Chapter 378: Su Weiwei Advances to Foundation Establishment, Great Calamity Arrives_2

Jiang Fan was filled with awe.

Though he had long known the extraordinary power of the Perfection Level Soul-Shaking Talisman, witnessing its might firsthand was still incredibly shocking.

It must be known that this pertains to the power of the soul, which normally is hard to affect the material world.

Unless the soul power is strong to a certain extent, it can interfere with reality.

Now is such a case.

The Perfection Level Soul-Shaking Talisman has reached this degree.

If this power were targeted at a Foundation Establishment Cultivator, it could likely annihilate the enemy's body and soul in a single strike.

Even if the opponent carried a soul-defense type spiritual artifact, it might not be able to withstand.

"Now I have another trump card up my sleeve."

Jiang Fan felt very satisfied.

To be honest, he indeed possessed quite a few offensive techniques.

Such as the Cyan Lotus Earth Fire Talisman, Celestial Thunder Talisman, Ice Talisman, etc.

But these attack methods all belong to the energy-type attacks.

Whereas the Soul-Shaking Talisman is different; it belongs to a soul-type attack.

Such an attack is intangible, invisible, silent, and traceless.

Once it is unleashed, the enemy won't even be aware.

Often, without knowing anything, they are instantly killed, reduced to ashes.

It can be said to be a supreme method of surprise attack and assassination.

At a critical moment, if the Soul-Shaking Talisman is used against the enemy, even if it doesn't kill, it would injure the enemy's soul or cause dizziness.

Other Foundation Establishment Cultivators would likely be caught off guard and unable to defend against it.

"But the Perfection Level Bewitching Talisman is not simple either."

"During crucial moments, it can also have a remarkable effect."

Jiang Fan stroked his chin.

To be honest, the power of the Soul-Shaking Talisman is for attack, while the Bewitching Talisman is for assistance.

After all, the cultivation realm is not just about fighting and killing.

Sometimes killing is not the best solution.

For instance, when wanting to obtain crucial information, killing the other party might not be the best choice.

It's best to have them willingly disclose important information.

The Perfection Level Bewitching Talisman has such an effect.

If the Mastery Level Bewitching Talisman can alter the memory of Low-Tier Cultivators, then the Great Success Level Bewitching Talisman can turn Low-Tier Cultivators into puppets, thoroughly confusing their minds.

This is already quite a remarkable method.

However, the Perfection Level Bewitching Talisman can make Low-Tier Cultivators become its death warriors.

Make Low-Tier Cultivators utterly loyal to oneself.

They would not detect any anomaly and would act willingly.

Previously, Jiang Fan had used the power of the Bewitching Talisman to implant the Seed of Enchantment, making every steward and guard on Fire Copper Island his loyal subordinates.

Turning these cultivators into his death warriors.

This made Fire Copper Island as impenetrable as an iron bucket, preventing infiltration by other forces.

"The power of the Bewitching Talisman is indeed terrifying."

"It's already akin to a Demon Dao method."

Jiang Fan's eyes flickered.

Yet he didn't feel there was anything wrong with it; in such perilous cultivation realms, there are hardly any cultivators worth trusting. Employing such methods is merely to protect oneself.

And he didn't do anything harmful to these cultivators.

As long as these cultivators do not intend to do anything detrimental to him, there will not be any issues.

Everything would continue as usual.

"However, this talisman is not invincible; it still has some drawbacks."

"If encountered with a soul power stronger than mine, or a cultivator with extremely firm will, it may render the Bewitching Talisman ineffective or even cause backlash."

Jiang Fan was aware of some weaknesses of the Bewitching Talisman.

But he didn't think anyone within the same realm had a soul power stronger than his.

As long as he dealt with some Low-Tier Cultivators, it was sufficient.

For stronger cultivators, naturally, there were other methods to tackle them.

Boom~~

At this moment, Jiang Fan felt a movement in his heart and immediately opened the Virtual Panel on him.

[Name: Jiang Fan]

[Life Chart: Great Blessings Equal to Heaven, Attribute: Great Calamities bring great fortune]

[Realm: Seventh-Layer Foundation Establishment (40%)]

[Profession: Tier Two Upper-grade Rune Master (10%)]

Undoubtedly, compared to before, both his cultivation and various abilities had significantly improved.

The Life Talisman went without saying.

The biggest advancement was undoubtedly in his Rune Master realm.

He had advanced from a Tier Two Middle-Grade Rune Master to a Tier Two High-grade Rune Master.

This was a significant improvement.

But this also relied on consuming a lot of Luck Points.

Currently, he only had eighty thousand Luck Points left.

But clearly, it was all worth it.

"The Tier Two Elixirs obtained earlier have been almost all used up."

"It seems it's time to purchase other Tier Two Elixirs."

"Otherwise, the speed of cultivation advancement is still rather slow."

Jiang Fan sensed that the Primordial Spiritual Power within him had increased considerably compared to before, thanks to consuming many Cyan Flame Pills, which, after digestion, converted into massive amounts of Primordial Spiritual Power.

It also advanced his cultivation progress to 40%.

For other Seventh-Layer Foundation Establishment cultivators, this was fairly impressive progress.

Ordinarily, Seventh-Layer Foundation Establishment cultivators might not improve so much, even with seven or eight years of hard cultivation.

But he was still not satisfied.

If he could acquire some precious spirit medicines and elixirs, his cultivation efficiency would undoubtedly be higher.

Previously, he worried that the Red Blood Monster and other tribulation cultivators were causing trouble in this sea area, which might pose danger, so he stayed at Fire Copper Island to cultivate.

However, after so long, it seemed the Red Blood Monster and others had vanished without a trace.

This sea area had been stable for quite some time.

He felt it was time to go out and purchase Tier Two Elixirs again.

Otherwise, with so many spirit stones on him, he wouldn't even be able to spend them.

Rumble~~~

At this time, deep within Jiang Fan's Elixir Field and Sea of Qi, the Fortune-Telling Talisman began to vibrate, buzzing, and a message swiftly penetrated into his consciousness sea.

"Impending disaster, misfortune beyond expectation, escape timely, infinite possibilities."

"Promptly flee Fire Copper Island, return to Seven Stars Peak, auspicious."

"Continue cultivating on Fire Copper Island, encounter unexpected disaster, very inauspicious."

"Leave Fire Copper Island, stay on other islands in the Yiling Island Group, unavoidable catastrophe, very inauspicious."

What?!

Upon perceiving this message, Jiang Fan was stunned.

He was initially safe and sound on Fire Copper Island, as though enjoying peaceful days.

Who could have thought an ominous sign would suddenly appear?

He didn't even know what was happening, truly incredible.

After all, no matter how he looked, it didn't seem like a catastrophe was about to occur.

"What does it mean? Why would staying on Fire Copper Island incur disaster, besides being a very ominous sign?"

"Where does the catastrophe come from?"

"According to the message, it seems like misfortune beyond expectation, an impending calamity impacting the fish pool."

"Could this disaster be provoked by Red Whale Island, caused by the Red Whale Daoist?"

"And as a member of Red Whale Island, I'm caught with no escape?!"

"Even leaving Fire Copper Island and moving to other islands cannot avoid this calamity?!"

"Only by leaving this sea area and returning to Seven Stars Peak can I truly avoid it?!"

Jiang Fan's eyes flickered.

He felt the information contained in the Fortune-Telling Talisman's prompt was too much to process.

Evidently, this catastrophe came suddenly.

And without any signs.

If it weren't for the Fortune-Telling Talisman, he probably wouldn't know what was going to happen.

Luckily, there was the Fortune-Telling Talisman to warn him, otherwise, he might truly face disaster.

"Such a huge disaster, it seems Red Whale Daoist must have caused it."

"What exactly did he do?"

Jiang Fan gritted his teeth.

He originally intended to remain here, cultivating calmly until reaching the Golden Core.

But now it seems that is no longer possible; he must quickly evacuate.
