

Fortune 377

Chapter 377: Su Weiwei Advances to Foundation Establishment, A Major Catastrophe Approaches

The news that Su Weiwei is about to ascend to Foundation Establishment soon spread rapidly throughout the mansion.

The many maids and guards staying at the mansion were the first to know about this.

"No way, Lady Jiang is about to ascend to Foundation Establishment? Isn't this too fast?"

"Isn't this a normal thing? The Lady is already a Ninth-Layer Qi Cultivation cultivator; now ascending to Foundation Establishment is only natural, nothing unusual."

"It's likely Lord Jiang has long found a Foundation Establishment Pill for the Lady, so she dared to go into seclusion to break through."

"Ah, having a Foundation Establishment cultivator backing you is nice; the path of cultivation is far better compared to other cultivators."

"Indeed, but this also requires one's own aptitude to be good; otherwise, even with a Foundation Establishment cultivator backing you, you might not succeed in Foundation Establishment. If every cultivator could succeed, then those Foundation Establishment clans would never see their lineage end. But in fact, even Foundation Establishment clans dare not guarantee they will have Foundation Establishment in every generation."

"Yes, it can only be said that Lord Jiang and the Lady are truly a perfect match, heaven-sent pairing. Now both are Foundation Establishment; it's simply too exaggerated. These two could probably establish a huge Foundation Establishment clan."

"Perhaps in the future, an ancient Foundation Establishment clan will emerge in our sea domain."

The many maids and guards discussed animatedly.

They were full of admiration.

After all, in this sea domain, having both a husband and wife being Foundation Establishment cultivators is extremely rare.

When it happens, it's a powerful union, a formidable force.

Because in this sea domain, Foundation Establishment cultivators are already considered high-tier cultivators, their status akin to lords.

As for Golden Core cultivators, they are already like kings.

...

Another day passed.

The celestial phenomena surrounding the mansion finally ended.

Su Weiwei, having ascended to Foundation Establishment, emerged from the cave dwelling, her face filled with joy.

She hadn't expected her Foundation Establishment to go so smoothly.

Although she didn't reach Foundation Establishment of Dao Understanding, her established foundation was quite perfect.

She basically experienced no ups and downs, just naturally succeeded.

Moreover, the Six-winged Poison Bee also ascended to Tier Two.

A terrible mighty aura emanated from its body.

It already possesses a trace of the ancient strange insect's prowess.

Its body was covered with numerous strange patterns.

At the same time, it nurtured a hundred and eight Soldier Bees, a significant increase compared to before.

The mere power of these Six-winged Poison Bees was enough to boost Su Weiwei's combat strength.

This is the power of a Beast Master.

As long as the Spirit Beast tamed is strong enough, the Beast Master's own power will be quite formidable.

And will quickly enhance as the Spirit Beast's power increases.

"Husband."

"I've successfully ascended to Foundation Establishment."

Su Weiwei, seeing Jiang Fan who had been waiting in the cave dwelling, eagerly rushed over.

Her heart was filled with joy, experiencing unprecedented happiness.

Initially, she was worried she couldn't ascend to Foundation Establishment and also feared her husband's cultivation speed was increasing so fast that, according to her cultivation efficiency, she couldn't keep up with her husband.

Ultimately, her husband might abandon her.

Even if he didn't abandon her, if her own cultivation couldn't break through, she would die of old age.

But now, she's ascended to the Foundation Establishment Realm, capable of living for two hundred and fifty years at least.

So at least she can accompany her husband for over two hundred years.

Won't be like mortals, fading away in a mere few decades.

"I knew you could succeed."

Jiang Fan was also very happy.

Although he knew that based on Su Weiwei's aptitude, ascending to Foundation Establishment wouldn't be a problem, plus she had the Perfect Foundation Establishment Pill, even if she failed, she wouldn't be in mortal danger.

But before something concludes, nobody knows what might happen.

The probability of failure still exists.

Luckily, the worst didn't happen, everything went smoothly, with few obstacles.

That night.

The two held a simple celebration feast.

They only invited a few stewards from the island, as the two were relatively low-key.

They didn't want this matter to spread out.

And Jiang Fan and Su Weiwei also enjoyed a wonderful night.

Especially after Su Weiwei ascended to the Foundation Establishment Realm, her body was much stronger.

Could withstand Jiang Fan's whip.

This rapidly increased the skill level of the Yin Yang Mandarin Duck Talisman.

Their bond grew stronger and more intimate.

...

In the blink of an eye, half a year has passed.

Clearly, in this half a year, Fire Copper Island, and the Red Whale Island sea domain were still calm.

Not many events occurred.

And Jiang Fan could peacefully stay on Fire Copper Island cultivating, increasing his cultivation.

More importantly, he spent a large number of Luck Points, enhancing the skill level of his Life Talismans.

The skill level of the Enchantment Talisman and Soul-Shaking Talisman finally reached Perfection Level.

After all, his Soul Talent was originally quite exceptional.

So cultivating these two Life Talismans was even faster.

Boom~~~

Instantly, Jiang Fan appeared in a courtyard, activating the power of the Soul-Shaking Talisman.

A mighty soul power swept across the area, forming ripples.

It was initially just soul power.

But under the Perfection Level Soul-Shaking Talisman's might, it started affecting the physical world.

The numerous porcelain items in the courtyard shattered.

Even the surrounding walls showed cracks.

"The destructive power is just too strong."
