Chapter 396: Great Harvest, Obtaining a Third-Grade Opportunity!

Rumble~~

The immense Pure Yang Power enveloped everything, illuminating this group of demon cultivators.

Immediately, these demon cultivators let out piercing screams.

The demonic qi on their bodies melted rapidly like snow, emitting steam.

It was as if they were drenched in acid, hissing and seething.

Clearly, this was a critical attack for these demon cultivators.

Some of the weaker demon cultivators were instantly evaporated by this Pure Yang Power, turning into pools of blood.

Disappearing from this world just like that.

Even the Black Blood Old Demon was no exception; his body quickly riddled with holes, and the demonic qi and blood qi within were rapidly worn away, with the Power of Origin within him depleting swiftly.

Originally, to escape from the Demon Suppression Tower, he had already exhausted a large amount of Power of Origin.

Now, being attacked by the enemy like this was just adding insult to injury.

"The Pure Yang Exorcism Talisman is actually this effective?!"

Seeing this scene, even from a distance, Jiang Fan was taken aback.

He knew the Pure Yang Exorcism Talisman had a great suppressive effect on evil entities and demon cultivators.

But now it seemed he had underestimated the power of the Pure Yang Exorcism Talisman.

Just one attack caused severe damage to this group of demon cultivators.

Even the leading old demon appeared gravely injured and on the verge of death.

However, he also knew that this alone was not enough.

This kind of attack merely inflicted severe injuries on these demon cultivators but wasn't enough to kill them.

"Celestial Thunder Talisman."

With this thought, Jiang Fan once again activated the Life Talisman on him—the Celestial Thunder Talisman.

It should be known that he had just advanced to the Eighth-Layer Foundation Establishment realm and simultaneously raised his skill level with the Celestial Thunder Talisman to the Perfection Level, thereby increasing its power manifold, incomparably stronger than before.

Boom Boom Boom!!

In an instant, no less than forty-nine celestial thunderbolts descended from the sky, targeting Black Blood Old Demon and other demon cultivators.

An aura of destruction permeated the surroundings, making this group of demon cultivators tremble with fear.

Before they could react, forty-nine celestial thunderbolts fell from the sky, striking this group of demon cultivators.

"Aaaaah!!!"

Immediately, this group of demon cultivators let out horrific screams. Since they cultivated demon techniques, it was hard for them to withstand the Power of Celestial Thunder, and being struck by so many celestial thunderbolts was a total disaster.

In just an instant, except for the Black Blood Old Demon, the other demon cultivators were struck dead.

Their bodies couldn't withstand the destructive force brought by the Celestial Thunder and the Pure Yang Power.

The demonic qi in their entire bodies vanished into smoke and turned to ashes in an instant.

Huge craters appeared on the ground, with earth flying everywhere.

It was almost like a divine retribution, striking this group of demon cultivators dead.

"Escape!"

The Black Blood Old Demon harbored extreme hatred towards the cultivator who sneak-attacked him. If his cultivation fully recovered, he would capture that vile cultivator, dismember him, and even eradicate his friends and family, to vent the fire and hatred deep inside.

He planned to use a secret technique to escape from this place.

Unfortunately, Jiang Fan would not give this old demon the chance to flee, activating the Ancient Treasure Exquisite Tower.

This treasure tower instantly flew out, hovering in mid-air, and an invisible domain enveloped all directions, suppressing this time and space, preventing any creature in this area from moving or escaping.

"Done for, it's all over now."

The Black Blood Old Demon now understood that the hidden enemy had come prepared and clearly ambushed here to attack him.

But he had no idea about this and foolishly walked into the enemy's trap, resulting in his subordinates' downfall and his own misfortune.

Boom~~

At that moment, golden rays burst from the Exquisite Tower, instantly transforming into chains wrapping around Black Blood Old Demon's body, immobilizing him so he couldn't make any moves to escape.

Then it exerted a tremendous suction force, pulling Black Blood Old Demon into its internal world.

"Demon Suppression Tower? Am I going to be suppressed again?"

Black Blood Old Demon was both shocked and furious.

He regretted it deeply; why had he foolishly come to this place?

Now he again fell into the enemy's trap.

The problem was that the Demon Suppression Tower was the sect treasure of the Profound Celestial Sword Sect; why would it appear here?

However, soon he couldn't think anymore.

After being sucked into the Exquisite Tower, not only was his body sealed, but even his soul was sealed, completely falling into slumber with no consciousness remaining.

"Tsk tsk, what a pitiful group of demon cultivators."

"Never thought they'd be dealt with by the master like this."

Seeing this scene, the Ten Thousand Transformations Pill Furnace said gloatingly.

It should be known that if it were a frontal battle, for Jiang Fan to deal with this group of demon cultivators wouldn't have been so simple.

After all, this group of demon cultivators had many means at their disposal, and if anything was amiss, they might immediately flee.

But now, they were ambushed by Jiang Fan.

With a calculated mind against careless foes, they were swiftly resolved. Even if they wanted to escape, it was impossible.

Don't be misled into thinking it seemed easy to deal with this group of demon cultivators.

If there wasn't enough strength or the right timing, it could have resulted in a backlash from this group of demon cultivators.

Especially that aged old demon, no one knew what kind of hidden techniques he was concealing.
