Chapter 405: Spirit Root Transformation, Promotion to Celestial Spirit Root_2

It looked like an immortal piece of gold on the outside.

A sacred, ancient, and immortal aura enveloped him, unfathomable, like a Divine Son.

Boom~~

As the last drop of golden elixir was consumed, Jiang Fan's spiritual root talent underwent earth-shattering changes.

The entire spirit root seemed to transform into something akin to crystal, without any impurities.

At this moment, Jiang Fan discovered that his perception of the entire world was different.

It felt as if his soul could effortlessly communicate with the entire world.

The spiritual Qi between heaven and earth surged like a flood.

Through the devouring absorption of the Celestial Spirit Root, it all poured into his body, rapidly digesting.

His cultivation efficiency compared to before was at least several times greater.

"This is too exaggerated."

"Is this the cultivation efficiency of the Celestial Spirit Root talent?"

"It's simply unmatched by Earth Spirit Roots."

Jiang Fan was momentarily stunned.

Although the Earth Spirit Root was already considered a genius, how could it compare to the Celestial Spirit Root?

It's like students who can get into Tsinghua and Peking University are generally academic talents, geniuses.

But those who stand out in these top universities are truly world-class talents.

Celestial Spirit Root cultivators are like this.

People with such talent, no matter where they go, or which sect, are destined to be Daoists or Divine Sons.

"Celestial Spirit Root cultivators' efficiency in absorbing spiritual Qi is more than a hundred times that of low-grade Spirit Root cultivators."

"Even if Celestial Spirit Root cultivators don't take any elixirs or spirit medicines, they can naturally advance to Foundation Establishment."

Jiang Fan was filled with astonishment.

He felt that his efficiency in absorbing spiritual Qi had increased several times over.

This efficiency was comparable to taking elixirs.

And this feeling was like flying on a plane, an indescribable joy.

"No wonder Celestial Spirit Root cultivators have no bottleneck."

"With such astonishing cultivation efficiency, there's no need to take any elixirs."

"Furthermore, the Celestial Spirit Root brings a powerful soul and strong affinity with spiritual Qi."

Jiang Fan clenched his fists.

He felt that the first generation of cultivators must have been Celestial Spirit Root cultivators.

After all, only such talented individuals could cultivate to extremely high realms without relying on any external forces.

Then, after cultivating to high realms, these Celestial Spirit Root cultivators would create Foundation Establishment Pills and other elixirs to assist ordinary cultivators in their practice.

Indeed, there is a great difference even between geniuses and geniuses.

Fortunately, with the assistance of the Heavenly Flower, he also became a Celestial Spirit Root cultivator, possessing the top talent in this world.

"Wait, what is this?"

"Could it be Enlightenment?"

At this moment, Jiang Fan suddenly discovered that his Celestial Spirit Root and soul were resonating, and his soul seemed to communicate with the Heavenly Dao of this world, entering a state of Unity of Heaven and Man.

Faintly, he found himself in a state of sudden enlightenment.

He felt this sensation was akin to the state when he advanced to Foundation Establishment in the past.

It was like the Foundation Establishment of Dao Understanding.

Now his spirit root had advanced from Earth Spirit Root to Celestial Spirit Root, triggering a second state of enlightenment.

Rumble~~

A vast influx of information, like a deluge, submerged deep into his sea of consciousness.

At the same time, the Gate of the Void within him also seemed to tremble.

As if it resonated with his soul.

Immediately, Jiang Fan discovered that his soul reached into the void, sensing that this void transformed into ripples.

Space runes poured into the depths of his sea of consciousness one after another.

Then quickly coalesced into a seed of divine power.

"Shrinking Earth into Inches!"

In an instant, Jiang Fan immediately realized what divine power he had acquired; it was a spatial divine technique—Shrinking Earth into Inches, containing infinite mysteries.

Originally, he was not supposed to obtain this spatial divine technique.

But with the help of the Gate of the Void, he sensed a space-type divine power, obtaining Shrinking Earth into Inches.

"This spatial divine technique is incredibly powerful."

Jiang Fan was overwhelmingly excited; with a mere thought, he immediately activated the seed of divine power.

Whoosh!

The next second, his entire body became incorporeal, enveloped by a surge of void energy, and then he disappeared from the spot, instantly arriving a kilometer away.

Instant Teleportation!

No doubt, this was the power of instant teleportation.

No flying technique, no light body technique could compare to instant teleportation.

Only spatial divine techniques are the fastest divine techniques in this world.

However, Jiang Fan did not leave Celestial Thunder Valley; at this moment, the sky suddenly descended with dozens of strikes of celestial thunder, attempting to strike Jiang Fan into ash.

But with a thought, he used Shrinking Earth into Inches, and in a blink, he left, returning to the cave.

Those celestial thunders, having lost Jiang Fan's aura, could only strike the ground, creating enormous craters.

It could be said, even the speed of celestial thunder cannot compare to Shrinking Earth into Inches.

"Is this the divine power Shrinking Earth into Inches? It's incredibly strong."

"Its speed reaches an unimaginable level."

"This is truly not a divine power that Foundation Establishment cultivators can master."

"The pity is, it consumes too much spiritual power."

"Activating it just five or six times exhausts nearly all the spiritual power in the body."

Jiang Fan returned to the cave, still immensely excited.

Due to the limitation of his cultivation, he could only activate Shrinking Earth into Inches a few times, merely six times, before his body's spiritual power was depleted.

Moreover, each activation only covered a distance of a kilometer.
