### Chapter 428: Seeking Fortune and Avoiding Evil, Obtaining Sixth-Grade Opportunity

"Husband, if we look at it this way, that Cen Bai Rui might be the ultimate winner."

"If the Golden Liquid Jade Returning Pill is consumed by him and he successfully advances to the Golden Core, then he will become the second Golden Core Zhenren of the Great Sun Sword Sect and also the next Sect Leader."

"No bounty can have any effect on a Golden Core Zhenren."

Su Weiwei said solemnly. She could see that the so-called bounty by the Great Sun Sword Sect was of no effect at all. It was likely that those sect cultivators would pay lip service without any real effort to hunt down Cen Bai Rui.

After all, if the other party successfully advances to the Golden Core and returns, the entire power structure of the sect will probably be reshuffled.

No one wants to offend a future Golden Core Zhenren.

So even if the acting Sect Leader Fei Haisheng is furious, there is nothing he can do.

"That's right; this is the cruelty of the Cultivation Realm."

"You must fight to gain the Dao path and have a future."

"For Fei Haisheng, of course, this guy is utterly evil, unforgivable, as he cut off his own Golden Core path."

"But for himself, if he doesn't fight, he'll remain in Foundation Establishment for life, with no prospects."

"One can only say that Cen Bai Rui acts decisively and ruthlessly, and he is probably also a deep schemer."

Jiang Fan thought that he was indeed a hegemon. If the other party really advances to the Golden Core in the future, he will undoubtedly make a heavy mark in the Ten Thousand Beasts Mountain Range and even smoothly inherit the Great Sun Sword Sect's legacy.

Even if the other party has done such a rebellious act, probably the Great Sun Sword Sect will hold their noses and accept it.

In any case, the Great Sun Sword Sect truly needs a new Golden Core Zhenren.

If the Golden Core Zhenren Teng Hao falls and no new Golden Core emerges from the Great Sun Sword Sect, the thousand-year legacy might be destroyed overnight.

Compared to the legacy, everything else is insignificant.

"The Cultivation Realm is indeed harsh."

Su Weiwei nodded in agreement. To be honest, it's not just these sect cultivators; even ordinary loose cultivators, for a few Spirit Stones and elixirs, would go all out, killing each other.

Not to mention for the Golden Core path, at such times, no one's face matters; it's simply a matter of life and death.

"Heh, this brat might not even successfully form the Core."

"There are actually quite a few Foundation Establishment cultivators who have obtained the Golden Liquid Jade Returning Pill in the Cultivation Realm."

"But those who truly manage to form the Core are only about thirty percent."

"This elixir only raises the probability of forming the Core, it's not a guarantee of success."

"If this brat fails, then the Great Sun Sword Sect will be truly finished, and it would be nothing but a wasted effort."

The Ten Thousand Transformations Pill Furnace chuckled.

It thought that Cen Bai Rui might not successfully form the Core either.

To successfully form the Core requires favorable timing, location, and human harmony.

Moreover, he is being hunted by the Great Sun Sword Sect, hiding east and west, and severely injured, so he might not have the opportunity to form the Core.

Most importantly, to successfully form the Core, he also needs the aid of a Tier Three Spirit Vein.

If he does not find a Tier Three Spirit Vein but attempts to form the Core forcibly at a Tier Two Spirit Vein, he might fail due to insufficient spiritual qi; in short, nothing is certain.

"That's their business anyway."

"We are just onlookers, watching the changes quietly."

"Hopefully, such a situation won't affect Purple Spirit Peak."

Jiang Fan said indifferently.

He couldn't care less whether the other succeeds or fails, as long as it doesn't involve himself, that's enough.

Boom~~

At this moment, the Fortune-Telling Talisman deep within his Elixir Field and Sea of Qi began to tremble, and a massive flow of information instantly poured into the depths of his consciousness sea.

"Sect conflict, a multitude of sharks approaching, seemingly dangerous but actually safe, blessings hidden within misfortune."

"Three days later, at dusk, go to the southeast to Falling Leaves Ridge, where a Sixth-Grade Opportunity can be found. Though encountering tempest, it will be a thrilling ride but ultimately safe, very auspicious."

"Two days later, at noon, reach the northwest direction towards White Jade Valley to attain a Sixth-Grade Opportunity, but encounter danger; safety is rare and hard to escape, very ominous."

"Stay at Purple Spirit Peak, cultivate quietly, hide your tracks, gain nothing, gain nothing, neutral."

Did it trigger the Fortune-Telling Talisman?!

Perceiving this information, Jiang Fan was secretly shocked. He originally thought these events were not greatly related to him, but now it seems they are linked to his destiny.

All things are, in fact, interconnected; this is the so-called pull one hair and the whole body moves.

"If I continue cultivating at Purple Spirit Peak, it will naturally be safe and sound."

"But there also won't be any gains."

"Knowing that there is an opportunity coming, but watching it slip away, would actually harm destiny."

"This is heaven giving one the opportunity, but if not taken, it will result in misfortune."

"If you don't strive, your destiny will be seized by others."

"One step behind, equivalent to falling behind step by step."

Jiang Fan stroked his chin.

The reason his cultivation progressed rapidly, surpassing peers, was due to continuous opportunities.

If he weren't constantly fighting for them, he wouldn't have cultivated so quickly.

The high probability is that he would still be just a Qi Cultivation Stage Cultivator, not even in Foundation Establishment.

As a cultivator, fighting is a necessity.

Otherwise, such opportunities would fall into other cultivators' hands, benefiting others.

"A multitude of sharks approaching? That means it's not just the Great Sun Sword Sect's Foundation Establishment focused on that individual, probably even other sect cultivators, loose Foundation Establishments, demon Foundation Establishments, are all targeting that guy too."

"After all, that is a Golden Liquid Jade Returning Pill, an extremely precious elixir, priceless."

"Any cultivator who hears this news would be thrilled and moved."
