

## Fortune 392

### Chapter 392: The Great Calamity Arrives, the Profound Celestial Sword Sect Has Been Breached

"Success."

Jiang Fan clenched his fist, feeling immense joy.

Although he knew that breaking through to become an Eighth-Layer Foundation Establishment Cultivator was a certainty, until it was truly achieved, anything unexpected could happen.

But no matter what, he finally broke through.

He felt that the increase in his spiritual sense and spiritual power was at least one-third compared to before.

Now he was one step closer to the Golden Core Realm.

For him, the strength of the Foundation Establishment Realm was far from sufficient.

Only by becoming a Golden Core Zhenren could he barely have a little self-protection strength.

Foundation Establishment Cultivators in the vast Cultivation Realm are just slightly bigger ants.

They are not worth mentioning at all.

"Indeed, with the assistance of elixirs, the cultivation efficiency is fast."

"The medicinal power of the Profound Sun Pill from the Profound Celestial Sword Sect is quite good."

"As expected of a Nascent Soul Sect, their heritage is still quite profound."

Jiang Fan naturally knew that his rapid cultivation efficiency was naturally due to the assistance of various elixirs.

Otherwise, relying on his Earth Spirit Root talent alone, no matter how high the efficiency, it wouldn't be so fast.

In fact, let alone Earth Spirit Root, even a Celestial Spirit Root Cultivator needs resource assistance.

If relying solely on one's own hard work, absorbing and exhaling Heaven and Earth Spiritual Qi, no matter how high the efficiency, it's limited.

Of course, the cultivation speed of a Celestial Spirit Root is so fast, not only because of high efficiency but, more importantly, because there are no bottlenecks.

At least until promoting to Nascent Soul, there are not many bottlenecks.

The path of cultivation is almost unimpeded.

It's simply progressing at a supernatural speed.

Unlike cultivators of other spiritual root talents who, even in the Qi Cultivation Stage, face numerous bottlenecks.

Just to break through bottlenecks, they consume countless resources and time.

So if his spirit root can transform into a Celestial Spirit Root, then promoting to Golden Core would have no obstacles.

"Since I've promoted to the Eighth-Layer Foundation Establishment, it seems I can engrave a new Life Talisman."

Jiang Fan was quite expectant.

For him, having one more Life Talisman means one more ace up his sleeve.

Aces like these are naturally more beneficial the more there are.

No one would dislike having too many means at their disposal.

At the same time, adding one more Life Talisman can continuously solidify his foundation.

Thus continuously accumulating an advantage for promoting to the Golden Core Realm.

"Next, let's engrave the Pure Yang Exorcism Talisman."

Jiang Fan's eyes flickered.

To be honest, initially, he didn't want to engrave such a Life Talisman.

But ever since returning to the Profound Celestial Sword Sect's territory, he felt an increasingly strong sense of crisis.

Because the dangers of this region did not come solely from Tribulation Cultivators.

There might also be threats from Demon Cultivators.

After all, Demon Cultivators have ravaged this land for countless years, and sooner or later he would confront Tribulation Cultivators.

Even though he had mastered methods like the Celestial Thunder Talisman, he felt it was far from enough.

He had to master more methods to deal with Demon Cultivators.

Otherwise, he would have no sense of security.

Thus mastering the Pure Yang Exorcism Talisman was imperative.

Therefore, after promoting to the Eighth-Layer Foundation Establishment, he immediately put this matter on his agenda.

"The principle of the Pure Yang Exorcism Talisman is very simple."

"It is to condense the Pure Yang Power between Heaven and Earth to dispel evil and darkness."

"When any impure energy encounters Pure Yang Power, it will melt away like ice and snow."

"It's like purifying all impure forces."

"So it is also one of the powers that restrain evil cults and Demon Cultivators."

Jiang Fan sat cross-legged on the ground, beginning to comprehend the various mysteries of the Pure Yang Exorcism Talisman.

At the same time, he consumed a large number of Luck Points.

A mysterious energy instantly penetrated his body and his soul.

At this moment, his comprehension improved to an unprecedented level.

He felt as if he had studied the Pure Yang Exorcism Talisman for decades.

He was already incredibly familiar with this talisman, reaching an unprecedented realm.

Rumble~~~

Deep within the Elixir Field and Sea of Qi, the Primordial Talisman began to spin, with each Life Talisman on it glowing with golden light, invoking the power of the heavens, resonating with various spiritual qi.

At that moment, the surface of the Primordial Talisman also revealed lines of talisman engravings formed by condensed spiritual power.

For Jiang Fan, engraving Life Talismans was already a routine matter.

Therefore, he wasn't nervous; instead, he felt unprecedented calmness.

Boom~~

It was unclear how much time had passed, but when the final spiritual power line was engraved, the Pure Yang Exorcism Talisman immediately burst into unprecedented crimson light.

It was like a crimson sun, releasing unprecedented heat.

With Jiang Fan's body as the center, the Pure Yang Power between Heaven and Earth gathered in.

Thus, making his body feel warm, as if enveloped by the sun's power.

Driven by this power, the Pure Yang Power swept in all directions, purifying all impurities.

The surrounding darkness seemed to be easily dispelled by this power.

No darkness could survive this power.

"It's done."

Jiang Fan smiled slightly, and immediately breathed a sigh of relief.

He had consumed thirty thousand Luck Points, but he finally succeeded in engraving the Pure Yang Exorcism Talisman.

Evidently, from now on, he had one more means to deal with evil cults and Demon Cultivators.

This power could even make him extremely sensitive to the aura of Demon Cultivators.

Even if they hid, the demonic qi they leaked would still be sensed by him.

For Demon Cultivators, it was simply impossible to conceal themselves, leaving them nowhere to hide.
