

Fortune 412

Chapter 412: Advancing to Ninth-Layer Foundation Establishment, Withered Wood Spring Charm

Three months later.

Southern Continent, within the realms of Profound Celestial Sword Sect, Seven Stars Peak.

A quiet chamber.

Jiang Fan sat cross-legged on the ground, with his body as the center, a massive amount of Heaven and Earth Spiritual Qi surged in, forming a Spiritual Energy Vortex, dramatically increasing the concentration of Spiritual Qi in the chamber.

Clearly, after these three months, his cultivation had advanced by leaps and bounds.

Thanks to the medicinal power of the Purple Rhyme Spirit Ginseng, coupled with the assistance of the Celestial Spirit Root, his cultivation naturally rose to the level of Foundation Establishment Eighth-Layer Perfection, a truly astonishing progress.

A total of ninety-six secondary meridians within him were entirely activated.

At the same time, these meridians merged into one, forming a perfect circulation.

With each circulation, the primordial spiritual power within him grows stronger.

At this moment, he also realized the immense benefit of the Celestial Spirit Root.

Apart from being able to absorb more Heaven and Earth Spiritual Qi, the greatest advantage lies in absolute control over spiritual power; he can effortlessly maneuver every droplet of spiritual power, regardless of the magnitude within him.

This is the control over spiritual power.

Ordinary cultivators generally have mediocre control over spiritual power, often unable to manipulate it when it runs wild, leading to rampant spiritual power and damage to the meridians.

But Celestial Spirit Root cultivators will never encounter such situations.

And possessing absolute control over spiritual power makes it easier to impact bottlenecks.

Being able to use one part of force, they certainly won't use two.

That's why Celestial Spirit Root cultivators are so powerful, progressing faster than ordinary people.

"Surely the Purple Rhyme Spirit Ginseng, the medicinal power contained is indeed vast."

"Just by using half of it, it unexpectedly raised my cultivation to Foundation Establishment Eighth-Layer Perfection."

"Without the assistance of such spirit medicine, my cultivation definitely wouldn't progress so swiftly."

Jiang Fan sensed the surging primordial spiritual power within his body, feeling immensely satisfied.

Not in vain did he diligently practice for a full three months.

Everything was worth it.

"Let's begin."

Thinking about this, Jiang Fan didn't hesitate and activated the Mixed Element Talisman Scripture, letting the primordial spiritual power flow within and started impacting the bottleneck of Foundation Establishment Ninth-Layer; he felt it's time to advance to Foundation Establishment Ninth-Layer.

After all, whether it's accumulation or foundation, he had cultivated to the level of perfection.

If he couldn't break through, then no Foundation Establishment cultivator could.

Boom~~

Instantly, the massive primordial spiritual power launched an attack towards the bottleneck of Foundation Establishment Ninth-Layer, crashing like a flood.

With just a single impact, the bottleneck shattered in response, unable to resist at all.

Evidently, this is the benefit of the Celestial Spirit Root talent, completely ignoring such a small bottleneck.

As long as the cultivation is adequate, one can naturally break through, without worrying about bottlenecks hindering oneself.

Foundation Establishment Ninth-Layer!

At this moment, Jiang Fan sensed another meridian within his body being easily activated, his cultivation had risen to the level of Foundation Establishment Ninth-Layer.

He found his spiritual sense and inner spiritual power inflated further, increased by at least one-third compared to before.

Simultaneously, the size of the primordial talisman deep within the elixir field and sea of qi had also increased by one-third.

"Finally ascended."

Jiang Fan sat cross-legged on the ground, operating the primordial talisman, as the primordial spiritual power within circulated one cycle after another, seemingly forming a stable circulation, with Heaven and Earth Spiritual Qi forming a vortex around.

With each breath, he could absorb a large amount of spiritual qi and then convert it into spiritual power within.

It should be known that for ordinary loose cultivators to aspire to Foundation Establishment Ninth-Layer, usually it would require spending a hundred to two hundred years.

And that's assuming the cultivation path is smooth.

If interrupted by bottlenecks halfway, then they might never ascend to the level of Foundation Establishment Ninth-Layer in this lifetime.

Like Elder Alchemist Wei Song.

Even as a Tier Two High-grade Alchemist, lacking no elixir resources, yet he spent over two hundred years to cultivate up to Foundation Establishment Ninth-Layer, and the problem is at over two hundred years old, he's already aging, essentially having no chance to advance to Golden Core.

Generally, Foundation Establishment cultivators hoping to advance to Golden Core must ascend to Foundation Establishment Ninth-Layer before one hundred and fifty years old, so that the blood and energy within remains rich, and the body vigorous, providing hope.

If one exceeds one hundred and fifty years old, the blood and energy within gradually declines, with the body suffering various hidden ailments, disease-ridden, hence any hope for Golden Core advancement would inevitably fail.

Nonetheless, without longing for Golden Core, Foundation Establishment Ninth-Layer cultivation can also lead a prosperous life.

Even within a Nascent Soul Sect, one can become a steward, wielding considerable power.

Thus, Jiang Fan's achievement of ascending to Foundation Establishment Ninth-Layer in less than thirty years marks him unquestionably as a genius among geniuses.

If this matter spreads, it will undoubtedly shake the territories of Profound Celestial Sword Sect.

Of course, such fame might make him a target, coveted by other cultivators.

After all, a loose cultivator advancing this fast, faster than sect true disciples, is indeed bewildering.

At that point, perhaps even a Golden Core Zhenren might fix their eyes on him.

Therefore, fame for genius loose cultivators is not necessarily a good thing.

"Did I really ascend to Foundation Establishment Ninth-Layer just like this? It's simply too easy, too effortless."

Seeing this, Ten Thousand Transformations Pill Furnace sighed deeply.

It recalled the scenes of Daoist Wan Hua's cultivation in the past, encountering countless hardships to ascend to Foundation Establishment Ninth-Layer, chased by numerous Foundation Establishment cultivators, enduring immense trials to reach this level.
