Chapter 406: Transformation of Spirit Root, Promotion to Celestial Spirit Root_3

However, even so, for a Foundation Establishment Cultivator, this could already be considered a defying the heavens skill.

Rumor has it that only Nascent Soul Cultivators can master the ability of teleportation.

Yet, he was merely an Eighth-Layer Foundation Establishment Cultivator and had already mastered such a power, which is truly inconceivable.

Moreover, as his cultivation level increases, the distance that he can teleport using Shrinking Earth into Inches will definitely greatly increase.

This is just the beginning.

"Wait, could it be that the master has attained enlightenment again?"

At this moment, the Ten Thousand Transformations Pill Furnace also sensed the aura on Jiang Fan; it perceived that a heavenly aura seemed to have emerged earlier, which it had sensed before during Jiang Fan's foundation establishment, and didn't expect it to appear again this time.

"Indeed, the master has attained enlightenment and acquired an innate divine skill."

"I have heard that after someone transforms into a Celestial Spirit Root, they can have the chance to attain enlightenment and acquire an innate divine skill."

"But the probability is really too small; it is already a legend."

"I didn't expect the master could actually achieve it; it is truly unbelievable."

The Demon-Vibrating Bell also sighed endlessly.

Its emotions were very complex.

After all, even in the ancient era, the talents of sect prodigies were just like this.

Not many could reach the level of enlightenment.

Any cultivator who could achieve enlightenment would have extremely high achievements in the future, as long as they did not die.

"And this is not just an ordinary innate divine skill, but a spatial divine skill."

"No wonder the master was able to obtain the Gate of the Void."

"It seems the master's comprehension of the spatial path is extremely high."

"Otherwise, how could it be possible to acquire this spatial divine skill?"

The Exquisite Tower was also incredibly shocked.

It is now increasingly recognizing Jiang Fan.

Although Jiang Fan's cultivation level is still very weak, merely at the Eighth-Layer Foundation Establishment.

But becoming a high-tier cultivator is just a matter of time.

Such an unparalleled prodigy indeed has the qualification to become its master.

"It's not enough yet; I must carefully comprehend the mysteries of the Celestial Spirit Root."

"As well as this spatial divine skill, Shrinking Earth into Inches."

Jiang Fan sat cross-legged on the ground, once more entering a deep layer of cultivation.

For him, the gains this time are truly immense.

Not only has his spiritual root talent undergone a transformation, but he also acquired the spatial divine skill of Shrinking Earth into Inches.

Even if there are other opportunities in the Spirit Moon Secret Realm, he is indifferent to them.

Solely digesting his gains this time is completely enough.

After all, the opportunities in this world are too numerous; he cannot possibly obtain every single one.

Being able to obtain some opportunities to help his cultivation progress continuously is already enough; there's no need to be overly greedy.

...

Meanwhile, in the Spirit Moon Secret Realm, in the Ten Thousand Medicines Garden.

A group of female cultivators from the Hundred Flowers Valley of the Divinity Transformation Holy Land were being pursued by demonic cultivators.

They were retreating continuously, fleeing rapidly.

Leading them was Hua Xinling, a true disciple of the Hundred Flowers Valley, a Golden Core Zhenren with exceptionally high cultivation.

However, facing the relentless slaughter by the Golden Core Demon Cultivators, she was still outmatched and had to retreat continuously.

She could only flee with a group of junior sisters.

"These damn demon cultivators are truly outrageous."

"Previously, an elder from the Celestial Secret Mansion gave me a divination."

"Saying that I would face a death calamity in the Spirit Moon Secret Realm, and it unexpectedly came true."

"The only hope of survival is to head towards the Heavenly Thunder Valley."

Golden Core Zhenren Hua Xinling's beautiful eyes flashed with a trace of coldness as she led a group of junior sisters to flee rapidly.

Heading swiftly towards the Heavenly Thunder Valley.

As for other cultivators from the Divinity Transformation Holy Land, they didn't have time to look after them, as they were also fighting other demon cultivators.
