Chapter 416: Avoiding Disaster, Gaining a Sixth-Grade Opportunity

"Husband, what's wrong?"

At this moment, Su Weiwei curiously looked at Jiang Fan. She noticed something off about her husband's expression and couldn't help but ask, wanting to know what happened.

"No, it's just from what you said earlier, it seems the territory of the Profound Celestial Sword Sect is no longer safe."

"Let's pack our things and leave the Seven Stars Peak tomorrow."

Jiang Fan said solemnly, announcing his decision.

"Leave Seven Stars Peak?"

"Where are we going next?"

Hearing this, Su Weiwei blinked her beautiful eyes.

She hadn't expected her man to make such a decision all of a sudden.

But she had long since grown accustomed to it.

After all, she had followed her husband everywhere before, avoiding many disasters and gaining numerous opportunities.

Although life on Seven Stars Peak was indeed good, if they were to get caught up in disaster, especially if demon cultivators attacked, staying here would be a dead end.

"Hmm, let's go back to the Ten Thousand Beasts Mountain Range."

"It's said that the Ten Thousand Beasts Mountain Range has become a lot safer, and it should be quite suitable for our cultivation."

Jiang Fan smiled slightly.

"Go back to the Ten Thousand Beasts Mountain Range?"

"Alright, I'll pack up, and then we'll leave."

Su Weiwei nodded.

She had no objections to going anywhere, as long as she was with her husband, that was enough.

She was also looking forward to life in the Ten Thousand Beasts Mountain Range.

Perhaps there would be many opportunities there as well.

Another day passed.

Jiang Fan and Su Weiwei bid farewell to Elder Alchemist Wei Song and the others, saying they were going to the Ten Thousand Beasts Mountain Range and won't be back at Seven Stars Peak for a while.

To Elder Alchemist Wei Song and the others, this was not strange, as Foundation Establishment Cultivators often went on long journeys.

Sometimes they would leave Seven Stars Peak for months or even a year.

After all, staying at home all the time meant missing any opportunities.

Whoosh!

Thus, Jiang Fan took Su Weiwei and flew towards the Ten Thousand Beasts Mountain Range.

Although the distance from Seven Stars Peak to the Ten Thousand Beasts Mountain Range was at least tens of thousands of miles, with Jiang Fan's current flying speed, even with breaks in between, they should be able to get there in a month or two.

Moreover, through Elder Alchemist Wei Song's connections, he obtained a map of the Profound Celestial Sword Sect's territory and a brief map of the Ten Thousand Beasts Mountain Range, so he wasn't worried about getting lost.

...

Another seven or eight days passed.

Seven Stars Peak once again welcomed uninvited guests.

A group of cultivators from the Profound Celestial Sword Sect arrived, demanding that Elder Alchemist Wei Song and the others join the Profound Celestial Sword Sect's ranks to hunt down the demon cultivators that had been emerging frequently recently.

And they couldn't refuse, or else they'd be deemed demon collaborator and killed without mercy.

"What? Summoned by the Profound Celestial Sword Sect again?"

"How long has it been since the last time? The Profound Celestial Sword Sect really treats us like livestock, using us as they please."

Chang Lisheng burst with anger, infuriated by the Profound Celestial Sword Sect's actions.

The last time they were summoned by the Profound Celestial Sword Sect, they were caught in a war with the Shennong Sect, barely escaping with their lives.

He originally thought there wouldn't be another summoning anytime soon.

Who could have thought, now he's being summoned again to deal with demon cultivators.

"Sigh, it's unavoidable."

"We are within the Profound Celestial Sword Sect's domain, after all."

"As long as we stay here, we're subjects of the Profound Celestial Sword Sect and have the obligation to be summoned."

"Unless we leave this territory, we can't avoid it."

"Especially for cultivators with families, it's even more impossible to escape."

Elder Alchemist Wei Song sighed helplessly.

Honestly, he was quite surprised by the Profound Celestial Sword Sect's renewed summoning.

There were no signs of this happening, and even his contacts within the Profound Celestial Sword Sect didn't inform him.

Clearly, it was an unexpected event.

It was probably a direct order from the high-ups of the Profound Celestial Sword Sect, given the short notice, so he didn't hear of it.

Even if he had known, he couldn't have left.

Because his entire life's work was here, deeply rooted.

It's not like a monk can run away without the temple.

"Wait, where did Fellow Daoist Jiang and Fellow Daoist Su go? Why haven't they been summoned?"

Yu Kelian looked around but didn't see Jiang Fan and Su Weiwei, feeling quite puzzled, because normally, they would have been summoned as Foundation Establishment Cultivators too.

Yet now, the two were nowhere to be found.

"Well, seven or eight days ago, Fellow Daoist Jiang and his wife said they were heading to the Ten Thousand Beasts Mountain Range, so they left Seven Stars Peak and I don't think they'll be back soon."

Elder Alchemist Wei Song explained.

"No way, how could it be such a coincidence?"

"They had stayed at Seven Stars Peak for cultivation all along, hardly ever leaving."

"But now, just when the Profound Celestial Sword Sect is summoning loose cultivators, they left."

"Did they know beforehand about the Profound Celestial Sword Sect summoning loose cultivators, so they escaped early?"

Yu Kelian said with jealousy all over her face.

This couple had avoided a summons before, and now they did it again.

Twice they had dodged the crises.

The heavens are so unfair, what reason is there?

"This summoning is said to be an order from a Nascent Soul Cultivator."

"And it was only issued yesterday."

"Even the cultivators of the Profound Celestial Sword Sect did not know about this, so it's impossible for Fellow Daoist Jiang to know."

"We can only say that Fellow Daoist Jiang's luck is simply too good."
