

## **Fortune 426**

Chapter 426: Infighting in the Great Sun Sword Sect, Catastrophe Erupts!\_2

If you want to achieve complete success, it will take a long time.

Meanwhile, the number of Spirit Stones he possessed reached 3.8 million.

This was an extremely astonishing amount of wealth.

Even for a wealthy Golden Core Zhenren, it was likely just so.

However, for Jiang Fan, it wasn't much; opening the Gate of the Void once or twice would probably consume it all.

...

Another hour passed.

After consolidating his cultivation, Jiang Fan left the Exquisite Tower and returned to Purple Spirit Peak.

Currently, Purple Spirit Peak had undergone quite a bit of change.

The houses on top of the mountain were completely repaired.

Meanwhile, the surrounding land was planted with some Spirit Rice and Spirit Medicine, appearing full of vitality.

Six-winged Poison Bees flew around like guards, protecting this peak.

Apparently, Su Weiwei's cultivation had also greatly progressed during this period and had advanced to the Second-Layer Foundation Establishment.

Unfortunately, she was still unable to hatch the Purple Lightning Mayfly.

Even so, with the power of the Six-winged Poison Bees, her combat strength was quite formidable.

Ordinary early-stage Foundation Establishment cultivators were no match for her.

"Husband, did you know something happened at Green Bamboo Peak?"

At this time, Su Weiwei came in from outside and shared the information she had gathered.

"Something happened at Green Bamboo Peak? What exactly happened?"

Jiang Fan raised an eyebrow, recalling the previous three Tier Two Spirit Veins, which were Plum Blossom Peak, Purple Spirit Peak, and Green Bamboo Peak. He had chosen Purple Spirit Peak, abandoning Plum Blossom Peak and Green Bamboo Peak.

Green Bamboo Peak seemed to be facing a great disaster, but he didn't know what kind of disaster it was.

"It is said that Green Bamboo Peak was rented by a Foundation Establishment of Loose Cultivators."

"Who would have thought that in a few days, a Tier Three Demon Beast would suddenly pass by."

"As a result, the entire Green Bamboo Peak was destroyed."

"Naturally, the cultivators residing on the mountain could not escape either."

"Fortunately, we did not reside on Green Bamboo Peak back then; otherwise, we would have certainly been unlucky."

Su Weiwei remarked with great emotion.

She thought the Foundation Establishment cultivators residing at Green Bamboo Peak had encountered a disaster out of nowhere.

Who would have thought a Tier Three Demon Beast would suddenly pass by?

It was a misfortune falling from the sky, unpredictable by anyone.

"A Tier Three Demon Beast passing by?"

Upon hearing this, Jiang Fan was stunned, never expecting such a thing to happen.

No wonder the Fortune-Telling Talisman said that living on Green Bamboo Peak might encounter great calamity.

And it was the kind that could not be avoided.

Luckily, he did not stay at Green Bamboo Peak, or he would have also faced disaster.

It could be said that the pass of that Tier Three Demon Beast through Green Bamboo Peak was inevitable.

"After that Tier Three Demon Beast appeared, the entire Great Sun Sword Sect was on high alert."

"After all, the current situation of the Great Sun Sword Sect is not very good; the Golden Core Zhenren is injured and temporarily unable to recover."

"If they were attacked by a Tier Three Demon Beast, they would undoubtedly suffer heavy losses."

Su Weiwei continued.

Evidently, the appearance of that Tier Three Demon Beast made all the cultivators of the Great Sun Sword Sect extremely nervous.

A little carelessness could lead to disaster affecting the whole sect.

Normally, this area is located on the periphery of the Ten Thousand Beasts Mountain Range, and Tier Three Demon Beasts shouldn't appear here.

Yet that Tier Three Demon Beast appeared.

So some cultivators speculated if some change occurred in the core area of the Ten Thousand Beasts Mountain Range.

However, for all major human forces, the core area remains an absolute forbidden zone.

Very few cultivators can explore the core area deeply.

After all, the core area of the Ten Thousand Beasts Mountain Range is inhabited by numerous Tier Three Demon Beasts and Tier Four Demon Beasts.

And Tier Four Demon Beasts are comparable to the terrifying existence of a Nascent Soul.

So not to mention the Great Sun Sword Sect; even a Nascent Soul Sect like the Profound Celestial Sword Sect would not dare venture too deep into the Ten Thousand Beasts Mountain Range.

It is precisely because of the unique nature of the Ten Thousand Beasts Mountain Range that this place hasn't been controlled by the Profound Celestial Sword Sect.

"Don't worry; this matter probably has nothing to do with us."

"It's highly unlikely to affect our Purple Spirit Peak."

Jiang Fan reassured, as he did not sense any danger, and the Fortune-Telling Talisman had no reaction, so the sudden appearance of the Tier Three Demon Beast was purely an accident.

"Mhm, mhm."

Su Weiwei nodded upon hearing this. Since her husband had assured her so, this place surely wouldn't be too dangerous, and she was completely at ease.

Otherwise, if a Tier Three Demon Beast were to wreak havoc, there wouldn't be any safe place in this region.

...

A few more days passed.

Originally, Jiang Fan thought he could continue cultivating peacefully until reaching the perfection of Foundation Establishment, but who would have expected that the Great Sun Sword Sect suddenly announced shocking news, shaking this region and astonishing countless Loose Cultivators.

That was, the Great Sun Sword Sect had internal conflict.

"Husband, why did the Great Sun Sword Sect suddenly have internal strife?"

Su Weiwei asked curiously.

After all, previously, no matter how you looked at it, there were no signs of internal conflict in the Great Sun Sword Sect.

On the contrary, to heal the Great Sun Sword Sect's Sect Leader, Golden Core Zhenren Teng Hao, these Foundation Establishment cultivators were extremely united.

The sect, from top to bottom, appeared united and friendly.

Who would have thought that after such a short period, internal conflicts and fights would erupt?

"It is said that it was because of a Tier Three Alchemist, Lv Yan Yang, from the Great Sun Sword Sect."

"Previously, he received assistance from the Great Sun Sword Sect to assemble a furnace of Spirit Medicine."

"The result was that he successfully refined the Golden Liquid Jade Returning Pill."

"It was because of this elixir that caused the internal strife within the Great Sun Sword Sect, with various Foundation Establishment Elders engaging in fierce battles."
