

Fortune 397

Chapter 397: Great Harvest, Obtaining a Third-Grade Opportunity!_2

It could also easily lead to an unexpected defeat.

However, overall, he still managed to easily deal with this group of enemies, eliminating future hidden threats.

"Indeed, it is a sign of great fortune."

"Coming to Plum Blossom Village was definitely the right decision."

"If this group of Demon Cultivators hadn't been dealt with in advance, they might have become hidden threats in the future."

Jiang Fan's eyes flickered.

He could feel the ferocity of this group of Demon Cultivators.

Especially that elderly Demon Cultivator, who at a glance, was not easy to deal with and must be an old demon who escaped from the Demon Suppression Tower.

If left unchecked, his Cultivation would rapidly increase, and then it would be a bigger problem.

And as he resided within the Seven Stars Peak, he would find it hard to escape from their deadly hands.

After all, this old demon would definitely commit mass killings to restore his Cultivation.

First killing mortals, then Cultivators.

In short, anyone targeted by him would be doomed.

Fortunately, he resolved this old demon in advance, neutralizing the threat before it erupted, thereby averting a future catastrophe.

"Master, this Demon Cultivator is not simple; the Origin within him is quite powerful."

"At his peak, he might have been at least a Nascent Soul Cultivator."

"However, after years of torment, his Origin Energy greatly diminished, leaving him only at the Qi Cultivation Level."

"If he had devoured some Essence Blood, it might have become hard to deal with him."

The Exquisite Tower was also in awe.

It could perceive the Origin Energy within Black Blood Old Demon, understanding that he was not someone simple.

"This old man is a Nascent Soul Demon Cultivator?!"

Hearing this, Jiang Fan was startled.

Even though he had already overestimated the opponent's Cultivation, he hadn't expected to have underestimated it.

Undoubtedly, he found the perfect timing.

If he had been a bit late and the other had devoured enough Essence Blood, he might not have been able to handle this old demon.

No wonder the Fortune-Telling Talisman hinted that he should not stay at the Seven Stars Peak to cultivate but must act in advance to deal with the enemy.

If he had foolishly stayed at the Seven Stars Peak, waiting for this old demon's Cultivation to constantly recover, he might have only found himself captured by this Nascent Soul Demon Cultivator.

So, staying at Seven Stars Peak to cultivate is not dangerous in the short term, but in the long run, it is full of dangers.

"Exactly."

"But now this old man doesn't have much strength left."

"That's why I can easily suppress him."

"I can even refine this old demon's Origin Energy into the Exquisite Tower's power."

"And refine the Essence Blood within him to become the Spiritual Soil of the First Layer."

The Exquisite Tower said excitedly.

For it, capturing a Nascent Soul Demon Cultivator was equivalent to obtaining a Ten-thousand-year-old Spirit Medicine.

This was simply a great supplement, an incredible stroke of luck.

"Able to refine a Demon Cultivator's flesh and blood into Spiritual Soil?"

Jiang Fan blinked his eyes.

This was the first time he learned that the Exquisite Tower possessed such an ability.

"Yes."

"In the Ancient Era, I was a famous Exquisite Medicinal Garden."

"There were seven layers of Spatial Worlds."

"Each Spatial World could grow a large amount of Spirit Medicine."

"The fertilizer naturally came from Demon Cultivators, as well as various demons, and monsters."

"Countless demons harbor bone-deep hate for me."

"After all, it's always demons who treat human Cultivators as food, never the other way around."

The Exquisite Tower said proudly.

Although now it had been severely damaged, returning to its initial state, the First Layer Spatial World had lost its former power.

But now that a Nascent Soul Demon Cultivator was sealed within, naturally, its Origin Energy could be refined into the Spiritual Soil of the First Layer Spatial World.

And given that the demon was hard to kill.

This favored the Exquisite Tower, allowing it to continually harvest the demon's Origin, eternally exploiting it.

"If that's the case, can the Heavenly Flower be planted?"

Hearing this, Jiang Fan's eyes lit up.

If Heavenly Flowers could be cultivated on a large scale, his Spiritual Root Talent might breakthrough.

No, not only for himself, even Su Weiwei's Spiritual Root could transform.

Even his future generations would benefit endlessly.

"Of course, Heavenly Flowers can be planted."

"The problem is, to allow Heavenly Flowers to mature, it might take thousands of years."

"Do you have that much lifespan to wait?"

The Exquisite Tower said.

Though the internal world could indeed cultivate a variety of Spirit Medicines, each required time to grow.

Common Spirit Medicines required hundreds, even thousands of years to mature.

High-tier Spirit Medicines could require even more time, making them incredibly precious.

Hence the Exquisite Tower was considered a Sect Treasure of a superpower.

For an individual, it wasn't particularly helpful.

"Isn't there a way to speed up the growth of Spirit Medicine?"

Jiang Fan asked curiously.

"It's not impossible."

"If you can open the Second Layer, Third Layer Spatial Worlds, you can speed up Spirit Medicine growth."

"For example, the Second Layer can double the growth speed, the Third Layer can triple it."

"If the Seventh Layer Spatial World were opened, it could increase the speed by six times."

"That's why I was known as a world-renowned medicinal garden in the past."

Exquisite Tower spoke proudly.

In the past, it was a Sect Treasure.

Merely the Spirit Medicine it produced could cultivate countless Cultivators.

Thus, it became a thorn in the side of many demons.

It faced a siege, and in the end, couldn't resist and had to flee.

Even now, it hasn't been refined and controlled for a long time.

"How can I open the Second Layer Spatial World?"

Jiang Fan continued to ask.

"It depends on your Cultivation."

"If you advance to the Golden Core, you can open the Second Layer World."

"Advance to Nascent Soul to open the Third Layer."

"The higher the Cultivation, the more Spatial Worlds can be opened."

"If you want to obtain a large amount of Spiritual Soil, you need to seal many demons and Demon Cultivators."

"Turn the corpses of these demons into fertilizer to promote the growth of Spirit Medicine."

Exquisite Tower explained.

Hearing this, Jiang Fan felt quite satisfied.

He had understood more about the Exquisite Tower.

Clearly, the potential of this Spatial Treasure was immense.

It's just that his Cultivation was too weak, and he had only unearthed a small fraction of its power.

Boom~~~

At this moment, a message instantly entered the depths of his consciousness: "You ambushed Black Blood Old Demon and other Demon Cultivators, after a deadly battle, finally resolved these Demon Cultivators, narrowly surviving a life-and-death catastrophe, you obtained a hundred thousand Luck Points, and a Third-Grade Opportunity."

Sensing this message, Jiang Fan blinked his eyes, feeling extremely shocked.

Because this gain was simply enormous.

First was the hundred thousand Luck Points, utterly beyond imagination.

Before, after weathering many tribulations, he had never obtained this much Destiny before.

Clearly, this tribulation was extremely perilous.

If he hadn't dealt with Black Blood Old Demon in advance, the future tribulation would have been very difficult.

Perhaps by then, he would be facing a situation of nine deaths and one life, or even ten deaths with no life.

But the most important aspect was the considerable Destiny on these Demon Cultivators.

Especially Black Blood Old Demon, who originally carried great Destiny, not fated to die.

But after being captured and sealed by him, the Destiny was thoroughly plundered.

It could be said that the opponent's Destiny had run out, leading to such misfortune.

That's why he obtained a hundred thousand Luck Points.

For Jiang Fan, the Third-Grade Opportunity was also immensely significant.

This opportunity was unprecedented.

Previously, he had only obtained Fifth-Grade Opportunities; never something so shocking as a Third-Grade Opportunity.

"What exactly is this so-called Third-Grade Opportunity? It must exceed the Divinity Transformation level of opportunities."

Jiang Fan's curiosity reached its peak.

With a thought, he gently clicked on a spot of light of opportunity, and suddenly, a vast amount of information flowed into the depths of his consciousness, letting him instantly understand what the so-called Third-Grade Opportunity was.
