Chapter 354: Ten Thousand Swords Return to the Sect Talisman

"Oh, this talisman is nice."

"Let's inscribe the Ten Thousand Swords Return to the Sect Talisman."

Jiang Fan carefully studied the life talismans he could inscribe and quickly found one that suited him, which was the Gold Talisman—Ten Thousand Swords Return to the Sect Talisman.

This talisman can gather metal qi between heaven and earth, forming numerous flying swords.

If it reaches the perfection level, it can gather tens of thousands of spiritual flying swords to simultaneously attack the enemy.

Its power is comparable to any sword cultivator, and perhaps even surpassing it.

In a way, it can be considered an advanced version of the Golden Light Talisman.

Although he currently does not lack attack methods, who would mind having fewer trump cards?

Having one more life talisman means gaining one more trump card.

Boom~~

With that thought, Jiang Fan did not hesitate and immediately consumed a full ten thousand Luck Points.

He instantly entered a state of enlightenment.

Deep in the elixir field and sea of qi, the Primordial Talisman was continuously spinning.

One by one, talisman inscriptions appeared on the surface of the sphere.

No one knows how much time had passed, but when the last talisman inscription was successfully engraved, a new life talisman instantly integrated into the Primordial Talisman.

Ten Thousand Swords Return to the Sect Talisman!

Clearly, this extremely complex life talisman was finally successfully inscribed by him.

Rumble~~

In an instant, the Ten Thousand Swords Return to the Sect Talisman vibrated, emitting golden light and absorbing the gold spiritual power between heaven and earth.

Centered on his body, it quickly gathered golden flying swords.

Each golden flying sword was condensed from spiritual power, pervading with terrifying sharpness.

Even at the entry level of the Ten Thousand Swords Return to the Sect Talisman, he could simultaneously gather ten spiritual flying swords.

If he improves his skill level to the proficient level, he could gather hundreds of flying swords at once.

Of course, it would take a long time to cultivate successfully.

Undoubtedly, within the Primordial Talisman Sect, not just any disciple could casually succeed in cultivating the Ten Thousand Swords Return to the Sect Talisman. The vast majority of disciples, even aware of its existence, could not inscribe it successfully.

Because this talisman is really too complex.

A slight misstep could lead to failure in inscribing the talisman, possibly severely damaging the Primordial Talisman.

If Jiang Fan had not used the power of Luck Points, he would not dare choose this complex talisman as his new life talisman, but now everything seems worth it.

Thump thump thump!!!

Suddenly, with a thought, Jiang Fan made the golden flying swords hovering around shoot out instantly, bombarding the stone walls around the cave, easily piercing through the rock.

Immediately, ten holes appeared in the surrounding stone walls.

This illustrates the power of the Ten Thousand Swords Return to the Sect Talisman, whose condensed flying swords are in no way inferior to the sword qi of sword cultivators.

Boom~~

At this moment, Jiang Fan's heart moved, and he immediately opened the virtual panel on his body.

[Name: Jiang Fan]

(Mastery), Profound Turtle Talisman (Entry Level), Ice Talisman (Mastery), Ten Thousand Swords Return to the Sect Talisman (Entry Level)]

[Realm: Sixth-Layer Foundation Establishment (1%)]

[Profession: Tier Two Middle-Grade Talisman Master (60%)]

Clearly, his current total Luck Points have reached ninety thousand.

Before entering the Yiling Secret Realm, Jiang Fan had ninety thousand Luck Points.

But after experiencing two major tribulations, he gained quite a few Luck Points.

However, due to refining the Exquisite Tower and inscribing life talismans, he also consumed a large number of Luck Points.

Thus, overall, the consumption and gain balance out, leaving the Luck Points no different from before.

Of course, his wealth increased, reaching 1.4 million spirit stones.

So for him, maintaining the Profound Light Concealment Array is not an issue at all.

With so many spirit stones, it's enough to sustain this Tier Two Array for a long time.

...

In the blink of an eye, another month had passed.

Jiang Fan stayed here cultivating, consolidating his sixth-layer Foundation Establishment realm.

At the same time, he continued to improve the skill level of the Ten Thousand Swords Return to the Sect Talisman.

By consuming a large number of Luck Points, he increased the talisman's skill level to proficient.

Enabling him to simultaneously gather a hundred spiritual flying swords.

Such power is extremely strong.

If ordinary cultivators wanted to besiege him, just this talisman alone would be enough to make them suffer.

"If I want to continue improving the Ten Thousand Swords Return to the Sect Talisman, it might not be doable in the short term."

Jiang Fan's eyes flickered.

After all, to reach mastery level, hundreds of spiritual flying swords need to be gathered.

Such a large number of spiritual flying swords require an immense amount of spiritual power.

Ordinary Foundation Establishment cultivators cannot possess such a vast amount of spiritual power.

Even though his own spiritual power is several times that of cultivators at the same stage.

Reaching this level is still extremely difficult.

This means that unless his cultivation is further enhanced, greatly increasing primordial spiritual power.

Otherwise, he cannot increase the skill level of the Ten Thousand Swords Return to the Sect Talisman.
