Chapter 413: Advancing to Ninth-Layer Foundation Establishment, Withered Wood Spring Charm\_2

But now as a master, he has hardly gone through any tribulations, countless opportunities came his way, and he easily advanced to the Ninth-Layer Foundation Establishment Realm. The difference between people is truly vast.

If Daoist Wan Hua knew about this, he would surely be infuriated back to life.

"Haha, isn't this only natural?"

"The master is a Celestial Spirit Root Cultivator, with top-notch aptitude, no bottlenecks to speak of."

"If it were the Ancient Era, the master might have advanced to the Ninth-Layer Foundation Establishment before turning twenty and could attempt the Golden Core."

"Sadly, in this era, Spiritual Qi is thin and Spirit Medicine scarce, making the master's path to cultivation so arduous."

"Cultivation speed so slow."

The Demon-Vibrating Bell said faintly, feeling this was only normal.

If he hadn't advanced to the Ninth-Layer Foundation Establishment, that would be truly unbelievable.

"Arduous path to cultivation?"

Upon hearing this, the Ten Thousand Transformations Pill Furnace was speechless, wondering what the old thing was talking about; if this kid's path was called arduous, then other Loose Cultivators might as well bang their heads and die.

In its eyes, its master's path to cultivation was already as smooth as it could be.

Of course, this comparison is not quite appropriate.

If its master joined a Nascent Soul Sect or Divinity Transformation Sect, he would surely become a Direct Disciple immediately, and perhaps even be nurtured as a Daoist.

At that time, there would be no need to painstakingly seek opportunities on his own.

From this perspective, it indeed can be considered arduous.

"Next is to engrave a new Life Talisman."

Jiang Fan stroked his chin.

He couldn't be bothered with the idle chatter between Ten Thousand Transformations Pill Furnace and Demon-Vibrating Bell; he was eagerly anticipating the ninth Life Talisman after establishing the foundation. After all, each additional Life Talisman is akin to adding a new trump card.

Therefore, each Life Talisman is crucial to him.

"The ninth Life Talisman should be the Withered Wood Spring Charm!"

It didn't take long for Jiang Fan to make his choice.

The reason for choosing the Withered Wood Spring Charm was naturally to cultivate Spirit Medicine and Spirit Rice.

Once this Talisman is used, it can revive withered wood, and also accelerate the growth of Spirit Medicine and Spirit Rice.

Many Spirit Plant Masters need to learn this magic.

"The reason the Withered Wood Spring Charm is effective on Spirit Plants is because it can condense the Spiritual Liquid from between Heaven and Earth; this Wood Element Spiritual Liquid can heal the injuries of Spirit Plants and also accelerate their growth."

"The higher the Skill Level, the more Spiritual Liquid is condensed, and the higher the purity."

"This Spiritual Liquid can also be called Growth Spiritual Liquid, containing immense Life Force."

"This Talisman not only affects plants but can also have effects on fleshly beings."

"If used on injured Cultivators, it can also rapidly heal them."

Jiang Fan stroked his chin.

He looked at the information about the Withered Wood Spring Charm and instantly understood the mystery of this Talisman.

After all, as a Tier Two Upper Grade Rune Master, he had long mastered numerous Tier Two Talismans.

Therefore, as an auxiliary type Talisman, its function is immensely significant.

With this thought, he did not hesitate and began engraving the Withered Wood Spring Charm.

Rumble~~

At this moment, Jiang Fan sat cross-legged on the ground, operating the Mixed Element Talisman Scripture, deep within the Elixir Field and Sea of Qi, the Primordial Talisman began to spin, with patterns of Talisman inscriptions merging on its surface.

With the aid of Destiny, it was as if he had divine assistance, like a Grandmaster, without any mistakes.

No one knew how much time had passed.

The Withered Wood Spring Charm was finally completed.

Boom~~

In an instant, the Withered Wood Spring Charm appeared on the Primordial Talisman, emitting a cyan light that attracted the thick Life Energy between Heaven and Earth, containing incredible power.

"It's done."

Jiang Fan opened his eyes, feeling very satisfied.

Currently, he had eighteen Life Talismans, and looking at the history of the Primordial Talisman Sect, it was likely no Cultivator could achieve this.

After all, wanting to engrave a Life Talisman at every realm level is almost impossible.

The time required is simply too much.

Ordinary Cultivators cannot achieve this.

Only special existences like Jiang Fan can engrave a Life Talisman at every realm level.

This is his unique skill.

Of course, possessing so many Life Talismans also creates a powerful foundation and root.

This makes his Primordial Spiritual Power even more massive, other Cultivators at the same level can hardly compare.

Even as his Cultivation continues to improve, the gap will only become greater.

So great it cannot be bridged.

Swish!

In the next moment, Jiang Fan's figure flickered and he arrived in the inner world of the Exquisite Tower.

At this moment, a section was planted with Tier Two Spirit Rice — Jade Bamboo Spirit Rice.

This Spirit Rice was something he acquired from the Spirit Moon Secret Realm: its entire body was emerald green, crystalline, and pure, yet it contained pure energy.

Long-term consumption of Jade Bamboo Spirit Rice allows one to temper the Physique and enhance Cultivation.

And compared with consuming Elixir, eating Spirit Rice has no side effects.

However, successfully cultivating Jade Bamboo Spirit Rice isn't easy.

Typically, Tier One Spirit Rice matures once a year, with high yield.

But Tier Two Spirit Rice — Jade Bamboo Spirit Rice matures once a decade, with low yield and high price.

Only a few Foundation Establishment Cultivators and Golden Core Cultivators are qualified to consume.

But if Jiang Fan can cultivate Jade Bamboo Spirit Rice on a large scale, the benefits would be immense.

Rumble~~

At this time, Jiang Fan stirred inside, immediately activating the Life Talisman on him — the Withered Wood Spring Charm.

A cyan Talisman appeared in mid-air, transforming into the center of a vortex, attracting the Life Force between Heaven and Earth.

Soon after, droplets of emerald green mysterious Spiritual Liquid condensed and began to drop into the roots of Jade Bamboo Spirit Rice.

Before long, the Jade Bamboo Spirit Rice, originally still in a seedling state, rapidly absorbed Earth Qi, water vapor, and Spiritual Qi, growing and bearing fruits, transforming into a lush bamboo with grains, exuding dense Spiritual Qi.

"No wonder the Withered Wood Spring Charm, even at Entry Level, has a significant effect on Spirit Plants."

"With the promotion from this Growth Spiritual Liquid, Jade Bamboo Spirit Rice originally taking ten years to mature now only needs seven."

Jiang Fan stroked his chin, feeling pleased.

Though seven years is a long time, this is merely the effect of the Entry Level of the Withered Wood Spring Charm. If Skill Level reaches Skilled, Mastery, or even Perfection Level, then the effect of this Talisman may reach a stage where maturity is shortened to half a year or even two to three months.

By then, he would attain freedom with Tier Two Spirit Rice.

Thereafter, he wouldn't need to go elsewhere to purchase Spirit Rice.

Moreover, besides Spirit Rice, other Spirit Medicine would have the same effect.

For instance, the Heavenly Flower.

Originally taking three thousand years to grow, if continually ripened, it might only take hundreds of years or even a few decades; but this is a matter for the future.

Boom~~

With this thought, Jiang Fan stirred inside and immediately opened his Virtual Panel.

After all, he has advanced to the Ninth-Layer Foundation Establishment, reaching the highest realm of Foundation Establishment.

If he continues to advance, the next step would be the Golden Core Realm.

This is the supreme realm countless Loose Cultivators dream of.

Once the Golden Core is achieved, one becomes a ruler of an area, can establish a force, and dominate for centuries.

This is equivalent to the lifespan of a mortal dynasty.
