

Fortune 350

Chapter 350: Destroy the Shennong Sect's Foundation Establishment, Opportunities Arise_2

"It seems like we're in luck."

"If we can redirect the trouble elsewhere, perhaps we can have that Foundation Establishment Cultivator help us fend off this horde of demons."

The red-robed cultivator's eyes flashed with a cold glint.

The saying goes: 'If one does not think for oneself, heaven will condemn them and earth will destroy them.'

In order to survive, he could not afford to care that much.

It's a good opportunity to divert a large number of demons over there, letting the other party help him overcome the calamity.

The other party was hiding here, probably trying to avoid this demonic disaster.

Unfortunately, the other party's luck was bad and encountered them, the brothers.

This is just unfortunate for the other party.

"Friend."

"I know you're hiding nearby, could you lend a helping hand?"

"We are all Inner Sect Disciples of Shennong Sect."

"If you drop the array and allow us to hide, we will repay you greatly in the future."

The black-robed Foundation Establishment Cultivator called out to the large mountain.

He knew the mysterious Foundation Establishment Cultivator must be hiding within that large mountain.

He also revealed his own identity, claiming to be a disciple of a Renowned and Righteous Sect.

If the other party was sensible, they should know what choice to make.

"Inner Sect Disciples of Shennong Sect?"

"Why would they appear in this sea region?"

"Right, it's not only loose cultivators who enter the Yiling Secret Realm."

"Even disciples from other sects can enter."

"No wonder there are so many cultivators gathered here."

Upon hearing this, Jiang Fan was taken aback.

He didn't expect to meet disciples of Shennong Sect in this sea region.

To be honest, currently, Shennong Sect and Profound Celestial Sword Sect are at war, fighting fiercely.

According to logic, Shennong Sect disciples should stay on land.

However, they are Nascent Soul Sect, with numerous disciples.

Not everyone is involved in the war.

There will inevitably be a few disciples traveling outside.

Perhaps these two Foundation Establishment Cultivators are such individuals.

And not just loose cultivators, any sect cultivators could come to this sea region.

More importantly, the Yiling Secret Realm emerged for such a long time.

Those sect disciples surely know about the existence of the Yiling Secret Realm and the opportunities within.

So when this Secret Realm emerges, those sect disciples definitely won't miss it.

"Though the Profound Light Concealment Array was unexpectedly seen through."

Jiang Fan was quite speechless.

He didn't expect his Tier Two Profound Gate Concealment Array to be seen through so effortlessly, what a useless Tier Two array, it practically has no utility.

However, he also knew that the concealing ability of this Tier Two array was indeed quite good.

Otherwise, it couldn't have tricked so many demons.

Allowing him to hide comfortably for several days.

The problem is these two Foundation Establishment Cultivators are disciples of Nascent Soul Sect, not telling how many trump cards they possess.

Seeing through a Tier Two array isn't an impossible task.

"But these two aren't good people."

"They clearly intend to kill and rob."

Jiang Fan's eyes flashed with a cold glint.

He cast his Innate Divine Techniques—Emperor’s Gaze, immediately seeing black and blood qi emanating from these two.

Clearly, these two harbor malicious intent.

Even if he truly helps them, he’d likely be murdered for treasure by them.

It’s like the farmer saving the snake.

He wouldn’t commit such a mistake.

Therefore, he ignored these two, hoping they’d take a hint and retreat.

"What? That guy isn’t responding at all?"

At this moment, the black-robed Foundation Establishment Cultivator’s expression turned quite unsightly.

He initially thought that by calling out, the other party would give him some measure of respect.

At least show some respect for Shennong Sect.

He didn't expect to be completely ignored, simply outrageous.

This filled him with immense anger.

"This is absurd, not appreciating a kind gesture."

"Since that's the case, there's no need to be courteous to this opponent."

"Take action, break this Tier Two array."

The red-robed Foundation Establishment Cultivator's eyes flashed with a cold glint, killing intent spreading from his body.

He saw more and more demons pursuing.

If they didn't act now, it might be too late.

The two exchanged a glance, immediately activating the Spiritual Artifacts on their bodies, intending to target the distant array.

"Indeed."

"You are seeking death."

In an instant, Jiang Fan sensed these two Shennong Sect Foundation Establishment Cultivators' every move, murderous aura spread over his body. Originally, if they didn't act, he wouldn't have bothered paying attention to them.

But these two Shennong Sect Foundation Establishment Cultivators were truly pieces of work.

In that case, he wouldn't need to be courteous anymore.

Cyan Lotus Earth Fire Talisman!

Immediately, Jiang Fan activated his Life Talisman—Cyan Lotus Earth Fire Talisman.

Having reached Mastery Level, the power of the Cyan Lotus Earth Fire Talisman compared to before is far stronger.

With a wave of his hand, two Cyan Lotus Earth Fires appeared in his palm, resembling cyan lotus flowers, with countless cyan runes emerging, burning with terrifying heat.

Whoosh, whoosh, whoosh!!!

The next second, these two Cyan Lotus Earth Fires transformed into cyan flame bullets, locking onto the auras on the bodies of the two Shennong Sect Foundation Establishment Cultivators, shooting out at an astonishing speed.

What?!

The two Shennong Sect Foundation Establishment Cultivators were still planning to make a move, but right at that moment, they sensed a deadly killing intent, their hair stood on end, bodies trembling all over.

They soon saw two cyan fireballs shooting towards them.

"Damn it, this bastard actually dares to attack us?!"

"Simply courting death, let's show this brat what our Shennong Sect is capable of."

"This is bad, this is not ordinary flame, but Heaven and Earth Anomalous Fire, our magic robes can't withstand it."
