Chapter 410: Easily Crossing the Tribulation, Obtained Tier Three Spirit Medicine_2

But as for Demon Cultivators, they wouldn't have any bottom line to speak of.

Boom~~

Thinking of this, Jiang Fan moved his mind, activated the power of the Exquisite Tower, and came through the air, instantly collecting all five Storage Bags on the ground, of course not letting go of the five Golden Core Demon Cultivators' remains.

After all, the remains of these Golden Core Demon Cultivators can also be devoured and absorbed by the Exquisite Tower, transforming into Spiritual Soil for the internal space.

He certainly wouldn't waste these Cultivation Resources.

Whoosh!

The next second, the Exquisite Tower quickly returned to the cave.

"No way, are these really considered Golden Core Demon Cultivators?"

"They only have this little stuff on them?"

Jiang Fan couldn't wait to open these Storage Bags.

Initially, he was hoping there might be some Tier Three Elixirs or something inside, but upon a closer inspection, it was just some special materials and ordinary Spirit Medicine.

Aside from that, there was just a large amount of Spirit Stones.

Altogether, the number of Spirit Stones reached two million.

Without a doubt, this was indeed a huge sum.

After all, he had previously consumed a million Spirit Stones just to open the Gate of the Void.

So he was extremely lacking in Spirit Stones.

To suddenly receive two million Spirit Stones now was quite a compensation for the loss.

However, it was far from what he had expected.

But thinking about it carefully, it was quite normal.

After all, these Demon Cultivators were all the types who pluck even the feathers from a passing goose. If they indeed had some Tier Three Elixir, they would have consumed it immediately, so finding no Elixirs in the Storage Bags was quite normal too.

Fortunately, he still obtained these Golden Core Remains, which the Exquisite Tower could devour and absorb, transforming them into Spiritual Soil.

This could be considered as making use of waste.

"No way, are there really so many Spirit Medicines?"

At this time, Jiang Fan opened the Storage Bag handed over by the Golden Core Female Cultivator from the Hundred Flowers Valley, his Spiritual Sense lightly scanned it, and all the Spirit Medicines in the Storage Bag were displayed in front of him, making him extremely excited.

Undoubtedly, the Spirit Medicines in this Storage Bag were what he desired.

The variety of Spirit Medicines inside was too vast, at least several dozen kinds.

Although most were Tier One Spirit Medicines, there was a fair amount of Tier Two Spirit Medicines as well.

If he cultivated all of them in the Exquisite Tower, there would definitely be a significant yield.

"Wait a moment, this seems to be a Tier Three Spirit Medicine, Purple Rhyme Spirit Ginseng, with at least five hundred years of Medicinal Power."

Jiang Fan's eyes immediately brightened.

He immediately saw a ginseng in the Storage Bag, entirely purple, seemingly inscribed with special runes, exuding a rich Spiritual Qi that was mouthwatering.

Evidently, this ginseng with five hundred years of Medicinal Power was highly valuable.

Even a Golden Core Zhenren would be envious upon seeing it, feeling heartened at once.

If he took this ginseng, his Cultivation would surely breakthrough.

By then, advancing to Ninth-Layer Foundation Establishment would be effortless.

At the same time, it's also a kind of Body Tempering Spirit Medicine, which could greatly enhance the vitality and blood within.

Whoosh!

Thinking of this, Jiang Fan's figure flickered, arriving at the internal spatial world of the Exquisite Tower.

At this moment, compared to before, the internal world had undergone drastic changes.

The ground was covered in black soil, filled with a lot of mysterious substances.

This made it easier for any Spirit Medicine planted on it to survive.

Simultaneously, the area of the internal world had also expanded, more than doubled compared to before.

Around it, there was also abundant Heaven and Earth Spiritual Qi.

Boom~~

Without any hesitation, Jiang Fan planted every sprig of Spirit Medicine from himself here.

The Heavenly Flower on him was also naturally planted in this place.

Due to the excellent environment here and the help from the Artifact Spirit in planting, even if he knew nothing about planting, those Spirit Medicines could easily survive.

"The success of planting Spirit Medicines is greatly related to Spiritual Soil."

"If the soil is inadequate, the Spirit Medicines can easily die."

"That's why the Exquisite Tower can become a world-renowned Medicinal Garden, thanks to its special Spiritual Soil."

"And this Spiritual Soil comes from the Demon Cultivators' remains, even their essence."

"Although the bodies of Demon Cultivators contain darkness, evil, corrosion, curse, etc., these are originally sources of power, containing some sort of special mysterious substances."

"These mysterious substances can be extracted by the Exquisite Tower, then transformed into Spiritual Soil."

"Then, they can be devoured and absorbed by Spirit Medicines, aiding them in growing rapidly."

"Hence, the Exquisite Tower can effortlessly plant a massive amount of Spirit Medicine without worrying about their withering."

Jiang Fan touched his chin.

He noticed the special characteristics of the Exquisite Tower.

Typically, Demon Cultivators' remains were quite difficult to handle; they were essentially pollution sources.

If not properly managed, the polluting power contained in them could destroy areas of Spiritual Land, making the soil unable to support any plant life, let alone plant Spirit Medicines.

But for the Exquisite Tower, Demon Cultivators' remains were prime fertilizers, devoured and absorbed into soil that can aid in the growth of Spirit Medicines.

In a certain sense, it was basically the nemesis of Demon Cultivators and Demons.

No wonder in the Ancient Era, the Exquisite Tower became a thorn in the side of Demons, who wanted to destroy such a Treasure at the earliest opportunity.

If Demons know he possesses the Exquisite Tower, they would surely swarm in, wanting to kill him completely.

...

Another few days passed.

Jiang Fan had finally waited for the cooldown of the Gate of the Void to end.
