Chapter 418: Obtaining Golden Core Spirit Medicine, Three Core Formation Stages

Boom~~

In an instant, the Tier Two Golden-Scaled Beast displayed its fierce might after slaying the Foundation Establishment Sword Cultivator.

Golden rays burst forth from its body, containing a terrifying Power of Sharpness, locking onto the breath of Jiang Fan and Su Weiwei, attempting to kill them both completely.

Moreover, it attacked with all its strength, without any intention of playing around.

Because as a Demon Beast, it could sense the threat from Jiang Fan, realizing that this human was extraordinary.

If it didn't give its all, today might be the day of its demise.

Profound Turtle Talisman!

With a thought, Jiang Fan immediately activated his Life Talisman—the Profound Turtle Talisman.

An energy shield instantly enveloped himself and Su Weiwei.

Just like a giant Profound Turtle Shell, dense Turtle markings and Profound Turtle Runes appeared on it, layered together, containing immense defense.

Thump thump thump!!!

The next second, the golden rays struck the Profound Turtle Shield, unleashing a horrifying destructive power akin to the one that instantly killed the Foundation Establishment Sword Cultivator.

But this destructive force had no effect on the Profound Turtle Shield.

It was like stones falling into the sea, merely causing ripples.

The Profound Turtle Shield couldn't be breached.

Seeing this, the Tier Two Golden-Scaled Beast was shocked; it hadn't expected its deadly strike to be ineffective against this human cultivator, finding it unbelievable.

For a moment, it hesitated.

After all, it wasn't foolish; encountering a human cultivator too powerful, it wouldn't be foolish enough to deliver itself to death.

The problem was that Jiang Fan wouldn't give the Golden-Scaled Beast any chance to escape.

Life Talisman—Ice Talisman!

In an instant, Jiang Fan activated his second Life Talisman—Ice Talisman. He had already mastered this talisman's skill to Perfection Level.

Just with a thought, the power of this Life Talisman erupted.

Centered on his body, an endless chill burst out, sweeping in all directions like a polar ice current, engulfing swiftly.

Rumble~~

Before the Tier Two Golden-Scaled Beast could react, the white cold wave spread rapidly, freezing the nearby earth, mountains, and rivers into ice sculptures covered in thick ice.

Snowflakes drifted in the sky, the temperature around dropped sharply by dozens of degrees.

In an instant, the Tier Two Golden-Scaled Beast was enveloped by the cold wave. Its massive body was shrouded in terrifying cold, quickly freezing into a huge ice sculpture.

Even more frightening, the chill penetrated its golden scales, reached its internal organs, and even froze its blood.

Although the Golden-Scaled Beast's defense was strong, it could only resist physical attacks like those from Sword Cultivators.

Against the magic attacks like the Ice Talisman, such energy attacks, it couldn't resist.

Thud!

At this moment, the frozen Tier Two Golden-Scaled Beast fell from the sky, slamming into the ground, creating a massive pit.

Its eyes were wide open, showing endless fear, shock, and disbelief, unable to comprehend being slain by a human cultivator.

Regardless of its thoughts, it couldn't withstand the terrifying cold wave; its vitality was completely stripped away, showcasing the power of the Perfection Level Ice Talisman.

"Is it dead?"

Seeing this, Su Weiwei's beautiful eyes widened, feeling astonished.

Though she believed the Tier Two Golden-Scaled Beast wasn't a match for her husband, she hadn't expected it to be dealt with so effortlessly.

She realized she had underestimated her husband's combat strength, beyond what ordinary Foundation Establishment cultivators could compare.

Even the Foundation Establishment True Inheritance from a Nascent Soul Sect might only be this powerful.

"Yes, it's dead."

Jiang Fan nodded.

He felt sentimental, remembering that this Tier Two Golden-Scaled Beast could once kill him swiftly.

But today, it was his turn to swiftly slay the Tier Two Demon Beast.

That's the cycle of karma.

Unfortunately, the Tier Two Golden-Scaled Beast didn't understand Seeking Fortune and Avoiding Evil, not knowing today it would face doom.

Thus, Jiang Fan killed it here, dying an unnatural death.

Presumably, this Tier Two Demon Beast had roamed in the Ten Thousand Beasts Mountain Range for quite some time, ambushing many human cultivators.

Its actions seemed cautious.

But unfortunately, it encountered Jiang Fan, ending its journey here.

Boom~~

Thinking of this, Jiang Fan waved his hand, placing the Tier Two Golden-Scaled Beast's carcass inside the Exquisite Tower's internal space.

He then used the Cyan Lotus Earth Fire Talisman to burn the ground, turning all human cultivators' corpses to ashes.

Soon, he collected these human cultivators' Storage Bags.

Swoosh!

After all this, he flashed away with Su Weiwei.

After all, this place still belonged to the Great Sun Sword Sect territory.

With a Foundation Establishment Sword Cultivator from the sect dead, unpredictable actions might follow.

Even if this Foundation Establishment Sword Cultivator wasn't killed by him, the sect's tyranny might not treat him kindly, and he'd rather not explain anything, choosing to leave swiftly and consider this an unsolved mystery.
