Chapter 402: Obtaining the Heavenly Flower Again, Gaining the Fifth-Grade Opportunity

Meanwhile, in the Spirit Moon Secret Realm.

A group of cultivators also appeared in this place.

Each of them was surrounded by a powerful aura, making people shudder.

Upon arriving at the Spirit Moon Secret Realm, their faces showed expressions of excitement.

These cultivators were disciples of the Taiyi Sect, the Divinity Transformation Holy Land on the Eastern Continent.

"The Ancient Secret Realm - Spirit Moon Secret Realm that opens once every five hundred years, who would've thought we'd encounter it? For us, it's indeed a great destiny."

A white-robed man said with a sigh.

Even as a disciple of the Divinity Transformation Holy Land, he was still eager to seize opportunities.

After all, there are many disciples in the Holy Land, and many have backgrounds. Without special opportunities, it's hard to stand out.

Moreover, if one wants to become a Nascent Soul, or even a Divinity Transformation, it's almost impossible without great opportunities.

"Isn't that so? It's said that the Spirit Moon Secret Realm is rich in treasures."

"There's even a large quantity of special spirit medicines."

"Once, a predecessor obtained a Heavenly Flower in the Spirit Moon Secret Realm, improved their spirit root talent, and soared to great heights."

"Later, they even became a Divinity Transformation Ancestor."

Another blue-robed man said solemnly, clenching his fists with a face full of longing.

"Don't even think about the Heavenly Flower; such Heaven and Earth Spiritual Objects aren't easy to find."

"Indeed, that predecessor later revealed the location where they found the Heavenly Flower, but unfortunately, those who came later couldn't find it. Evidently, it was a one-time opportunity."

"But even so, it proves just how rare the Spirit Moon Secret Realm is, containing vast opportunities."

"Unfortunately, this Ancient Secret Realm is not solely for us Taiyi Sect. Cultivators from the other three Divinity Transformation Holy Lands on the Eastern Continent can also enter and compete with us."

Many Taiyi Sect disciples were discussing.

The other three Divinity Transformation Holy Lands on the Eastern Continent were the Dan Ding Sect, Hundred Flowers Valley, and Celestial Secret Mansion.

These three Divinity Transformation Holy Lands are powerful forces comparable to Taiyi Sect.

Like four towering pillars, they rule the vast Eastern Continent.

"I'm not worried about the disciples from the other Divinity Transformation Holy Lands."

"After all, they're cultivators of the Righteous Sects and won't resort to lethal measures."

"What I'm most worried about are the demon cultivators."

"It's said they've also found a way to enter the Spirit Moon Secret Realm."

"Five hundred years ago, they entered the Spirit Moon Secret Realm and clashed with disciples from our four Holy Lands."

"That time, our four Divinity Transformation Holy Lands suffered heavy losses, and many outstanding disciples perished."

"So this time, we must be extremely vigilant and absolutely not follow in the footsteps of our predecessors."

The white-robed man said seriously.

Although the four Divinity Transformation Holy Lands can indeed enter the Spirit Moon Secret Realm, they haven't completely controlled this Ancient Secret Realm; they can only enter it periodically.

Evidently, the level of this Ancient Secret Realm is very high, and even the Divinity Transformation Holy Land cannot fully explore it.

It holds many secrets, and even after thousands or tens of thousands of years, they're not very clear.

"Understood."

Everyone nodded in agreement.

They were well aware of the terror of the demon cultivators, who were close to demons and could transform at any moment.

Thus, these demon cultivators are the greatest threat to the Righteous Sects.

Every year, many Holy Land disciples die at the hands of demon cultivators, and the sides have long been like water and fire, relentlessly opposed.

"There are many places with opportunities in the Spirit Moon Secret Realm."

"But our time is limited; we can only stay here for fifteen days."

"Once fifteen days are over, we'll be forcibly teleported out and unable to remain."

"After years of exploration by predecessors in the Spirit Moon Secret Realm, we've been fortunate to obtain a great deal of intelligence."

"You can visit places like Moon Cry Spring, Moon Treasure Peak, and the Ten Thousand Medicines Garden."

"But don't go to Celestial Thunder Valley. That place is perpetually shrouded in celestial thunder, and lightning strikes occur frequently. A brief lapse can lead to being struck dead by celestial thunder, perishing and vanishing."

"Previously, some Taiyi Sect predecessors didn't believe in evil and thought that place was special, perhaps containing unique opportunities, but they all died in Celestial Thunder Valley."

"Of course, if you're not convinced, you can go see for yourself."

"Anyway, you can stay here for fifteen days. You can rely on your own means to obtain opportunities in the Secret Realm."

The white-robed man introduced the Spirit Moon Secret Realm.

"Yes, senior brother."

Everyone nodded. They already had some understanding of the Spirit Moon Secret Realm and had acquired a lot of information about it, and already had places they wanted to go.

...

Elsewhere.

Many demon cultivators also appeared in the Spirit Moon Secret Realm.

Their bodies were permeated with eerie demonic qi, sending chills down one's spine.

Evidently, their hands were stained with countless people's fresh blood, killing indiscriminately, committing heinous crimes.

Though the Righteous Dao of the Eastern Continent is flourishing, the power of the demon cultivators is not far behind.

The more intense the sun, the deeper the darkness beneath.

"Spirit Moon Secret Realm, the legendary Ancient Secret Realm, controlled by the four Divinity Transformation Holy Lands, containing countless resources, nurturing generations of prodigies. But now, we can enter this Secret Realm. Remember, we're not here to seek opportunities, but to kill, to hunt these Holy Land prodigies."

"The four Divinity Transformation Holy Lands of the Eastern Continent monopolize the cultivation resources of the entire continent. These bastards judge excellence by spirit root; if one is a Low-grade

Spirit Root cultivator, they're treated like dirt, giving no chance to those of low talent. No matter how hard they cultivate, they'll never gain favor. This time, I want to show them that even with low talent, there's no way we'll lose to them."
