

Fortune 366

Chapter 366: Perfection Level Celestial Thunder Talisman, Ominous Sign Emerges

Red Whale Island.

Jiang Fan came to this Tier Three island once again.

Compared to last time, it was obviously not as bustling and lively.

Even some of the Honored Guest Elders had noticeably decreased.

At the same time, the disciples of Red Whale Daoist had suffered casualties from the Yiling Secret Realm, more than half were gone.

Thus, there was a sense of desolation.

However, when Jiang Fan met Cao Rui again, he found that the other party wasn't in the least bit dejected, but rather seemed somewhat spirited, as if full of hope.

"Fellow Daoist Jiang, I didn't expect you to still stay with us on Red Whale Island despite knowing our situation; you truly have a loyal and brave heart," Cao Rui said with much emotion.

Ever since those Honored Guest Elders learned that Red Whale Daoist had obtained a Nascent Soul Spiritual Object and would soon be besieged by many Golden Core Influences, they were all scared off.

Some Honored Guest Elders even betrayed Red Whale Island and became spies for other influences.

Loyal Foundational Establishment Cultivators like Jiang Fan were indeed one of a kind.

Undoubtedly, compared to other Honored Guest Elders, it was enough to prove Jiang Fan's noble spirit.

Even if he wasn't Red Whale Island's closest ally, at least he was a trustworthy person.

"I don't deserve such praise."

"I am merely fulfilling my duty."

Jiang Fan said modestly.

In fact, if it weren't for the hint from the Fortune-Telling Talisman, he would have fled long ago, not staying here.

But that didn't stop him from appearing dutiful.

After all, who doesn't appreciate loyal people in this world?

"Regardless, Fellow Daoist Jiang has chosen to stand with us on Red Whale Island in such a critical moment, proving you are indeed trustworthy."

"This time, Lord Island Master and others temporarily left only to seek a breakthrough opportunity to the Nascent Soul."

"Once the breakthrough to Nascent Soul is achieved, our Red Whale Island will become the only Nascent Soul Influence in this sea region."

"By then, each of us Foundation Establishment Cultivators will have the merit of 'following the dragon' and will surely receive great benefits."

Cao Rui said with enthusiasm, drawing a grand picture for Jiang Fan.

The reason he invited Jiang Fan over was to give him some reassurance.

After the departure of Red Whale Daoist, managing the islands in this sea region required the help of Foundation Establishment Cultivators.

Even if other Golden Core Influences did not intend to attack Red Whale Island,

maintaining security in this sea region alone was not easy.

Therefore, every Foundation Establishment Cultivator was crucial for Red Whale Island now.

Especially since so many disciples had died on this journey to the Yiling Secret Realm.

This made Red Whale Island even more short-handed.

"Understood."

Jiang Fan nodded.

He didn't mind the grand promises; for now, he just wanted a stable place to cultivate.

Crash~~

At this moment, a message instantly entered the depths of his sea of consciousness: "By staying with the Red Whale Island influence and not leaving, you have remained unchanged amid changes, avoiding a mortal disaster and gaining twenty thousand Luck Points."

What?!

Upon sensing this message, Jiang Fan felt a burst of joy. Although he didn't gain any fortuitous encounters this time, earning twenty thousand Luck Points was already a pretty good harvest.

Such a large amount of Luck Points would undoubtedly rapidly enhance his Life Talisman's skill level.

And greatly boost his strength.

...

In the blink of an eye, another three months passed.

During this time, the Red Whale Island sea region was always calm, with no issues arising.

Obviously, without the Nascent Soul Spiritual Object, other Golden Core influences had no interest in this territory anymore.

After all, the Yiling Island Group was too vast, and though the Red Whale Island sea region was decent, it wasn't so desirable that any Golden Core Zhenren dared to risk offending a future Nascent Soul Cultivator's influence.

No matter what, anyone who could cultivate to the Golden Core Realm surely possessed intelligence and depth.

They wouldn't act rashly but would weigh pros and cons.

Jiang Fan was also peacefully cultivating on Fire Copper Island.

During this time, he consumed a large number of Luck Points.

"The Perception Talisman has finally reached Perfection Level."

At this moment, Jiang Fan sat cross-legged on the ground, activating the Life Talisman Perception Talisman on his body.

An invisible fluctuation of Spiritual Sense enveloped every direction, covering the whole of Fire Copper Island.

Compared to before, the range it could cover had become even broader.

The Great Success Level Perception Talisman could only expand seven times.

But the Perfection Level Perception Talisman could extend the Spiritual Sense ten times as much.

This meant that his perception range was more than ten times that of a cultivator of the same Foundation Establishment rank.

No, his Soul Power was inherently stronger than his peers at the Foundation Establishment level.

With this combination, the range he could perceive became even more formidable.

More importantly, the power of Spiritual Sense became more concealed, capable of penetrating various places.

It was equivalent to the spirit sense of a Golden Core.

In other words, cultivators of the same Foundation Establishment rank were nearly unable to detect the power of his Spiritual Sense.

It was like a higher-dimensional Spiritual Sense.

"Such a powerful perception ability can only be comparable to a Golden Core Zhenren."

Jiang Fan clenched his fists.

He felt that his perception range was comparable to a cultivator newly entering the Golden Core, much stronger than Foundation Establishment Cultivators.

They were basically not in the same league.

With such a formidable perception power, other cultivators wanting to ambush him were virtually impossible.

Crash~~

Thinking of this, he was stirred and opened the Virtual Panel.
