Boom~~

Thinking of this, his heart stirred, and he immediately opened the virtual panel on himself.

Evidently, he currently had as many as 130,000 Luck Points.

Although he spent 30,000 Luck Points this time to inscribe a Pure Yang Exorcism Talisman, he gained 50,000 Luck Points from overcoming a calamity earlier, so instead of decreasing, his luck had actually increased.

For the past six months, Jiang Fan had been increasing the primordial spiritual power within him, without training other life talismans, so the skill level of many of his life talismans had not improved significantly.

For him, cultivation was truly of utmost importance.

The skill level of life talismans could be improved continuously in the future, so there was no need to rush.

Once his cultivation breakthrough occurred, the improvement in the skill level of his life talismans would be a natural progression.

Several more days passed.

Jiang Fan thoroughly consolidated his Eighth-Layer Foundation Establishment cultivation and stepped out of the quiet room.

To celebrate, he spent a night entangled with Su Weiwei, leaving Su Weiwei exhausted and unable to get out of bed.

This made him feel refreshed and extraordinarily happy.

Evidently, the harmonization of yin and yang greatly benefited one's mood.

However, at this moment, an astonishing message reached Seven Stars Peak.

The headquarters of the Profound Celestial Sword Sect was attacked by demon cultivators, suffering heavy losses.

A large number of disciples and elders perished.

Even the Demon Suppression Tower, which held numerous demon cultivators, was breached, and many old demons escaped from inside.

In no time, the cultivators within the territory of the Profound Celestial Sword Sect were in a state of panic, with disaster looming.

The five Foundation Establishment cultivators on Seven Stars Peak immediately gathered to discuss what should be done next.

"Wasn't the Profound Celestial Sword Sect supposed to be impregnable?"

"How could it suddenly be breached by demon cultivators? What exactly happened?"

Yu Kelian was stunned, utterly unprepared for such an event.

In her memory, the Profound Celestial Sword Sect was a dominant force, an invincible existence.

They slaughtered demon cultivators like rats on the street, leaving them nowhere to hide.

But now, the headquarters of the Profound Celestial Sword Sect had been breached, which was simply unprecedented.

If it weren't for repeatedly confirming, she wouldn't have believed this to be true; it was truly inconceivable.

"The breach of the Profound Celestial Sword Sect is significantly related to the seismic disturbance half a year ago."

"It's said that this seismic disturbance caused disorder in many spirit veins."

"Arrays that were originally impregnable developed cracks."

"Especially the Tier Four arrays at the headquarters of the Profound Celestial Sword Sect suffered severe damage."

"The Profound Celestial Sword Sect had been repairing the arrays for half a year."

"Who could have imagined that demon cultivators would seize this opportunity, plant an inside agent who sneaked in."

"One of the array masters was an insider sent by the demon cultivators, who sabotaged the array."

"So when the attack was launched, the Profound Celestial Sword Sect's arrays were ineffective, virtually leaving them wide open."

"And because of this, the Profound Celestial Sword Sect suffered such heavy losses."

Lian Minglan said solemnly.

As an array master, she was well-informed about this matter.

Because she also wanted to join the array repairing team.

Unfortunately, she failed the assessment, and the Profound Celestial Sword Sect did not accept her, so she missed this opportunity.

But because of this, she also avoided this calamity.

Otherwise, she might have died in the attack by the demon cultivators.

"Can it be true? What should we do now?"

"If the Profound Celestial Sword Sect is destroyed, who can stop those ferocious demon cultivators?"

Chang Lisheng was deeply concerned.

Although he disliked the domineering ways of the Profound Celestial Sword Sect, the security and stability of this region couldn't be separated from their power.

Without the Profound Celestial Sword Sect suppressing the region, the chaos level would be unimaginable.

It would be equivalent to entering an era of turmoil.

In this situation, low-tier cultivators might find it even harder to survive.

Not to mention that if demon cultivators ran rampant, even Foundation Establishment cultivators might be targeted and killed.

"Don't worry, the Profound Celestial Sword Sect can't possibly be destroyed so easily."

"Indeed, the breach of their sect gate makes the Profound Celestial Sword Sect suffer greatly and significantly weakens them."

"But it can't destroy such a long-established Nascent Soul Sect."

"As long as the Nascent Soul Ancestors of the Profound Celestial Sword Sect are not fallen, it won't be too big of a problem."

"However, due to this attack, the damage to the Profound Celestial Sword Sect is immense, so the security within its territory will likely deteriorate, as they are probably unable to govern such a vast domain."

Elder Alchemist Wei Song, who knew much about the Profound Celestial Sword Sect, believed that such an ancient Nascent Soul Sect couldn't be destroyed easily; at most, they suffered a certain degree of loss.

As long as given enough time, they could recover eventually.

However, even so, the heavy blow had significantly weakened their control over the territory.

This would plunge the interior of the Profound Celestial Sword Sect into unprecedented chaos and adversity.

Especially with many demon cultivators escaping from the Demon Suppression Tower.

These were violent individuals, slaughtering like no other.

For every cultivator, they posed a grave threat.

A minor mistake could lead to death at the hands of those demon cultivators.

"How powerful are the demon cultivators who escaped from the Demon Suppression Tower?"

Jiang Fan asked, his expression very serious.

He believed the biggest threat in the future would undoubtedly be those old demons who escaped.

Because they were entities even the Profound Celestial Sword Sect couldn't kill.

Now that they have escaped, one could only imagine how strong and brutal they really were.

These were all hard-to-kill guys, which is why they were suppressed before.

Otherwise, the Profound Celestial Sword Sect would've eliminated them long ago; they definitely wouldn't have remained alive.

"To be honest, the power of those demon cultivators must be terrifying."

"At least Golden Core level demon cultivators."

"It's even said that some Nascent Soul level demon cultivators are among them."

"However, they've been suppressed in the Demon Suppression Tower for so long, their strength surely has declined considerably."

"Probably in the short term, they won't pose too significant a threat."

Elder Alchemist Wei Song explained.

"That might not be the case."

"Precisely because their strength has waned, these demon cultivators will do everything possible to regain their power."

"Therefore, the territory of the Profound Celestial Sword Sect is extremely dangerous during this period."

"Because these demon cultivators will commit atrocities everywhere, devouring souls to restore their cultivation."

Lian Minglan found it even more dangerous due to these reasons.

Everyone knew the ferocity of those demon cultivators.

To restore their cultivation or enhance their power, they would certainly resort to any means.

They would stop at nothing.

"Really? If that's the case, what should we do?"

"Should we leave the Profound Celestial Sword Sect now?"

"I always felt that it's not very safe here now."

Yu Kelian was very worried.

If demon cultivators truly ran rampant, then they as loose cultivators would undoubtedly bear the brunt.

By that time, it would be uncertain how many cultivators would survive.

"Leave the Profound Celestial Sword Sect? Don't dream about it, it's impossible."

"It's said that all ship flights have now been stopped."

"It's virtually impossible for us to leave by ship."

"Of course, we could fly away, but the question is: for such a long distance, it's unknown how much time it would take, and more frighteningly, traveling on the road is even more dangerous."

"If we encountered demon cultivators along the way, we'd be doomed."

Chang Lisheng chuckled.

He also wanted to leave and escape danger, but he knew it was definitely an impossible task.

After all, the Profound Celestial Sword Sect would absolutely not allow a large number of cultivators to leave its territory.

Boom~~

At this moment, Jiang Fan felt the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi beginning to tremble.
