### Chapter 368: Perfection Level Celestial Thunder Talisman, Ominous Sign Appears\_3

Although obtaining elixirs and spirit medicines through chance opportunities is indeed a good choice, these chances are rare in normal circumstances. Most of the time, things are quite ordinary, without any opportunities.

If you want to acquire elixirs through prestigious means, you still have to go to auctions or shops.

This is the long-term plan.

However, for Jiang Fan now, this doesn't really matter.

After all, he is very wealthy, at least having over a million spirit stones.

Such wealth is akin to that of a newly ascended Golden Core cultivator.

Ordinary Foundation Establishment cultivators simply can't compare with him.

Thinking of this, Jiang Fan immediately took action to auction off the Cyan Flame Pill.

He successfully auctioned five bottles of Cyan Flame Pill, costing fifteen thousand spirit stones.

At the same time, he auctioned some Tier Two spirit medicines, costing ten thousand spirit stones.

He even auctioned a Tier Two low-grade magic robe, costing five thousand spirit stones.

Although Jiang Fan doesn't need a magic robe for protection, Su Weiwei does.

Judging by Su Weiwei's cultivation progress, it's only a matter of time before she advances to Foundation Establishment.

So the Tier Two magic robe will soon be useful.

It's safe to say that this trip cost him at least twenty to thirty thousand spirit stones.

But this doesn't really matter; it's just a small fraction of his wealth.

Also, spirit stones are no more than ordinary stones if not utilized.

It's better to quickly convert spirit stones into personal cultivation.

"What a pity, I can't continue buying."

"Otherwise, I would definitely attract attention."

Naturally, Jiang Fan saw many tempting treasures at the auction, but he restrained himself.

After all, he is currently weak, and can't compare with those Foundation Establishments with strong backgrounds.

If he exposes too much wealth, he would surely be targeted.

Though Fish Dragon Island has a good reputation, there's seldom any killing for treasure;

but that's only because the benefits aren't large enough.

If big enough, Fish Dragon Island could do anything.

So he still needs to be cautious and careful.

Boom~~

Just at that moment, the Fortune-Telling Talisman deep in Jiang Fan's elixir field and sea of qi began to tremble, buzzing, and an influx of information suddenly lodged into the depths of his sea of consciousness.

"Tribulation Cultivator appears, clouds surge in all directions, choose actions timely, fortune and disaster depend on oneself."

"Leaving tomorrow at noon may lead to disaster, great misfortune."

"Leaving in the evening and flying southeast is great fortune."

"Leaving in ten days, nothing gained, nothing lost, neutral."

What?!

Upon perceiving this information, Jiang Fan's eyes flashed with brilliance; he hadn't expected to activate the Fortune-Telling Talisman at this time, indicating that a calamity was undoubtedly approaching.

If he's not careful, he could fall into a life-and-death tribulation.

"Tribulation Cultivator appears?"

"Does it mean a Tribulation Cultivator targeted the cultivators on Fish Dragon Island?"

"But it's not specifically targeting me, rather everyone coming to Fish Dragon Island."

"So if the timing is wrong, one might fall into a dire, life-threatening situation."

Jiang Fan's eyes flickered.

From this information, he could glean many future changes.

To be honest, the appearance of a Tribulation Cultivator is not surprising.

This is a common phenomenon within the Yiling Island Group.

But the omen of great misfortune was enough to prove the complexity of the situation.

Given his current strength, ordinary Foundation Establishments are not his match.

Yet even so, it's still extremely dangerous.

This implies the Tribulation Cultivator might actually be a Golden Core Zhenren.
