Chapter 427: Infighting in the Great Sun Sword Sect, Catastrophe Erupts!_3

Jiang Fan said in a low voice, narrating the information he had gathered truthfully.

"Golden Liquid Jade Returning Pill?"

"Isn't this the special elixir that helps Foundation Establishment cultivators promote to Golden Core?"

"If one consumes this pill, it can increase the probability of Core Formation by at least thirty percent."

"Not even auction houses would have such a special elixir available."

"After all, a single Golden Liquid Jade Returning Pill could forge a Golden Core Zhenren."

"The price of such an elixir is truly exorbitant."

Su Weiwei widened her beautiful eyes; she didn't expect the Great Sun Sword Sect to have actually refined such an elixir.

No wonder the Foundation Establishment cultivators of the Great Sun Sword Sect were fighting fiercely.

After all, this concerned their path to attainment.

If consumed, they would have the chance to break through and become a Golden Core Zhenren.

At that point, they could not only become the Sect Leader of the Great Sun Sword Sect and a dominator of a region but also gain a lifespan of five hundred years. The benefits involved are enormous.

It's simply impossible to measure with numbers.

She felt that if she faced such an elixir herself, she might not even be able to maintain her mindset.

"That's right, if not for the Golden Liquid Jade Returning Pill, there's no way the Great Sun Sword Sect would have had internal strife."

"It's said that when the Golden Liquid Jade Returning Pill was successfully refined, Cen Bai Rui, the third disciple of Golden Core Zhenren Teng Hao, forcefully struck, severely injuring Alchemist Lv Yan Yang and even killing his second senior brother, Lian Zhihua."

"Later, the acting Sect Leader Fei Haisheng arrived in time, attempting to intercept the opponent, but only managed to heavily injure him, and ultimately the opponent escaped with the Golden Liquid Jade Returning Pill."

"Now the Great Sun Sword Sect is doing their utmost to pursue Cen Bai Rui."

"However, they are not doing it openly but rather in secret."

"But this action has also infuriated the acting Sect Leader Fei Haisheng, considering the opponent a traitor, since under normal circumstances, he should have obtained the Golden Liquid Jade Returning Pill."

"Who would have thought that Cen Bai Rui would act without virtue, suddenly launching a sneak attack, stealing the elixir, essentially severing the opponent's path, having long forged a deadly feud, destined to be unending."

Jiang Fan remarked with emotion.

Originally, the sect seemed very harmonious, but eventually, due to interests, internal strife occurred, leading to divergence.

This also inflicted serious damage on the Great Sun Sword Sect, making them truly battered by storms.

"Master, why do I feel you are a calamity star."

"No matter where you go, misfortune follows."

"You've been in the Great Sun Sword Sect for just a short while, and there's already internal strife, causing sect extermination disaster."

"I strongly suspect that Profound Celestial Sword Sect's recent misfortunes are greatly related to you, Master."

"Wouldn't you have stolen the sects' destiny, Master?"

The Ten Thousand Transformations Pill Furnace expressed doubt.

It always felt its master was a calamity star, wherever he went, chaos would ensue.

It's simply a series of disasters, calamities constantly arising, with no peace.

"Like hell it's my fault."

"I'm just an honest and obedient Loose Cultivator."

"What does these sects' misfortune have to do with me?"

"Moreover, I haven't dealt with these sects."

"It's purely their own bad luck. Even without me, would these things not happen?"

Jiang Fan replied irritably.

He firmly denied that it had anything to do with him.

These calamities were not brought by him.

They happened purely because there were calamities and fortuitous events here, guiding destiny to lead him here.
