Chapter 387: Harvesting Heavenly Flower, Spiritual Object to Enhance Spiritual Root Talent_2

And this period of time is not suitable for cultivation, to avoid being consumed by the violent spiritual qi and thus falling into demonhood.

As for this kind of tremor, it will also cause the earth to shake, and even the ground to crack.

It's not much different from an earthquake.

Swish!

In an instant, Jiang Fan immediately noticed that as the airflow surged out, a golden beam of light followed the massive spiritual qi and rushed out from deep within the earth's crevice at an incredible speed.

If not caught in time, this beam of light would certainly fly away into the sky immediately.

At that time, it would be unknown where to find it.

"Is this the fortuitous encounter?"

Instantly, Jiang Fan's intuition keenly sensed that the fortuitous encounter had arrived.

Undoubtedly, the beam of light before him was the fortuitous encounter he had been waiting for.

Without hesitation, he moved swiftly, grabbed with a big hand, and instantly caught the golden speck in his palm.

"What is this?!"

Jiang Fan blinked his eyes, discovering that what he had caught was a golden flower, exuding a fragrance that was captivating, with distinct golden special patterns appearing on it, seemingly filled with dense mysterious runes.

One look and it's clear that this golden flower is very unusual and must be invaluable.

"Master, you hit the jackpot, you hit the jackpot, you've truly hit the jackpot this time."

"This is actually the famous Heavenly Flower."

"Your luck is simply defying the heavens."

"How could you casually arrive at a place and obtain such a special spiritual object?"

The Ten Thousand Transformations Pill Furnace was taken aback upon seeing the golden flower, hardly able to believe its eyes, feeling incredulous.

"Heavenly Flower? What exactly is this?"

Jiang Fan curiously asked.

"This is a unique spirit flower between heaven and earth."

"Its greatest function is to enhance spiritual root talent."

"Countless cultivators wish to obtain the Heavenly Flower to defy destiny."

"Even the past Daoist Wan Hua was like this, wishing to acquire the Heavenly Flower to enhance his own talent."

"But unfortunately, he traveled across the Southern Continent and still couldn't find a Heavenly Flower."

"Such a miraculous spiritual object was so easily obtained by you, Master, it's truly unbelievable."

Ten Thousand Transformations Pill Furnace felt quite emotional.

It didn't even know what to say.

In the past, Daoist Wan Hua, in order to enhance his spiritual root talent, expended countless resources.

But even until his death, he couldn't find the Heavenly Flower.

This became an eternal regret for Daoist Wan Hua.

If he had found the Heavenly Flower back then and improved his spiritual root talent, the outcome might not have been as it was, and he might even have had a chance to become a Divinity Transformation Cultivator.

It's just the workings of destiny.

But the current master, he hardly needs the enhancement of spiritual root talent, as his Earth Spirit Root talent is already quite astonishing, considered a genius in the Cultivation Realm.

Yet, he still obtained the Heavenly Flower, which is simply inconceivable.

It has to be said, the master's luck now is just too heaven-defying.

"Enhance spiritual root talent?"

"Could it be that if I consumed this Heavenly Flower, my spiritual root could be elevated to the Celestial Spirit Root level?"

Upon hearing this, Jiang Fan's eyes brightened, feeling very excited.

Although his Earth Spirit Root talent was already quite good, the Celestial Spirit Root is the most top-grade talent in the Cultivation Realm, and who wouldn't want to possess top-grade cultivation talent?

If he could transform his spiritual root into a Celestial Spirit Root, the efficiency of his cultivation would surely more than double.

More importantly, it means he would face no cultivation bottlenecks up to the Nascent Soul stage.

This is the terror of Celestial Spirit Root talent; it's not merely about fast cultivation speed.

It can be said, as long as one possesses a Celestial Spirit Root and has sufficient cultivation resources, then a Celestial Spirit Root cultivator becoming Nascent Soul is practically guaranteed.

"Well, it's naturally not that simple."

"Master's spiritual root talent is already very powerful."

"A single Heavenly Flower surely cannot achieve that."

"At least three Heavenly Flowers are needed to elevate Master's spiritual root to Celestial Spirit Root level."

"But even so, a single Heavenly Flower is enough to further enhance Master's Earth Spirit Root."

The Ten Thousand Transformations Pill Furnace explained.

Especially for cultivators with low or middle-grade spiritual root talent, a single Heavenly Flower could already advance their spiritual root talent by one level, improving cultivation efficiency by several folds.

This is a fortuitous encounter like defying destiny.

But for Earth Spirit Root cultivators, it falls a bit short.

Nevertheless, it can still greatly enhance Jiang Fan's spiritual root.

If he could obtain two more Heavenly Flowers in the future, then elevating to Celestial Spirit Root would be certain.

Yet, it felt that such heavenly fortune happening once is already quite miraculous.

The likelihood of it happening a second, or even a third time, is very slim.

After all, how could Heavenly Flowers be obtained so easily?

"I see."

Jiang Fan nodded, fully understanding what the Ten Thousand Transformations Pill Furnace had said.

Clearly, the effect of the Heavenly Flower is quite heaven-defying.

It's known that in the Cultivation Realm, spiritual root talent is nearly unchangeable, it's a predestined aspect.

Any spirit medicine or spiritual object that can enhance spiritual root talent is invaluable.

Once word spreads, countless cultivators will go mad for it.

Even Nascent Soul cultivators would come to snatch it.

You wouldn't find such rare spiritual objects like the Heavenly Flower in any auction.

So this fortuitous encounter he obtained is unbelievably great.

"If one could obtain three Heavenly Flowers, then spiritual root talent could transform."

"Making me a Celestial Spirit Root cultivator."

"But I don't know where to get so many Heavenly Flowers."

Jiang Fan pondered and lightly touched his chin.

He felt there was no need to rush.

After all, in due time, things will naturally resolve themselves.

Over time, he would surely find a way to solve this issue.

Perhaps with his destiny, he could naturally obtain more Heavenly Flowers.

Swish, swish, swish!!

Just then, three or four unexpected guests suddenly appeared in the sky.

They tore through the air with great speed.

In almost the blink of an eye, they were right in front of Jiang Fan.

They were flying on swords, emanating intense sword qi, evidently all sword cultivators.

Their cultivation was not bad either.

Two at the seventh layer of Foundation Establishment, and two at the sixth layer.

Now, they noticed Jiang Fan, their faces showing an arrogant expression.

"Oh, there seems to be a loose cultivator here."

A black-robed sword cultivator immediately said.

"The ground here is cracked, seems there are traces of a fortuitous encounter surfacing."

"Could it be this loose cultivator beat us to it and took our encounter?"

Another white-robed sword cultivator's eyes showed a cold glint, looking at Jiang Fan with ill intent.

He thought whether this loose cultivator got the surfaced encounter or not, encounter or spiritual object.

Meeting them meant trouble for sure.

"Kid, the abnormal change just now here."

"Was there any spiritual object surfacing?"

Another red-robed sword cultivator spoke, staring intently at Jiang Fan, asking directly.

"I just arrived here too."

"Didn't see any spiritual object surfacing."

Jiang Fan naturally wouldn't admit it; if the Heavenly Flower was exposed, it would surely stir bigger trouble. As they hadn't seen him capture the Heavenly Flower, he remained composed.

As if he hadn't obtained any treasure at all.

"Ha, still lying here?!"

"Whether or not you've obtained the spiritual object, isn't solely up to your claim."

"Hand over your storage bag immediately."

"Let us search you thoroughly."

"If there really isn't a spiritual object, we'll let you leave."

"Otherwise, you'll suffer the consequences today."

The last green-robed sword cultivator spoke fiercely, holding a flying sword and emanating intense sword qi.

His tone was extremely domineering, intending to make Jiang Fan hand over his storage bag to be thoroughly searched.

In that case, they could prove his innocence.

Of course, if they found any treasure, it would naturally be theirs.

"You're being a bit excessive."

Jiang Fan squinted his eyes, staring at the four sword cultivators.

Undoubtedly, these four unexpected guests were filled with malice.

Such behavior was not much different from tribulation cultivators.

So naturally, he couldn't tolerate it, a trace of killing intent emerged in his heart.

Since they don't recognize a good thing when they see it, then they shouldn't blame him for being rude.
