Spatial Treasures.

But now, he has found one, and refined it effortlessly.

Even though refining it cost him forty thousand Luck Points, it's still worth it.

For such an astonishing Spatial Treasure, spending lots of Luck Points is completely justified.

"There are a total of seven layers of Spatial World."

"But for now, given my cultivation level, only the First Layer Spatial World can be opened."

"However, that's already more than enough."

Jiang Fan clenched his fist, feeling quite satisfied.

Swoosh!

With that thought, he moved his mind, and an invisible Void Power enveloped his body, then he entered the inner world of the Exquisite Tower.

He looked around and found himself in a white space.

The ground was black soil.

But there weren't any plants growing.

The area wasn't very large, with a diameter just around twenty kilometers.

But for him, it was entirely sufficient.

Moreover, it was filled with rich Spiritual Qi, comparable to a Tier Two Spirit Vein.

If danger arises, he can completely hide in this inner space of the Exquisite Tower.

He could even manipulate this treasure to hide deep underground.

This way, the enemy might not even find him, allowing a calm escape.

"This Spatial World can indeed be crafted into a safe haven."

Jiang Fan felt quite satisfied.

Clearly, the powers of this ancient treasure Exquisite Tower are quite extraordinary.

It's not only a common Spatial Treasure but also a Sealing Tower to some extent.

It can seal numerous Demon Beasts and Demons within its interior.

Indeed, it can be a safe haven as well.

It possesses strong defense capabilities, even protecting the safety of souls.

More importantly, as his cultivation level increases, he can unlock the Second Layer, Third Layer, and even the Fourth Layer Spatial World; the higher the cultivation, the more layers he can unlock.

For now, the First Layer Spatial World is just a common internal space.

However, that's already completely sufficient.

Such a vast internal space is better than any Storage Bag.

Later, all treasures he acquires can be placed in the internal space of the Exquisite Tower.

Swoosh!

At this moment, Jiang Fan's figure flickered and exited the inner world of the Exquisite Tower.

Then he stored the Exquisite Tower into his body.

He felt utterly comfortable inside.

Entering the Yiling Secret Realm indeed brought tremendous gains. He just got here and already acquired an ancient treasure.

If he stayed obediently on Fire Copper Island, how could he gain such benefits?

Sometimes, to gain opportunities, one must take risks.

Many opportunities and treasures don't just fall from the sky.

Boom~~~

At this moment, Jiang Fan sensed the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi vibrating again.

A message instantly entered the depths of his Consciousness Sea.

"Demon uprising, sweeping the Secret Realm, stand your ground, fortune is yours."

"Stay put, await the moment, great luck."

"Head one hundred thirty li northwest to hunt demons for an opportunity, but it comes with danger, small misfortune."

"Head three hundred li southeast to a valley for great opportunity, but risking entrapment, fate uncertain, great misfortune."

What?!

Upon sensing this message, Jiang Fan's eyes gleamed with a hint of brilliance.

He hadn't expected the Fortune-Telling Talisman to activate again.

Clearly, now is a critical juncture of destiny, each choice is exceptionally important.

Choosing wrongly could bring severe calamities and potential death.

So he must remain extremely cautious, ensuring he doesn't fall into peril.
