

Fortune 384

Chapter 384: Once Again Seeking Fortune and Avoiding Evil, Continental Ley Line Tremors

Seven Stars Peak, late at night.

Jiang Fan and Su Weiwei bid farewell to other Foundation Establishment cultivators, then returned to their own peak.

Though he had been away for several years, the things within the peak remained unchanged.

However, a multitude of dust had gathered around.

Jiang Fan activated a Cleaning Talisman and soon cleaned the place until it was spotless.

"I never thought after so much wandering, I would still return to Seven Stars Peak."

Su Weiwei said with much emotion.

To be honest, the environment at Seven Stars Peak certainly pales in comparison to Fire Copper Island.

Whether in terms of Spiritual Qi density or living environment, it can't compare to Fire Copper Island.

But currently, the situation at Yiling Island Group is very dangerous, with mysterious Nascent Soul cultivators having taken over that area.

It's uncertain when the crisis will end.

Therefore, they must stay at Seven Stars Peak to cultivate.

And actually, the cultivation environment here isn't too bad, it barely suits them.

"We might need to live here for a while."

"Compared to Fire Copper Island, this place is indeed smaller, and lacks servants."

"But we can manage to live here."

"Let's not talk about that, let's see what treasures we acquired this time."

Jiang Fan hugged Su Weiwei, then took out four Storage Bags from his person.

Without a doubt, these four Storage Bags came from the Foundation Establishment cultivators he just met.

But he didn't have time to open them earlier and carefully examine what treasures are inside.

Boom~~

At this moment, Su Weiwei's mind moved, instantly opening the four Storage Bags.

The treasures inside immediately appeared, a dazzling array indeed.

"This is Nine-Curled Spirit Ginseng?!"

Jiang Fan's eyes lit up suddenly, this belonged to Tier Two Spirit Medicine, powerful in medicinal effect and invaluable.

If completely refined, it will surely greatly increase the Primordial Spiritual Power within him.

By then, his speed of progressing to Eighth-Layer Foundation Establishment will also accelerate.

He didn't expect that there would be such spirit medicine in this Storage Bag.

Its value is on par with any Tier Two Superior Elixir.

Indeed, it's from a Shennong Sect Foundation Establishment cultivator; the treasures they left behind are truly promising.

"Husband, there are also five bottles of Tier Two Lower Grade Elixirs here."

Su Weiwei was positively delighted.

She also found quite a few Tier Two Elixirs stored in the Storage Bag.

It's known that she had just recently advanced to Foundation Establishment; to quickly elevate her cultivation, she still needs to consume Tier Two Elixirs, and she didn't expect to have the chance to acquire them so soon.

Although these Tier Two Lower Grade Elixirs don't have much effect on Jiang Fan anymore, for her they are still significant.

If she can completely digest these Tier Two Elixirs, her cultivation will surely advance rapidly.

"It's indeed a huge harvest."

Jiang Fan nodded, feeling quite satisfied.

It truly deserves to be Seventh-Grade Opportunity; it brought him considerable gain.

Besides these Tier Two Spirit Medicines and Elixirs, the Storage Bags also contained numerous materials and Tier One Spirit Medicines, totaling a value of at least two hundred thousand Spirit Stones.

He had just returned to Seven Stars Peak, yet already gained such rewards; this place is indeed a blessed land.

.....

Clearly, Jiang Fan and Su Weiwei quickly settled down at Seven Stars Peak.

In the blink of an eye, the two spent half a year here.

During this period, the vicinity of Seven Stars Peak remained very safe, with no unrest occurring.

As for matters over at Yiling Island Group, they had little to do with Jiang Fan.

The distance is exceedingly far; it wouldn't possibly affect the Profound Celestial Sword Sect's territory in the short term.

"Finally cultivated the Earth Escape Talisman to Perfection Level."

At this moment, deep underground near Seven Stars Peak, Jiang Fan activated the Earth Escape Talisman, enveloping his entire body in a yellow aura, with complex talisman patterns covering the surface.

The surrounding soil, rocks, and so forth, against this energy, seemed to melt like water, creating no resistance whatsoever.

He transformed into a fish flying deep within the earth, able to swim freely.

Simultaneously, his escape speed was not at all inferior to that of the Light Body Talisman.

Even the consumption of Spiritual Qi was greatly reduced compared to before.

No longer did he need to worry about exhausting his Spiritual Qi while escaping.

Undoubtedly, once the Earth Escape Talisman reached Perfection Level, he became like a fish flying within the earth, able to swim freely underground, with soil and rock unable to impede him.

It was as if he was a spirit beast from deep within the earth.

Whoosh!

The next second, Jiang Fan effortlessly emerged from the ground.

He felt very exhilarated.

Because cultivating the Earth Escape Talisman to Perfection Level meant he gained another ace up his sleeve.

Even when facing an unbeatable enemy, he could slip into the earth and escape gracefully.

If the enemy lacked earth escape skills, they would be left helpless and frustrated.

Boom~~

At this moment, Jiang Fan's heart moved, and he opened the virtual panel on himself.
