Chapter 403: Obtaining the Heavenly Flower Again, Gaining the Fifth-Grade Opportunity (Part 2)

"Even if we become Demon Cultivators, so what? Even if everyone wants us dead, so what? If we can achieve the Dao and attain immortality, then being non-human doesn't matter. Even becoming demons is our wish."

"Well said. Everything is for the sake of achieving the Dao. We're already cultivators, and yet we're still stuck on what's Righteous Dao and what's Demon Dao. It's truly laughable."

"Let's show these Holy Land cultivators the might of us Demon Cultivators."

Numerous Demon Cultivators unleashed terrifying killing intent from their bodies.

Although the East Continent is a cultivation holy land, with many sects, cultivators with low Spirit Roots still achieve nothing, having little opportunity for cultivation.

Thus, many low-level cultivators have embraced Demon Dao to pursue the Dao.

For the sake of gaining power, these cultivators are willing to do anything, even abandoning humanity and falling into demonhood.

Because of this, the more Demon Cultivators are killed in the East Continent, the more they multiply without end.

The struggle between Righteous Dao and Demon Dao is far more intense than in the Southern Continent.

Every clash results in numerous cultivators' injuries and deaths.

...

Three days later.

Jiang Fan used the power of the Light Body Talisman, flying south.

After flying for three whole days, he finally reached Celestial Thunder Valley.

However, along the way, he didn't encounter any nearby cultivators, so he didn't face any danger.

"Is this Celestial Thunder Valley?"

Upon reaching Celestial Thunder Valley, Jiang Fan took a close look. The distant sky was shrouded by thick dark clouds, seemingly covering hundreds of kilometers, with purple Celestial Thunder occasionally falling.

This place seemed to have turned into a Thunder Domain.

The ground was littered with deep craters, and the soil and stones were charred black.

No vegetation could possibly grow.

There were no signs of living creatures around.

Normally, this place is a wasteland with little chance of opportunity.

"This place looks very dangerous."

"But the Fortune-Telling Talisman says there's opportunity here, so there must be opportunity."

"Moreover, for me, it's a sign of great fortune."

"So, there must be a way to avoid the Celestial Thunder and obtain the opportunity."

Jiang Fan stroked his chin, looking into the distance.

Boom~~

His Perception Talisman spread out, having reached Perfection Level, easily expanding his Spiritual Sense range tenfold, enveloping the area with Spiritual Power.

The next second, he sensed a hidden cave entrance deep within Celestial Thunder Valley.

Deep within the cave, mysterious auras permeated.

These auras stirred his soul, instinctively making him sense that there must be treasures inside.

"The hidden cave entrance in Celestial Thunder Valley, the opportunity must be inside."

"But to reach that mysterious cave entrance, I need to avoid the Celestial Thunder."

"Luckily, my Celestial Thunder Talisman has reached Perfection Level, extremely attuned to the Power of Celestial Thunder."

"If supplemented by numerous Ancient Treasures, crossing this Thunder Domain should be feasible."

Jiang Fan's eyes flickered.

Thinking of this, he did not hesitate, activating the Life Talisman—Celestial Thunder Talisman within him.

Instantly, above him, the Celestial Thunder Talisman condenses, densely filled with thunderbolt runes, seemingly drew the Celestial Thunder between heaven and earth.

Bang! Bang! Bang!!!

The Celestial Thunder, originally crashing down, was attracted by the Celestial Thunder Talisman immediately, cascading onto the Talisman, being devoured and absorbed, as if filling the Talisman.

This was akin to a lightning rod, drawing thunderbolts from the sky.

To be honest, Jiang Fan didn't expect the Perfection Level Celestial Thunder Talisman to have such an effect.

Now most of the Celestial Thunder is drawn by the Celestial Thunder Talisman.

Which means he can take this time to rush into the depths of Celestial Thunder Valley.

Whoosh!

The next second, Jiang Fan vanished, instantly flying away at an incredible speed.

Leaving behind only afterimages in mid-air.

In no time, he crossed the entire Celestial Thunder Valley, reaching the mysterious cave.

This time, the Celestial Thunder Talisman could no longer withstand it and shattered, splitting into pieces.

The sky once again surged with countless Celestial Thunder, crashing down, crackling like countless exploding missiles.

Such astonishing thunderbolt power—the Golden Core Cultivator would be electrocuted to death.

But for Jiang Fan, he safely navigated through this perilous area.

"Is this what the Fortune-Telling Talisman meant by having risk without danger?"

"Indeed, it was risk without danger."

Hiding inside the cave of Celestial Thunder Valley, Jiang Fan watched the countless thunderbolts crashing outside, exclaiming in amazement.

For other cultivators, passing through this thunderbolt area is nearly impossible.

Only those who have cultivated the Celestial Thunder Talisman to Perfection Level like him can accomplish it.

Thus, this place is truly a fortunate land of opportunity for him.

Other cultivators who come here likely end up empty-handed.

If they try to force their way through, it would be a path to self-destruction.

"I wonder what opportunity lies inside the cave."

But Jiang Fan quickly composed himself and headed deeper into the cave.

Although it was dark inside without any sunlight, for a Foundation Establishment Cultivator with Spiritual Powers, it wasn't challenging to sense the surroundings.

This was somewhat akin to a bat sensing the dark, like walking in daylight.

No idea how far he walked, he eventually reached the end of the cave.

There, a deep pool appeared, flowing with a large amount of water, and at its center grew four Spirit Flowers, emanating abundant Spiritual Qi, soothing to the senses.

"No way, is this true?"

"Heavenly Flower? Found Heavenly Flowers in this place?!"

Jiang Fan's pupils shrank.

Gazing at the four Spirit Flowers before him, he was dumbfounded, utterly speechless.

Though he believed that with his destiny, he would eventually obtain the Heavenly Flower, who could have imagined he would obtain it so quickly?

How much time had passed, and three mature Heavenly Flowers appeared before him.

Even though he had previously obtained countless opportunities, he still felt immensely excited.

"This is too outrageous."

"You randomly arrived somewhere and found Heavenly Flowers?!"

"Master, are you the child of fate?"

At this moment, the Ten Thousand Transformations Pill Furnace also witnessed the scene and was speechless.

It was utterly lost for words.

Back when Daoist Wan Hua sought Heavenly Flowers, he spent ages searching the Southern Continent, yet ended up with nothing.

But now, Master has outrageous luck.

Previously, during an Earth Pulse vibration, he automatically obtained a Heavenly Flower.

Now, aided by the power of the Gate of the Void, he ventures into an unfamiliar area and discovers four Heavenly Flowers.

These precious Spiritual Objects just silently appeared before Master.

If Daoist Wan Hua saw this scene, he would surely die of anger.

Why is the gap between people so vast?

Boom~~

At this moment, Jiang Fan sensed a message from the depths of his consciousness: "You have been cautious, choosing the safest path, avoiding numerous death tribulations, arriving at Celestial Thunder Valley. You have obtained a Fifth-Grade Opportunity, thirty thousand Luck Points."

"What?"

Jiang Fan blinked, incredulous. He felt he hadn't done anything, merely arrived at Celestial Thunder Valley, encountering no danger en route.

Yet he survived a death tribulation and gained substantial destiny.

This seemed unbelievable.

Yet, thinking carefully, this wasn't entirely impossible.

After all, the Spirit Moon Secret Realm is filled with hidden dangers.

If he had chosen wrong and ventured elsewhere, he would have faced endless hazards and tribulations.

Given his cultivation level, surviving would have been uncertain.

Thus, he truly survived a life-and-death tribulation.

Sometimes, surviving a death tribulation doesn't involve combat.

Avoiding a fight is also a form of Crossing the Tribulation.

After all, cultivation aims for the Dao and immortality, not necessarily fighting.
