

Fortune 424

Chapter 424: A Thrilling Calamity, Gaining a Seventh-Grade Opportunity_2

His eyes were wide open, revealing endless terror.

It seemed unimaginable to him that he was actually killed by a mere Foundation Establishment Loose Cultivator.

Clearly, he had boundless prospects for the future.

If he had continued cultivating smoothly, even becoming a Golden Core Demon Cultivator would not be out of reach.

But now, he was slain by a Foundation Establishment Loose Cultivator. How could such a thing happen?!

At this moment, the soul of this Foundation Establishment Loose Cultivator was shattered by the Pure Yang Exorcism Talisman, leaving only a corpse.

"How could there be a Demon Cultivator on Purple Spirit Peak?"

Seeing this scene, Su Weiwei was stunned.

She had come to her new home full of joy, who would have thought that a Foundation Establishment Demon Cultivator would suddenly appear?

Luckily, her husband's strength was powerful.

With just one encounter, he killed this Foundation Establishment Demon Cultivator.

If they didn't have enough strength, they would probably have been the ones to die.

"It's probably from outside, wandering around."

Jiang Fan said in a deep voice, revealing his guess in full.

"So, does that mean these Demon Cultivators might be wandering everywhere?!"

"Although the Profound Celestial Sword Sect is hunting down Demon Cultivators, these Demon Cultivators certainly won't sit by and wait for death."

"Those with strength might still stay within the Profound Celestial Sword Sect's territory."

"Those Demon Cultivators without strength might escape to various places, possibly even to the Ten Thousand Beasts Mountain Range."

Su Weiwei said gravely.

She felt that the events happening within the Profound Celestial Sword Sect not only affected the sect itself.

They might also impact all the forces in the surrounding areas.

It's like pulling one hair might move the entire body.

"Yes, but now Purple Spirit Peak is safe."

"No other Demon Cultivators are lurking on the entire mountain peak."

Jiang Fan's Spiritual Sense gently scanned, covering the area.

He scanned back and forth more than a dozen times, thoroughly examining every corner, and only then did he feel at ease.

Of course, most importantly, his Fortune-Telling Talisman did not activate, which indicated no calamity would occur.

So he could be completely at ease.

"The Great Sun Sword Sect's Tier Two Array is really quite trash."

"It couldn't even block a Foundation Establishment Demon Cultivator? Allowing any Foundation Establishment Cultivator to enter freely?"

"How is this different from having no array at all?"

Su Weiwei gritted her teeth, feeling that the Great Sun Sword Sect was really unreliable.

If it wasn't for her husband, but another Foundation Establishment Loose Cultivator, they might have really been in trouble.

"There's nothing that can be done, after all, it's just a Golden Core Influence."

"Naturally, it can't be compared to a Nascent Soul Influence like the Profound Celestial Sword Sect."

"Besides, this isn't a place where they've invested much effort, so being negligent is quite normal."

Jiang Fan shook his head, speaking with helplessness.

"Husband, should we inform the Great Sun Sword Sect about this?"

"There's a flaw here, and those bastards should compensate us."

Su Weiwei clenched her fists.

"Informing the Great Sun Sword Sect is useless."

"Given their current situation, they probably don't even have money to compensate."

"Moreover, if word of this incident got out, it might alert any accomplices."

"Who knows if this Foundation Establishment Demon Cultivator had any other partners."

"Better to let sleeping dogs lie."

Jiang Fan said in a serious tone.

"Mm."

Su Weiwei nodded, for now, she could only swallow this silent loss.

Considering the domineering nature of the Great Sun Sword Sect, compensation was unlikely.

Instead, if word got out, it might bring unnecessary trouble.

Before long, the two entered Purple Spirit Peak.

On the mountain, only a simple wooden house was built, with no domicile.

But for Jiang Fan and Su Weiwei, this didn't matter at all.

Their requirements for living accommodations weren't high.

Furthermore, they could remodel this place in the future.

Then, Jiang Fan took out the Tier Two Five Elements Spirit Gathering Array, placed it deep in the Spirit Vein, replacing the previous simplistic Tier Two Array.

A Five Elements Barrier immediately enveloped all of Purple Spirit Mountain.

The Spiritual Qi deep within the Spirit Vein gathered, greatly increasing the concentration of Spiritual Qi.

"Husband, although this place is simple, the Spirit Vein's level is very high."

"At least it's a Tier Two Upper Grade Spirit Vein."

"Better than the Spirit Vein of Seven Stars Peak before."

Su Weiwei said joyfully; for Foundation Establishment Cultivators, the higher the Spirit Vein level, the better.

This means an excellent cultivation environment, capable of inhaling more Heaven and Earth Spiritual Qi.

Furthermore, Spirit Veins vary in grades.

For example, the Spirit Vein of Seven Stars Peak before was only a Tier Two Middle Grade.

If it were a Tier Two Upper Grade Spirit Vein, the rent would probably be higher.

In a sense, the two of them had stumbled upon a great fortune.

"Indeed, it's not bad."

Jiang Fan nodded.

If he wanted to advance to Golden Core, it would be best to find a Tier Three Spirit Vein.

But if he only wanted to reach Foundation Establishment Perfection Level, a Tier Two Upper Grade Spirit Vein was sufficient.

Boom~~

At this moment, deep in Jiang Fan's consciousness, a message arrived: "You encountered an assassination attempt by a Foundation Establishment Demon Cultivator. Fortunately, you were cautious and detected the Demon Cultivator's actions in advance, counter-killing the Foundation Establishment

Demon Cultivator. You luckily survived and received twenty thousand Luck Points and a Seventh-Grade Opportunity."

Obviously, now he had narrowly passed through a calamity and gained a large amount of destiny.

Moreover, this time it was indeed thrilling but without danger.

If he had gone to Plum Blossom Peak, he would have been completely safe, but also without any rewards.

Arriving at Purple Spirit Peak, though encountering danger, he was unscathed and gained a Seventh-Grade Opportunity.

So in any case, it was very worthwhile.

"The Seventh-Grade Opportunity is on top of Purple Spirit Mountain?"

Jiang Fan's heart was stirred, sensing the message of the Seventh-Grade Opportunity.

He discovered that this Seventh-Grade Opportunity wasn't the Storage Bag left by the Foundation Establishment Demon Cultivator, but on Purple Spirit Mountain.

Swish!

At this moment, his figure flashed, arriving under one of the purple trees on Purple Spirit Mountain, and began excavating the ground.

Before long, he unearthed a Space Ring from deep underground.

Evidently, this Space Ring was the Seventh-Grade Opportunity.

To be honest, the location of this Seventh-Grade Opportunity was too well-hidden.

Who knows which cultivator left it here.

If it weren't for the guidance of destiny, he would never have discovered it.

"What's this?"

Jiang Fan moved his mind, opening the Space Ring.

He found it contained a lot of ordinary materials, but most importantly, there was a Gray Gourd.

Inside the Gray Gourd was Red Spiritual Liquid, brimming with immense heat.

Immediately, he took the gourd out, allowing the Ten Thousand Transformations Pill Furnace to appraise it.

"Master, this is something great."

"This is Three Yang Qi Nourishing Spiritual Liquid, containing Pure Yang Energy."

"For Foundation Establishment Cultivators, it's one of the best cultivation resources."

"After consumption, it can rapidly enhance the Spiritual Power within the body, and there are no side effects."

"Unfortunately, the quantity of this Spiritual Liquid is exceedingly rare."

"Even at auction houses, it's not purchasable."

"Unexpectedly, Master managed to acquire this special Spiritual Liquid."

The Ten Thousand Transformations Pill Furnace expressed its admiration.

Although it knew that its Master's luck was extraordinary, it didn't expect that just by casually renting a Spirit Vein, such a significant opportunity could be found, truly miraculous.

It was simply as if Heaven itself favored its Master.

"Three Yang Qi Nourishing Spiritual Liquid?"

Upon hearing this, Jiang Fan felt very satisfied.

He had previously obtained Golden Core Spirit Medicine, and now acquired Three Yang Qi Nourishing Spiritual Liquid, it seemed his time to cultivate to the Foundation Establishment Perfection Level would be greatly shortened.

Indeed, returning to the Ten Thousand Beasts Mountain Range was the right decision, for this place was truly rich with opportunities.

This place could be considered one of his blessed lands.

...

Several days passed.

Jiang Fan and Su Weiwei had completely settled on Purple Spirit Mountain.

Simultaneously, the entire mountain was covered by the Five Elements Spirit Gathering Array, impervious to ordinary Foundation Establishment Cultivators.

Moreover, after eliminating this Foundation Establishment Demon Cultivator, no one came seeking revenge.

It was likely that this Foundation Establishment Demon Cultivator was a lone wolf, so even killing him wouldn't provoke any trouble.

Boom~~

At this time, Jiang Fan was in a quiet room, consuming some Three Yang Qi Nourishing Spiritual Liquid. Then he activated the Mixed Element Talisman Scripture, rapidly refining the liquid, instantly feeling a warm current spreading throughout his body.

He sensed the Primordial Talisman voraciously devouring the energy from the liquid, condensing drop by drop of Primordial Spiritual Power within his body.

Obviously, with the assistance of this Spiritual Liquid, his progress in cultivation advanced rapidly.

At this moment, he was fully immersed in cultivation, oblivious to the passage of time.
