

Fortune 379

Chapter 379: Escaping the Yiling Island Group, Avoiding Disaster

"Disasters always come unexpectedly."

"Is this what they call the capriciousness of fate?"

Jiang Fan was quite emotional.

Previously, he thought he was very safe during this period, with no unexpected events.

Who could have imagined that an even greater disaster was brewing?

If it weren't for the Fortune-Telling Talisman's warning, he would have been completely unaware.

Fortunately, the disaster hasn't happened yet, and it's not too late to notice it.

At least there's still time to avoid the calamity.

"But the Fortune-Telling Talisman recommends me to return to Seven Stars Peak. Could it be that the Profound Celestial Sword Sect's territory is already safe?"

Jiang Fan couldn't help but think of this point.

The reason he left Seven Stars Peak before was that the Profound Celestial Sword Sect was forcibly conscripting loose cultivators, forcing them into service. To avoid being cannon fodder, he chose to leave.

In fact, leaving was quite the right decision.

If he hadn't come to the Yiling Island Group, where could he have obtained so many opportunities, and how could he have advanced to the Seventh Layer of Foundation Establishment so quickly?

If he had stayed at Seven Stars Peak, his cultivation speed probably wouldn't have been as fast.

But he had been away from Seven Stars Peak for some time, at least a few years.

Thinking carefully, it might be that the war between the Profound Celestial Sword Sect and the Shennong Sect had already ended.

Even if it hadn't ended, it probably wouldn't pose much danger either.

Given this consideration, returning to Seven Stars Peak to avoid calamity is indeed a wise choice.

Although he had no idea what kind of great calamity was approaching, a wise man avoids standing under a dangerous wall, and he had no reason to be buried alongside the Red Whale Daoist.

Thinking of this, Jiang Fan immediately returned to his residence.

Then he saw Su Weiwei inside the residence.

After advancing to the Foundation Establishment Realm, Su Weiwei became more charming and alluring, her figure graceful.

Her every move, every glance, and every smile were exceptionally captivating.

This also made Jiang Fan's heart tremble, she was simply an exceptional beauty.

Swish!

In an instant, Jiang Fan stepped forward, immediately taking Su Weiwei into his arms, and said, "Weiwei, pack some things, we're going back to Seven Stars Peak."

What?!

Upon hearing this, Su Weiwei blinked her beautiful eyes, momentarily stunned.

After all, they were doing well on Fire Copper Island, why suddenly leave and return to Seven Stars Peak?

"Husband, could something have happened?"

Su Weiwei couldn't help but ask.

She believed something extraordinary must have occurred, otherwise her husband wouldn't have made such a choice.

The question was what exactly had happened, causing her husband to be in such a hurry to leave.

She was simply puzzled beyond belief.

"I have a bad premonition."

"So let's leave here for now and then talk."

Jiang Fan didn't intend to explain anything, speaking directly.

"Alright, I understand."

Su Weiwei nodded.

She knew that her man's decisions had never been wrong, and she believed it would be the same this time.

As a Foundation Establishment Cultivator, she actually had nothing much to pack.

Basically, everything was in her Storage Bag.

So, in just a moment, she quickly packed her things.

Soon after, Jiang Fan informed the steward Yang He and the others that he and his Dao Companion would be visiting Xuanjian City for a long time, and hoped they would diligently continue guarding Fire Copper Island.

He also left behind a few Communication Talismans.

If anything happened, they could notify him at once.

After making these arrangements, Jiang Fan and Su Weiwei rapidly departed from Fire Copper Island.

Swish!

Under Jiang Fan's lead, the two moved swiftly, faster than when they first came to the Yiling Island Group.

After all, his cultivation had reached the Seventh Layer of the Foundation Establishment Realm.

And Su Weiwei had also advanced to Foundation Establishment.

It shouldn't take much time before the two leave this sea area and return to the mainland.

.....

Another seven or eight days passed.

Jiang Fan and Su Weiwei had once again set foot on the Profound Celestial Sword Sect's territory, flying towards Seven Stars Peak.

But at this moment, something strange happened on the previously calm Red Whale Island.

An unexpected guest arrived at Red Whale Island, controlling all the Foundation Establishment cultivators on the island.

Their cultivation was unfathomable, unexpectedly a Nascent Soul.

And they brought several Golden Core subordinates.

This was a terrifying force.

Enough to destroy all the forces within the Yiling Island Group.

Cao Rui and others knelt on the ground, trembling, with ashen faces.

They had no idea where this group of mysterious cultivators came from.

They were just ordinary Foundation Establishments, how did they offend this Nascent Soul?

"You say you have no idea where Red Whale Daoist and Yu Ruolin have gone?"

"Do you really have no clues at all?"

The mysterious Nascent Soul's eyes flashed with a cold light, exuding a terrifying evil qi, making them shiver uncontrollably.

It seemed that just a wisp of qi could cause these Foundation Establishment cultivators to be annihilated.

There was nothing they could do.

The gap between Foundation Establishment and Nascent Soul was immeasurably vast.

Like the difference between a rabbit and Godzilla, the two were simply not creatures of the same dimension.

"Lord, we really know nothing."

"Ever since obtaining the Nascent Soul Spiritual Object, the Island Master has been missing."

"It's said they left this sea area long ago."

"The Island Master said they wouldn't return unless they became Nascent Soul, so we have no idea of their whereabouts."

Cao Rui trembled as he spoke.

He didn't even know when his master had offended a Nascent Soul.

And now they've been tracked down by them.
