Chapter 352: Obtaining the Profound Water Pill, Advancing to Sixth-Layer Foundation Establishment

Clang~~ Clang~~ Clang~~

At this moment, waves of bell sounds erupted from the Demon-Vibrating Bell.

It was as if the morning bell and evening drum washed the soul.

An invisible power of sound waves burst forth from the Demon-Vibrating Bell.

The surrounding air seemed to transform into ripples.

The power of the sound waves condensed into something tangible, like a shock wave.

Without a doubt, this power surpassed the destructive force that any of Jiang Fan's Life Talismans could unleash.

But there was nothing he could do about it.

After all, the level of the Demon-Vibrating Bell was truly too high.

Even in its currently damaged state, its might could not be matched by a Foundation Establishment Cultivator.

If it weren't for the special energy of the Luck Points, he wouldn't have been able to completely refine this Ancient Treasure.

Rumble~~~

In an instant, this power of sound waves swept in all directions, covering an area with a ten-kilometer radius.

Any demon within this area was immediately struck by the sound waves.

Facing this demon-slaying sound, these demons had no ability to resist at all.

The bodies of the demons shattered instantly, as if they were watermelons, splitting into pieces.

Hundreds and thousands of demons were completely obliterated, turning into countless fragments.

Even the Demonic Qi on them was wiped out.

It was as if the Demonic Qi in this area was eradicated, sweeping across the Nine Heavens and Ten Lands.

With just one strike, all the demons in this region were shaken to death, and not a single demon survived.

The ground also showed cracks, resembling a spider web.

This clearly demonstrated the extraordinary power of the Demon-Vibrating Bell.

"A bunch of pests dare to act wildly in front of me, it's simply courting death."

The Demon-Vibrating Bell felt a sense of exhilaration, as if a weight had been lifted.

"Not bad."

Jiang Fan felt that deep within his Elixir Field and Sea of Qi, a significant amount of Primordial Spiritual Power had been consumed. Clearly, activating the Demon-Vibrating Bell once required no small amount of Primordial Spiritual Power, but it was all worth it.

If he relied on himself, he wouldn't know how long it would take to wipe out this group of demons.

But with the power of the Demon-Vibrating Bell, he could exterminate them instantly.

Boom~~

At this moment, a message instantly entered the depths of his consciousness: "You encountered an attack by two Foundation Establishment Cultivators from the Shennong Sect and a large number of demons. After a bloody battle, you killed them all and survived a life-and-death ordeal, earning thirty thousand Luck Points and a Seventh-Grade Opportunity."

Seventh-Grade Opportunity?!

Upon sensing this information, Jiang Fan felt very satisfied. As expected, staying in place and waiting for the right moment naturally led to opportunities, and now two Foundation Establishment cultivators from the Shennong Sect delivered an opportunity to him.

If he had not been hiding here cultivating, how could he have encountered them?

Moreover, the Seventh-Grade Opportunity was evidently on these two's Storage Bags.

Besides that, he also obtained thirty thousand Luck Points, which was quite a haul.

After all, he had previously spent as much as forty thousand Luck Points to refine the Exquisite Tower.

Now, he had made up for a significant part of the loss.

For him, the more Luck Points the better.

Whoosh, whoosh, whoosh!!!

Thinking of this, Jiang Fan waved his hand and immediately retrieved the Storage Bags of the two Foundation Establishment Cultivators from the Shennong Sect.

With a gentle sweep of his Spiritual Sense, the treasures inside the Storage Bags surfaced in his consciousness sea.

"Wait, isn't this a Tier Two Elixir, the Profound Water Pill? There are actually four bottles of them."

"As expected from Foundation Establishment Cultivators of the Shennong Sect, they indeed have many elixirs on them."

Jiang Fan's eyes lit up, feeling very excited.

Previously, he had slain many Foundation Establishment Cultivators, but he never found many elixirs.

But now, he actually found four bottles of Tier Two Elixirs.

If these elixirs were sold, who knows how many Spirit Stones they would be worth.

It can only be said that these two truly were Inner Sect disciples of the Shennong Sect, much richer than other Foundation Establishment Cultivators.

The so-called Profound Water Pills are refined from Spirit Medicines like the Profound Ice Flower and Water Spirit Fruit.

Each Profound Water Pill contains enormous medicinal power.

At the same time, the medicinal power is very gentle.

It's said to be a Tier Two Elixir unique to the Shennong Sect.

Aside from purchasing from the Shennong Sect, they're basically unavailable elsewhere.

It's a Tier Two Elixir highly welcomed by Foundation Establishment Cultivators.

After all, the medicinal power of the Profound Water Pill is gentle, making it very suitable for gradual absorption by Foundation Establishment Cultivators.

Unlike the Fire Yang Pill, whose violent medicinal power can easily damage the meridians.

"With these elixirs, advancing to the sixth layer of Foundation Establishment is just a matter of time."

Jiang Fan felt very satisfied.

Indeed, this Seventh-Grade Opportunity proved endlessly beneficial to him.

With these Tier Two Elixirs, his Cultivation could definitely be swiftly elevated to the Foundation Establishment Fifth-Layer Perfection.

By then, advancing to the sixth layer of Foundation Establishment would be a piece of cake.

Of course, apart from these Profound Water Pills, he also discovered a large number of Spirit Stones in the Storage Bags.

Altogether they totaled around two hundred thousand Spirit Stones.

But besides these, there weren't many other treasures.

Nevertheless, for him, acquiring these four bottles of Profound Water Pills was already more than sufficient.

Boom~~

At this moment, with a thought, Jiang Fan once again activated the Profound Light Concealment Array, concealing this place.

The surroundings became shrouded by the Profound Light Barrier.

Unless a Foundation Establishment Cultivator proficient in Pupil Technique came, they shouldn't be able to discover him.

...

At this moment, in the deepest part of the Yiling Secret Realm,

Two mysterious beings were also constantly observing Jiang Fan.

"The Ancient Demon-Vibrating Bell? This legendary treasure from the Ancient Era has actually fallen into the hands of this Primordial Talisman Sect disciple? Just how abundant is this guy's Destiny?"
