Chapter 431: Obtaining Dragon Blood Grass, Opportunity for Soaring Snake Technique Breakthrough_2

I'm afraid ordinary Foundation Establishment cultivators can't possibly match the assailant.

"Could it be that a Golden Core from the Ten Thousand Beasts Mountain Range has made a move?"

The face of the Golden Core Demon Cultivator was quite solemn. If a Golden Core Zhenren really appeared nearby, he would have to act cautiously, or he might suffer a great loss.

"Very likely."

"After all, the allure of the Golden Liquid Jade Returning Pill is indeed too great."

The demon cultivator sighed.

"My lord, this is troublesome."

"If it truly is a Golden Core Zhenren who's acted, then the Dragon Blood Grass on Wu the Third's body is unlikely to be retrieved."

Another demon cultivator said, his face changing drastically.

"What do you mean? Wu the Third has Dragon Blood Grass on him?"

"Such a big matter, why didn't you tell me?"

The Golden Core Demon Cultivator clenched his fist, his anger surging.

Because Dragon Blood Grass is an extremely precious Body Tempering Spirit Medicine, even for Golden Core cultivators, it still offers great assistance.

It's said that this Spirit Grass contains a trace of Dragon Blood's power, and it's already extinct in this world.

Who would have thought that someone under his command would be so lucky to obtain Dragon Blood Grass.

"My lord, Wu the Third originally planned to offer you the Dragon Blood Grass."

"But there was simply no time, and he was sent on a mission by you."

"Who could have expected, Wu the Third and his group were attacked by a Golden Core Zhenren."

The demon cultivator said helplessly.

It was clear that they obtained the Dragon Blood Grass due to an opportunity, inadvertently breaking into some Golden Core Cave Mansion, and they gained considerable loot, among which was the rare spirit medicine Dragon Blood Grass.

It makes even Golden Core Zhenren envious.

"Damn it."

Upon hearing this, the Golden Core Demon Cultivator felt heartache; this time, he not only lost many loyal subordinates but also lost the rare spirit medicine Dragon Blood Grass; it was indeed a major loss.

But he had no other way, because now he couldn't find any culprit.

He could only swallow this silent loss.

Meanwhile, in other areas.

Cultivators from Golden Core Sects like the Five Elements Pill Sect, Snow Sect, Thousand Bird Palace, etc., also appeared at this place.

They too silently appeared here, pursuing Cen Bai Rui, attempting to procure the Golden Liquid Jade Returning Pill.

"I didn't expect the Great Sun Sword Sect to suddenly have an internal conflict, and even flee with the Golden Liquid Jade Returning Pill; it's as if heaven wants to extinguish the Great Sun Sword Sect, which is really too good."

Someone said gloatingly.

"The Great Sun Sword Sect may not necessarily perish. If Cen Bai Rui takes the Golden Liquid Jade Returning Pill and successfully ascends to the Golden Core Realm, it can ensure the Great Sun Sword Sect's prosperity for hundreds of years; now he's a traitor, but in the future, he might be a hero."

"This is how the world is; winners take all."

Another cultivator said calmly.

He understood Cen Bai Rui's actions; after all, it's the path to the Golden Core, who would be willing to give it up.

If it were himself, he would likely make the same choice.

"Hehe, wants to become a Golden Core Zhenren, it's not that simple."

"That's right, even with the Golden Liquid Jade Returning Pill, it only increases the chances by thirty percent."

"More importantly, this kid is being hunted, and can't find a stable place to ascend to the Golden Core, without the support of a Tier Three Spirit Vein, it's impossible to ascend to the Golden Core."

"Indeed, without the protection of the Great Sun Sword Sect, forming the core in the outside world is almost impossible; this time not only will the Great Sun Sword Sect lose the Golden Liquid Jade Returning Pill but also lose several Golden Core seeds."

The cultivators sneered coldly.

They were all Foundation Establishment cultivators who had cultivated hard for many years, and naturally knew how difficult it was to ascend to the Golden Core.

Even with sect protection and elixir assistance, the chances of forming the core are not one hundred percent.

There's also a big chance of failure.

If it were really that easy, the number of Golden Core Zhenrens wouldn't be so scarce.

"No matter what, we cannot allow this guy to successfully form the core."

"The best is to find Cen Bai Rui and take away the Golden Liquid Jade Returning Pill from him."

"Completely cut off the hope of the Great Sun Sword Sect to spawn a Golden Core Zhenren."

A cultivator revealed a hint of cold light in his eyes, filled with murderous intent.

They have clearly prepared two strategies.

The best result is obviously to find Cen Bai Rui and seize the Golden Liquid Jade Returning Pill from him.

Even if they can't get the pill, they must prevent Cen Bai Rui from ascending to the Golden Core.

Without a doubt, if the Great Sun Sword Sect fails to produce a new Golden Core, then this thousand-year sect might completely fall, becoming a fat sheep ready for slaughter.

If they could devour the Great Sun Sword Sect, they would definitely be well-fed.

Even though they are all righteous influences, they would absolutely hit the fallen ones when they see them.

For a time, this area began to stir.

...

Another day passed.

Jiang Fan also returned silently to Purple Spirit Peak.

As for what happened in the outside world, it had little to do with him.

After all, this Sixth-Grade Opportunity was completely taken by him, gaining the greatest benefit.

In a quiet room.

Jiang Fan is currently assessing the harvest from this time, obviously, these Foundation Establishment Demon Cultivators were quite wealthy, the treasures inside the storage bag were a dazzling array, as well as a large number of spirit stones.

He carefully counted and obtained a total of one million one hundred thousand spirit stones.

This is indeed a huge sum.

Who knows how many cultivators these Foundation Establishment Demon Cultivators had robbed to get so many spirit stones.

But now all these spirit stones belonged to him; this was indeed the black eating the black.
